Introduction

The following discussion and analysis provides an overview of the financial position and activities of the University of Alaska (University) for the years ended June 30, 2015 (2015) and June 30, 2014 (2014), with selected comparative information for the year ended June 30, 2013 (2013). This discussion has been prepared by management and should be read in conjunction with the financial statements including the notes thereto, which follow this section.

Using the Financial Statements

The University's financial report includes the basic financial statements of the University and the financial statements of the University of Alaska Foundation (Foundation), a legally separate, nonprofit component unit. The three basic financial statements of the University are: the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position and the Statement of Cash Flows. These statements are prepared in accordance with generally accepted accounting principles (Governmental Accounting Standards Board (GASB) pronouncements). The University is presented as a business-type activity. GASB Statement No. 35, *Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities*, establishes standards for external financial reporting for public colleges and universities and classifies resources into three net position categories – unrestricted, restricted, and net investment in capital assets.

The Foundation is presented as a component unit of the University in accordance with GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. The Foundation's financial statements include the Statement of Financial Position and the Statement of Activities and these statements are presented according to U.S. generally accepted accounting principles and Financial Accounting Standards Board (FASB) pronouncements.

The Foundation was established to solicit donations and to hold and manage such assets for the exclusive benefit of the University. Resources managed by the Foundation and distributions made to the University are governed by the Foundation's Board of Trustees (operating independently and separately from the University's Board of Regents). The component unit status of the Foundation indicates that significant resources are held by the Foundation for the sole benefit of the University. However, the University is not accountable for, nor has ownership of, the Foundation's resources.

Statement of Net Position

The Statement of Net Position presents the financial position of the University at the end of the fiscal year and includes all assets, deferred outflows of resources, liabilities and deferred inflows of resources of the University. The net position is one indicator of the financial condition of the University, while the change in net position is an indicator of whether the financial condition has improved or declined during the year.

A summarized comparison of the University's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position at June 30, 2015, 2014 and 2013 follows (\$ in thousands):

(Unaudited – see accompanying accountants' report)

	2015	2014	2013
Assets:			
Current Assets	\$ 217,877	\$ 171,236	\$ 143,039
Other noncurrent assets	360,087	315,979	336,078
Capital assets, net of depreciation	1,544,665	1,447,301_	1,280,298
Total assets	2,122,629	1,934,516	1,759,415
Deferred Outflow of Resources	18,018	1,369	1,491
Liabilities:			
Current liabilities	168,472	117,980	120,515
Noncurrent liabilities	421,557	186,679	196,427
Total liabilities	590,029	304,659	316,942
Total Rabinaes	370,027	304,037	310,742
Deferred Inflow of Resources	23,046		
Net position:			
Net investment in capital assets	1,359,385	1,255,355	1,076,861
Restricted – expendable	59,352	69,987	78,443
Restricted – nonexpendable	131,790	130,853	131,365
Unrestricted	(22,955)	175,031	157,295
Total net position	\$ 1,527,572	\$ 1,631,226	\$ 1,443,964

In fiscal year 2015, the most notable change in the statement of net position regards the recognition of a net pension liability totaling \$188.9 million. The net pension liability is now required to be reported in accordance with a new accounting standard referred to as GASB 68. It is important to note that the new standard does not affect the cash flows or budget of the University, but rather affects the timing of the recognition of pension expense for external financial reporting. More detailed information is available in Note 13 and Note 18 in the Notes to Financial Statements.

Overall, (and not including the effect of implementing GASB 68) total net position of the University increased \$91.5 million, or 5.6 percent. This increase was mainly due to net investment in capital assets increasing by \$104.0 million. The change in net investment in capital assets is discussed in more detail in the *Capital and Debt Activities* section below. The unrestricted net position (not including cumulative net pension expense) totaled \$172.2 million at June 30, 2015, representing a decrease of \$2.8 million over the prior year. At year end, \$138.5 million of the unrestricted net position was designated for specific purposes. See Note 7 of the financial statements for a detailed list of these designations.

Deposits and investments totaled \$435.3 million at June 30, 2015, as compared to \$329.6 million at June 30, 2014. These funds consist of operating funds, endowment funds, funds for capital, and for the Education Trust of Alaska. As discussed later under noncurrent liabilities, the primary reason for the increase relates to the receipt of capital appropriations for construction projects. More information is in Note 2 of the Notes to Financial Statements.

(Unaudited – see accompanying accountants' report)

Liabilities are categorized as either current liabilities or noncurrent liabilities on the Statement of Net Position. Current liabilities are those that are due or will likely be paid in the next fiscal year. They are primarily comprised of accounts payable, accrued payroll and other expenses, insurance and risk management payables, amounts due in the next year on debt, and student deposits.

Noncurrent liabilities are comprised mostly of the net pension liability totaling \$188.9 million, long-term debt of \$173.2 million and unearned revenue of \$54.1 million. The unearned revenue relates to capital appropriation funds received for engineering facilities at the Anchorage campus and the new combined heat and power plant being constructed on the Fairbanks campus.

Total debt outstanding, which includes capital lease obligations, decreased from \$193.1 million at June 30, 2014 to \$184.9 million at June 30, 2015. The decrease was primarily a result of scheduled payments on existing debt. More information is available in the *Capital and Debt Activities* section that follows.

Fiscal Year 2014 Comparisons (Statement of Net Position)

Significant comments about changes between 2013 and 2014 that were noted in fiscal year 2014 *Management's Discussion and Analysis* are summarized below:

The Statement of Net Position reflected an overall increase in net position of 13 percent, or \$187.3 million. Most of this change, or \$178.5 million, is attributed to the increase in the net investment in capital assets.

Total debt outstanding, which includes capital lease obligations, decreased from \$203.1 million at June 30, 2013 to \$193.1 million at June 30, 2014. The decrease was a result of scheduled payments on existing debt.

Unrestricted net position totaled \$175.0 million at June 30, 2014, representing an increase of \$17.7 million over the prior year. At June 30, 2014, \$148.8 million was designated for specific purposes.

Statement of Revenues, Expenses and Changes in Net Position

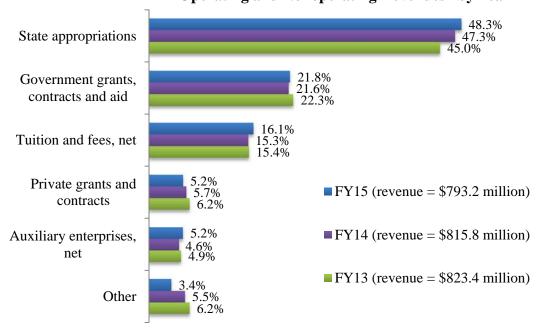

The Statement of Revenues, Expenses and Changes in Net Position presents the results of operations for the University as a whole. Revenues, expenses and other changes in net position are reported as either operating or non-operating. Significant recurring sources of University revenue, such as state appropriations and investment earnings, are defined by GASB Statement No. 35 as non-operating.

A summarized comparison of the University's revenues, expenses and changes in net position for the years ended June 30, 2015, 2014 and 2013 follows (\$ in thousands):

(Unaudited – see accompanying accountants' report)

	2015	2014	2013
Operating revenues	\$ 377,878	\$ 380,433	\$ 397,145
Operating expenses	(960,505)	(841,138)	(828,444)
Operating loss	(582,627)	(460,705)	(431,299)
Net nonoperating revenues	552,524	461,636	449,696

Net position, beginning of year	1,631,226	1,443,964	1,233,758
Cumulative effect of change in accounting principle	(200,001)		
Net position, beginning of year (restated)	1,431,225	1,443,964	1,233,758
Net position, end of year	\$1,527,572	\$1,631,226	\$1,443,964

Operating and Nonoperating Revenues* by Year

^{*} Excludes capital appropriations, grants and contracts, and state on-behalf payments for pension

The fiscal year 2015 Statement of Revenues, Expenses and Changes in Net Position reflects an increase in net position of 6.7% percent, or \$96.3 million. The fiscal year 2015 beginning net position was decreased by \$200 million due to implementation of GASB Statement No. 68, resulting in an overall decrease of \$103.7 million in net position from fiscal year 2014. Major changes in revenues and expenses in 2015 are described below.

State of Alaska general fund appropriations continue to be the single major source of revenue for the University, providing \$383.4 million in 2015, as compared to \$385.9 million in 2014. The appropriations are substantially aimed to fund a portion of the operations, and in some cases are

(Unaudited – see accompanying accountants' report)

targeted for special programs or initiatives. In addition, the state made on-behalf pension payments of \$144.9 million and \$32.9 million directly to the Public Employees' Retirement System (PERS) and Teachers' Retirement System (TRS) defined benefit plans on behalf of the University for fiscal years 2015 and 2014, respectively. The state is paying the cost above the University's employer contribution rate to fully fund the plans at the actuarial computed rate and pay down the net pension liability. The University's employer contribution rates have been capped at 22 percent and 12.56 percent for PERS and TRS, respectively. The pension payments were made on-behalf of the University and are presented as revenue and expense in the University's financial statements in accordance with GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*.

Gross student tuition and fee revenue totaled \$145.2 million in 2015 as compared to \$140.3 million in 2014. The Fall 2014 tuition rates increased \$6 per credit for undergraduate courses, \$12 per credit for graduate courses and \$12 per credit for the non-resident surcharge. However, an overall enrollment decline from Fall 2013 to Fall 2014 of approximately 3.6 percent offset the tuition rate increases.

Operating grant and contract revenue totaled \$189.6 million for 2015, as compared to \$197.0 million in the prior year. The University receives grant funding from a diverse group of federal agencies, the State of Alaska, and private sponsors, including the University of Alaska Foundation. Generally, grant revenue is recorded when expenditures of the grant award occur, so the revenue reported in the financial statements reflects the amount expended in the applicable fiscal year. Grants provide funding primarily for research projects, instructional programs, public service activities and student aid.

Capital appropriations and capital grant and contract revenue decreased from \$186.3 million in 2014 to \$126.5 million in 2015. This revenue category consists mostly of funds appropriated from the State of Alaska's capital budget or from general obligation bonds issued by the State of Alaska for University capital projects. For a more detailed discussion on capital activity, see the *Capital and Debt Activities* section which follows.

Endowment proceeds and investment income totaled \$1.5 million in 2015, as compared to \$19.1 million in 2014. Total return in 2015 from the consolidated endowment fund was negative 1.5 percent as compared to 12.5 percent in 2014. Endowment proceeds also includes yield from, or sales of, trust land, and mineral interests, the net proceeds of which are generally deposited to the land grant endowment trust fund.

A comparison of operating expenses by functional and natural classification for selected fiscal years follows (see Note 19 of the financial statements for more information):

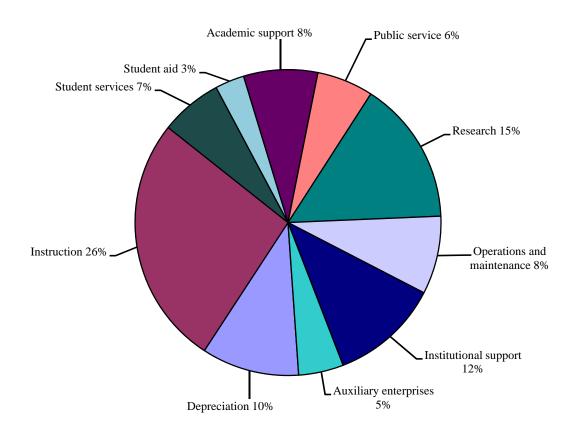

(Unaudited – see accompanying accountants' report)

Operating Expenses*
Functional Classification (\$ in millions)

	FY2015		FY2	2014	FY2013

Total Operating Expenses	\$ 815.6	100.0%	\$808.2	100.0%	\$ 795.5	100.0%

^{*} Does not include On-Behalf payments made by State of Alaska for pension

Total operating expenses increased slightly from \$808.2 million in 2014 to \$815.7 million in 2015. Note that a \$4.8 million adjustment to decrease pension expense across functional categories was recorded in 2015 in connection with implementation of GASB 68. No corresponding adjustment was required or made in 2014. Expenditures related to the student and academic core mission, about 44 percent of all expenditures, showed a \$7.2 million decrease in 2015. For the same period, expenditures for research decreased \$5.8 million, primarily a result of the tapering off of available American Recovery and Reinvestment Act funds, competitive pressures on grant monies and federal sequestration. Amounts expended for institutional support decreased \$0.3 million while

(Unaudited – see accompanying accountants' report)

expenditures for operations and maintenance of facilities decreased \$1.7 million as compared to 2014.

A portion of University resources applied to student accounts for tuition, fees, or room and board are not reported as student aid expense, but are reported in the financial statements as a scholarship allowance, directly offsetting student tuition and fee revenue or auxiliary revenue. Scholarship allowances totaled \$17.4 million in 2015 and \$15.2 million in 2014. In addition to the allowances, students participate in governmental financial aid loan programs. The loans are neither recorded as revenue or expense in the financial statements, but are recorded in the Statements of Cash Flows as direct lending receipts totaling \$73.3 million and \$74.8 million in 2015 and 2014, respectively.

Fiscal Year 2014 Comparisons (Statement of Revenues, Expenses and Changes in Net Position)

Significant comments about changes between 2013 and 2014 that were noted in fiscal year 2014 *Management's Discussion and Analysis* are summarized below:

The Statement of Revenues, Expenses and Changes in Net Position reflected an overall increase in net position of 17 percent, or \$187.3 million.

Gross student tuition and fee revenue totaled \$140.3 million in 2014 as compared to \$141.9 million in 2013. The decrease was primarily due to fall 2012 to fall 2013 enrollment declines of 2.6 percent.

State of Alaska general fund appropriations continue to be the single major source of revenue for the University, providing \$385.9 million in 2014, as compared to \$371.1 million in 2013.

Total operating expenses increased 1.6 percent in 2014 as compared to .2 percent in 2013. Expenditures related to the student and academic core mission, about 45 percent of all expenditures, showed a \$2.8 million increase in 2014. For the same period, expenditures for research decreased \$3.1 million, primarily a result of the tapering off of available American Recovery and Reinvestment Act funds, competitive pressures on grant monies and federal sequestration. Amounts expended for institutional support remained stable while expenditures for operations and maintenance of facilities increased \$5.5 million as compared to 2013.

Capital and Debt Activities

The University continued to modernize various facilities and build new facilities to address emerging state needs. Net capital asset increases (excluding accumulated depreciation) totaled \$177.4 million in 2015, as compared with \$224.9 million in 2014 and \$275.1 million in 2013. These capital additions primarily comprise replacement, renovation, code corrections and new construction of academic and research facilities, as well as investments in equipment and information technology. State capital appropriations for 2015 and 2014 were \$232.4 million and \$62.6 million, respectively. Major components of the 2015 appropriation included (1) \$162 million for the new University of Alaska Fairbanks combined heat and power plant, (2) \$50.6 million for

(Unaudited – see accompanying accountants' report)

the Anchorage campus engineering building and the Fairbanks engineering building and (3) \$19.3 million for numerous high-priority deferred maintenance projects throughout the University system. The 2014 appropriation included \$30 million for deferred maintenance and \$30 million for the Anchorage and Fairbanks engineering buildings.

Construction in progress at June 30, 2015 totaled \$220.8 million and includes the following major projects:

New engineering buildings were underway at both the Fairbanks and Anchorage campuses, to meet the engineering workforce demands of the state and modernize the classroom instruction experience. To date, the buildings have been funded by State of Alaska capital appropriations.

Debt and Capital Leases

At June 30, 2015, total debt outstanding, including capital leases, totaled \$184.9 million. The University traditionally issues general revenue bond tax-exempt debt, and secures the repayment via a master trust indenture with a broad pledge of university receipts.

In previous years, other bonds were issued to finance construction of student residences at three campuses, the West Ridge Research Building, student recreation centers, a research facility to house the International Arctic Research Center, the acquisition and renovation of several properties adjacent to or near the University's campuses, additions to the University's self-operated power, heat, water and telephone utility systems in Fairbanks, purchase of the University Center Building in Anchorage, deferred maintenance projects, and to refund previously issued general revenue bonds and other contractual obligations in order to realize debt service savings.

The University has an Aa2 negative outlook credit rating from Moody's Investors Service and AA-stable outlook rating from Standard and Poor's. These ratings were affirmed in May 2015.

The University has traditionally utilized tax exempt financings to provide for its capital needs or to facilitate systematic renewals. Working capital is available to provide interim cash flow financing for facilities intended to be funded with general revenue bond proceeds or other debt arrangements.

Capital Activities - Looking Ahead and Subsequent to Year End

For fiscal year 2016, the State of Alaska appropriated \$3.0 million to the University for deferred maintenance via its capital budget.

The University began construction of a new combined heat and power plant on the Fairbanks campus. The estimated cost of the plant is \$248 million, with \$157.5 million being funded with debt proceeds and the remaining \$90.5 million funded from a combination of capital and operating appropriations. Subsequent to June 30, 2015, the University issued a general revenue bond and entered into a loan agreement that together provides \$157.5 million for the new plant. More information about the debt is in Note 17 of the *Notes to Financial Statements*.

(Unaudited – see accompanying accountants' report)

Other Economic and Financial Conditions

The following is a description of currently known facts, decisions, or conditions that are expected to have a significant effect on the financial position or results of operations of the University.

In fiscal year 2014, the State of Alaska derived approximately 88% of its general fund unrestricted revenue from the production of petroleum. The recent decline in oil prices has negatively impacted the State's operating budget. The University is a component unit of the State, and for fiscal year 2016 received a \$19.8 million, or 5.3%, decrease to its operating appropriation.

In anticipation of and in response to the appropriation decrease, the University has taken steps to maintain a structural balance through revenue enhancements, such as tuition and fee increases, and expenditure reductions, primarily through position control.

Independent Auditors' Report

REPORT OF INDEPENDENT AUDITORS

The Board of Regents University of Alaska

Report on the Financial Statements

We have audited the accompanying financial statements of the University of Alaska (University), and its discretely presented component unit, the University of Alaska Foundation, Inc., as of and for the years ended June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

REPORT OF INDEPENDENT AUDITORS (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the University and its discretely present component unit as of June 30, 2015 and 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 13, the University has accounted for their net pension liability under a special funding situation with the state of Alaska. If the special funding did not exist, the University's net position would be significantly different.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Schedule of the University's Proportionate Share of the Net Pension Liability, and Schedule of Employer Contributions, listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Schedule of Noncash Investing, Noncapital Financing, Capital and Financing Related Activities:

For the Year Ended June 30, 2015

Increase in accounts payable for capital assets is \$2.3 million.

The University received \$20,000 in donated equipment.

The University received on-behalf pension payments from the State of Alaska totaling \$144.9 million.

For the Year Ended June 30, 2014

Decrease in accounts payable for capital assets is \$6.2 million.

Book value of capital asset disposals totaled \$0.5 million.

The University received \$40,000 in donated equipment.

The University received on-behalf pension payments from the State of Alaska totaling \$33.0 million.

June 30, 2015 and 2014

1. Organization and Summary of Significant Accounting Policies

Organization:

The University of Alaska (University) is a constitutionally created corporation of the State of Alaska which is authorized to hold title to real and personal property and to issue debt in its own name. The University is the only public institution of higher learning in Alaska. It is a statewide system that consists of three universities located in Anchorage, Fairbanks, and Juneau, with each having extended satellite colleges and sites throughout Alaska. The system's administrative offices are located on the Fairbanks campus. The University is governed by an eleven-member Board of Regents, which is appointed by the governor.

The University is a component unit of the State of Alaska for purposes of financial reporting. As an instrumentality of the State of Alaska, the University is exempt from federal income tax under Internal Revenue Code Section 115, except for unrelated business activities as covered under Internal Revenue Code Sections 511 to 514. The University of Alaska Foundation (Foundation) is a legally separate, nonprofit component unit of the University. The Foundation was established to solicit donations and to hold and manage such assets for the exclusive benefit of the University. Resources managed by the Foundation and distributions made to the University are governed by the Foundation's Board of Trustees. Governmental Accounting Standards Board (GASB) Statement No. 39, *Determining Whether Certain Organizations Are Component Units* and Statement No. 61, *The Financial Reporting Entity: Omnibus*, an amendment of GASB Statement No. 14 and No. 34, require the University to include the Foundation as part of its financial statements to better report resources benefiting the University. The University is not accountable for, nor has ownership of, the Foundation's resources. The Foundation's financial statements include the Statement of Financial Position and the Statement of Activities and these statements are presented in their original audited format according to Financial Accounting Standards Board (FASB) pronouncements.

The Nanook Innovation Corporation (NIC) and Seawolf Holdings, LLC were established in fiscal year 2013 for the purpose of supporting the University of Alaska through commercialization of University generated intellectual properties. The Nanook Innovation Corporation operates as a non-profit organization under the meaning of Internal Revenue Code 501(c) (3). The Board of Directors of NIC are appointed by the University. Seawolf Holdings, LLC is a limited liability company with the University being the sole member of the LLC. The Nanook Innovation Corporation and Seawolf Holdings, LLC are considered component units of the University according to GASB Statements No. 39 and No. 61. These entities had no significant activity in fiscal year 2015 and 2014.

Basis of Presentation:

The University's financial statements are presented in accordance with U.S. generally accepted accounting principles as prescribed in applicable pronouncements of the Governmental Accounting Standards Board. The Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows report the financial activities of the University of Alaska.

In March 2012, the GASB issued GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This Statement requires that certain items that were previously reported as assets and liabilities be classified or recognized as deferred outflows of resources or deferred inflows of resources. These determinations are based on the definitions of those elements in GASB Concepts Statement No. 4, *Elements of Financial Statements*. The new standard was effective retrospectively for the fiscal year beginning July 1, 2013. The University adopted GASB Statement No. 65 in fiscal year 2014.

June 30, 2015 and 2014

Deferred outflows of resources represent the consumption of net assets by the University in one period that is applicable to future periods.

Deferred inflows of resources represent the acquisition of net assets in one period that is applicable to future periods.

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources and is required to be classified for accounting and reporting purposes into the following categories:

Unrestricted net position is the net amount of assets, deferred outflows of resources, liabilities, and deferred
inflows of resources that are not included in the determination of net investment in capital assets or the
restricted component of net position. Unrestricted net position may be designated for specific purposes by
the Board of Regents or may otherwise be limited by contractual agreements with outside parties.

• Restricted net position:

Expendable net position is subject to externally-imposed restrictions that may or will be met by actions of the University and/or that expire with the passage of time.

Non-expendable net position is subject to externally-imposed restrictions requiring that they be maintained permanently by the University.

• *Net investment in capital assets* – Capital assets, net of accumulated depreciation, reduced by outstanding balances of debt attributable to the acquisition, construction or improvement of those assets.

When both restricted and unrestricted funds are available for the same purpose, the University's policy is to use the restricted funds first, unless it is not advisable based on all the facts and circumstances.

In preparing the financial statements, management is required to make estimates that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the statement of net position. Actual results could differ from those estimates. The more significant accounting and reporting policies and estimates applied in the preparation of the accompanying financial statements are discussed below.

Summary of Significant Accounting Policies:

The accompanying financial statements have been prepared on the economic resources measurement focus and the accrual basis of accounting. All significant intra-university transactions have been eliminated. The University reports as a business type activity, as defined by GASB Statement No. 35. Business type activities are those that are financed in whole or in part by fees charged to external parties for goods or services.

Cash and Cash Equivalents

All highly liquid investments, not held for long-term investment, with original maturities of three months or less are reported as cash and cash equivalents.

Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market. Inventories consist of parts, fuel, books, shop stock, etc.

June 30, 2015 and 2014

Investments

Investments are stated at fair value. Investments in fixed income and equity marketable securities are stated at fair value based on quoted market prices. Investments in private partnership interests are valued using the most current information provided by the general partner. Valuations provided by the general partners and investment managers are evaluated by management and management believes such values are reasonable at June 30, 2015 and 2014. When, in the opinion of management, there has been a permanent impairment in the asset value, the asset is written down to its fair value. Income from other investments is recognized when received.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net position. Investments also include securities with contractual cash flows such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities. The value, liquidity and related income of these securities are sensitive to economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Long-term investments include those restricted by outside parties as to withdrawal or use for other than current operations, or are designated for expenditure in the acquisition or construction of noncurrent assets or held with an intent not to be used for operations within the next fiscal year.

Capital Assets

Capital assets are stated at cost when purchased and at fair value when donated. Equipment with a unit value of \$5,000 or greater is capitalized. Buildings and infrastructure with a unit value of \$100,000 or greater are capitalized. Other capital assets with a unit value of \$50,000 or greater are capitalized. Certain land and other resources acquired through land grants and donated museum collections for which fair value at date of acquisition was not determinable are reported at zero basis in the financial statements.

Depreciation is computed on a straight-line basis with useful lives of building and building components ranging from 12 to 50 years, 10 to 35 years for infrastructure and other improvements, 5 to 11 years for equipment and 20 years for library books. Museum collections are not depreciated because they are preserved and cared for and have an extraordinarily long useful life.

Endowments

The University's endowments consist of the Land Grant Endowment Trust Fund (LGETF) established pursuant to the 1929 federal land grant legislation, its related Inflation Proofing Fund (IPF) and several smaller "other" endowments. Alaska Statute 14.40.400 provides that the net income from the sale or use of grant lands must be held in trust in perpetuity.

Alaska Statute 14.40.400 provides the Board of Regents with authority to manage the LGETF under the total return principles which intends to preserve and maintain the purchasing power of the endowment principal. The investable resources of the LGETF and IPF are invested in the Consolidated Endowment Fund, a unitized investment fund. The annual spending allowance is currently based on 4.5 percent of a five-year moving average of the invested balance. Withdrawals of net earnings appreciation to meet the spending allowance are limited to the unexpended accumulated net earnings balance of the preceding December 31.

June 30, 2015 and 2014

Operating Activities

The University's policy for defining operating activities as reported on the statement of revenues, expenses and changes in net position are those that generally result from exchange transactions such as payments received for providing services and payments made for services or goods received. Certain significant revenue streams relied upon for operations are recorded as non-operating revenues, as defined by GASB Statement No. 35, including state appropriations and investment earnings.

Scholarship Allowances

Student tuition and fee revenues and certain other revenues from students are reported net of scholarship allowances in the statement of revenues, expenses and changes in net position. Scholarship allowances are the difference between the stated charge for tuition and room and board provided by the University and the amount paid by the student and/or third parties making payments on the students' behalf.

Lapse of State Appropriations

Alaska Statutes provide that unexpended balances of one-year appropriations will lapse on June 30 of the fiscal year of the appropriation; however, university receipts in excess of expenditures may be expended by the University in the next fiscal year. University receipts include student tuition and fees, donations, sales, rentals, facilities and administrative cost recovery, investment earnings, auxiliary and restricted revenues. The unexpended balances of capital appropriations generally lapse after five years or upon determination that the funds are no longer necessary for the project.

Pensions

For purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit plans of the Public Employees Retirement System (PERS) and the Teachers' Retirement System (TRS) and additions to/deductions from these pension plans' fiduciary net position have been determined on the same basis they are reported by PERS and TRS defined benefit plans. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Unearned Revenue

Unearned revenue consists of tuition, fees and certain auxiliary activities prior to the end of the fiscal year, but related to the subsequent accounting period. It also consists funds received from grants, sponsors and State capital appropriations which have not yet been earned. The State capital appropriation are subject to five year lapse provisions per State Statute. The period may be extended.

Recently Issued Accounting Standards

In February 2015, the GASB issued GASB Statement No. 72, Fair Value Measurement and Application. This Statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to all fair value measurements. This standard is effective for the fiscal year beginning after June 15, 2015.

June 30, 2015 and 2014

In June 2015, the GASB issued GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That are not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. This Statement establishes requirements for defined benefit pensions and defined contribution pensions that are not within the scope of Statement No. 68, Accounting and Financial Reporting of Pensions. This standard is effective for the fiscal years beginning after June 15, 2015.

In June 2015, the GASB issued GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This Statement addresses accounting and financial reporting for Other Post Retirement Benefits (OPEB) that is provided to the employees of state and local governmental employers and establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense. This standard is effective for the fiscal years beginning after June 15, 2017.

In June 2015, the GASB issued GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. This Statement establishes the hierarchy of GAAP for state and local governments. This new standard is effective for fiscal years beginning after June 15, 2015.

The University is currently evaluating the impact the adoption of these GASB statements will have on its financial statements.

Operating funds consist of cash on hand (including overnight repurchase agreements), time deposits, money market funds and bonds. Alaska Statutes and Board of Regents' policy provide the University with broad authority to invest funds. Generally, operating funds are invested according to the University's liquidity needs. The University has operating fund investment guidelines, which set forth the objectives, structure and acceptable investments for the University's operating funds.

The University's operating funds include investments in high quality bonds, including U.S. treasuries, federal agency bonds, international government bonds, and corporate bonds. These investments are held under the name of the University. Bonds comprise the largest portion of operating funds. The majority of the money market mutual funds are invested through the Commonfund, a nonprofit provider of pooled multi-manager investment vehicles for colleges and universities. The University has a \$13 million compensating balance with its checking and depository financial institution.

Capital funds include unexpended general revenue bond proceeds and related reserves and advances from state capital appropriations. At June 30, 2015 and 2014, bond funds held by a trustee totaled \$9.9 million and \$16.4 million, respectively, and consisted of funds held for construction purposes totaling \$2.8 million and \$9.3

June 30, 2015 and 2014

million, respectively, and general revenue bond reserves totaling \$7.1 million and \$7.1 million, respectively. The general revenue bond reserves are invested with a third party trustee in accordance with terms of a trust indenture, requiring purchase of investment securities that are investment grade.

Endowment investments totaling \$143.1 million and \$148.5 million in 2015 and 2014, respectively, primarily consisted of \$140.6 million and \$146.2 million in investable resources of the University's Land Grant Endowment Trust Fund at June 30, 2015 and 2014, respectively, and are invested in a Consolidated Endowment Fund managed by the Foundation. These resources are combined with the Foundation's pooled endowment funds for investment purposes, and managed by the University of Alaska Foundation Consolidated Endowment Fund in accordance with an investment policy approved by the Board of Regents. A copy of the Consolidated Endowment Fund's investment policy and guidelines can be obtained by contacting the University Controller's Office.

Education Trust of Alaska investments include the operating funds of the college savings program, established pursuant to state statute by the Board of Regents and Internal Revenue Code Section 529. Program investments are in mutual funds of T. Rowe Price Associates, Inc., the program manager. See Note 4 for further information.

Certain funds held in trust for the benefit of the University are not included in the financial statements as the University has only limited control over their administration. These funds are in the custody of independent fiduciaries and at June 30, 2015 and 2014 had an estimated fair value of approximately \$4.5 million and \$4.6 million, respectively.

At June 30, 2015, the University has approximately \$43.4 million in investments that are not readily marketable, compared to \$29.4 million at June 30, 2014. These investments are invested in the Consolidated Endowment Fund managed by the Foundation. These investment instruments may contain elements of both credit and market risk. Such risks include, but are not limited to, limited liquidity, absence of regulatory oversight, dependency upon key individuals, and nondisclosure of portfolio composition. Because these investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investment existed. Such difference could be material.

Disclosures for deposits and investments are presented according to GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. Accordingly, the following information addresses various risk categories for University deposits and investments and the investment policies for managing that risk.

Credit Risk:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The operating fund investment guidelines require that at the time of purchase, short term instruments must be rated A2 or better by Standard & Poor's (S & P), and P2 or better by Moody's. Long term instruments must be rated BBB- or better by S & P and Baa3 or better by Moody's. The average credit rating of any separately managed account portfolio shall be no lower than A by S & P and A2 by Moody's.

June 30, 2015 and 2014

At June 30, 2015, investments consisted of securities with credit quality ratings issued by nationally recognized statistical rating organizations as follows (\$ in thousands):

June 30, 2015 and 2014

Concentration of Credit Risk:

Concentration of credit risk is the risk of loss attributed to the magnitude of the University's investment in a single issuer. GASB Statement No. 40 requires disclosure when the amount invested with a single issuer exceeds five percent of the University's total investments. At June 30, 2015, the University did not have any material concentrations of credit risk.

The operating fund investment guidelines limits the aggregate fair value of the portfolio that may be invested in any combination of instruments from one issuer to four percent and callable bonds are limited to 15 percent of the total portfolio value, with exceptions for federally backed securities.

Custodial Credit Risk:

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository institution, the University will not be able to recover deposits or will not be able to recover collateral securities in the possession of an outside party. For investments, custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the University will not be able to recover the value of investment or collateral securities in the possession of an outside party.

At June 30, 2015, the University does not have custodial credit risk. Deposits of the University are covered by Federal Depository Insurance or securities pledged by the University's counterparty to its repurchase agreement held at a third party bank. The collateral is held in the name of the University and at June 30, 2015, provided \$7.7 million coverage in excess of deposits.

Interest Rate Risk:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University uses the modified duration measurement to evaluate interest rate risk. Modified duration measures a debt investment's exposure to fair value changes arising from changing interest rates. For example, a modified duration of 2 means that for a rise in interest rates of one percent, the value of the security would decrease two percent. The University does not have a policy regarding interest rate risk.

At June 30, 2015, the University had the following debt investments and corresponding duration (\$ in thousands):

	Capital						Edi	ucation Trust

June 30, 2015 and 2014

Hedge funds totaling \$56.8 million are exposed to interest rate risk; however, underlying fund data is not available to measure the interest rate risk.

Foreign Currency Risk:

Foreign currency risk is the risk that changes in exchange rates could have an adverse effect on an investment's value for investments denominated in foreign currencies. GASB Statement No. 40 requires disclosure of value in U.S. dollars by foreign currency denomination and investment type. The University does not have a policy regarding foreign currency risk. At June 30, 2015, the University's foreign currency risk consisted of the Consolidated Endowment Fund's private equity investments held in Canadian dollars with a fair value of \$99,279 and in Euro with a fair value of \$189,597.

3. Accounts Receivable

Accounts receivable consisted of the following at June 30, 2015 and 2014 (\$ in thousands):

June 30, 2015	Gross	Allowance	Net
Student tuition and fees	\$ 21,032	\$ (3,575)	\$ 17,457
Sponsored programs	47,907	(961)	46,946
Auxiliary services and other operating activities	1,030	(50)	980
Capital appropriations, grants and contracts	2,490	-	2,490
Total	\$ 72,459	\$ (4,586)	\$ 67,873
	_		

June 30, 2014	Gross	Allowance	Net
Student tuition and fees	\$ 20,324	\$ (3,484)	\$ 16,840
Sponsored programs	55,063	(574)	54,489
Auxiliary services and other operating activities	676	(81)	595
Capital appropriations, grants and contracts	12,799	-	12,799
Total	\$ 88,862	\$ (4,139)	\$ 84,723

4. Education Trust of Alaska

Assets held in trust include operating funds of the Education Trust of Alaska (Trust). The Trust was established pursuant to State of Alaska statute on April 20, 2001 by the Board of Regents to facilitate administration of the State's Internal Revenue Code (IRC) Section 529 College Savings Program. The program is a nationally marketed college savings program developed in accordance with IRC Section 529. Participant account balances of approximately \$6.9 billion and \$6.5 billion at June 30, 2015 and 2014, respectively, are not included in the financial statements. Separately audited Trust financial statements are available upon request from the University of Alaska Controller's office.

Assets of the Trust are invested in various mutual funds at the direction of T. Rowe Price Associates, Inc., the program manager. The net assets of the Trust, which include a reserve for University of Alaska (UA) Tuition Value Guarantees, are available for payment of program administrative costs, benefits and other purposes of the Trust. Based on an actuarial study, management estimates reserve requirements for the UA Tuition Value Guarantees to be approximately \$4.7 million and \$3.4 million at June 30, 2015 and 2014, respectively. The Tuition Value Guarantees are recorded in the Statements of Net Position in Other Noncurrent Liabilities.

June 30, 2015 and 2014

5. Endowments, Land Grant Trust Property and Other Endowment Assets

The University's endowments consist of the Land Grant Endowment Trust Fund (LGETF) established pursuant to the 1929 federal land grant legislation, its related Inflation Proofing Fund (IPF) and several smaller "other" endowments.

Land Grant Trust (LGT) property and other assets consist of real property and timber and other rights. By Acts of Congress in 1915 and 1929, approximately 110,000 acres of land was granted to the territory of Alaska to be held in trust for the benefit of the University. The lands were managed by the territory, and later the State of Alaska. In accordance with a 1982 agreement, the lands were subsequently transferred to the Board of Regents, as trustee. In 1982 and 1988 certain state lands including timber and other rights were transferred to the trust as replacement for lands disposed of or adversely affected during the period of administration by the territory and the state. These lands and property interests were recorded at their fair value as of the date of transfer. The net proceeds from land sales and other rights are deposited in the Land Grant Endowment Trust Fund as described in the Endowment section in Note 1 above. At June 30, 2015 and 2014, approximately 82,223 acres were held in trust at zero basis because fair value at the time of transfer was not determinable.

June 30, 2015 and 2014

A summary of the endowments and Land Grant Trust property for the years ended June 30, 2015 and 2014 follows (\$ in thousands):

Total unrestricted net position	(22,955)		175,031	
			_	
Restricted:	2015		2014	
Expendable:				
Restricted funds	\$ 592	\$	555	
Student loan funds	194		194	
Education Trust of Alaska	17,154		15,742	
Capital project funds	14,358		18,938	
Debt service funds	7,102		7,102	
Endowment accumulated earnings	19,952		27,456	
Nonexpendable:				
Endowment corpus	102,650		101,326	
Land Grant Trust property	29,140		29,527	
Total restricted net position	\$ 191,142	\$	200,840	

Unrestricted net position includes non-lapsing University receipts of \$70.3 million at June 30, 2015. Non-lapsing University receipts of \$57.4 million from fiscal year 2014 were fully expended in fiscal year 2015.

June 30, 2015 and 2014

At June 30, 2015 and 2014, the following funds were pledged as collateral for the University's general revenue bonds, as calculated under the terms of the 1992 General Revenue Bonds Trust Indenture (\$ in thousands).

	Pledged Revenue					
		2015		2014		
Auxiliaries	\$	10,846	\$	11,843		
Service centers		27,509		22,453		
Encumbrances		9,046		8,703		
Undesignated		33,708		26,228		
Total	\$	81,109	\$	69,227		

8. Long-term Debt

Debt service requirements at June 30, 2015 were as follows (\$ in thousands):

Years Ending June 30,	P	rincipal	Interest		Total
2016	\$	10,335	\$	5,637	\$ 15,972
2017		10,400		5,427	15,827
2018		10,664		5,050	15,714
2019		9,963		4,656	14,619
2020		10,270		4,234	14,504
2021-2025		52,887		14,403	67,290
2026-2030		34,230		4,362	38,592
2031-2035		9,250		695	9,945
2036		285		4	289
Total	\$	148,284	\$	44,468	\$ 192,752

June 30, 2015 and 2014

Long-term debt consisted of the following at June 30, 2015 and 2014 (\$ in thousands):

	2015	2014
Revenue bonds payable: 2.00% to 5.00% general revenue bonds due serially to 2036, secured by a pledge of unrestricted current fund revenue generated from tuition, fees, recovery of facilities and administrative costs, sales and services of educational departments, miscellaneous receipts and auxiliaries.	\$ 132,185	\$ 140,555
Note payable: 3.395% note payable to the Alaska Housing Finance Corporation (AHFC) to finance Anchorage campus housing, due semiannually through February 2029. The financed housing property are held as collateral of the note.	14,898	13,655
Equipment financings: 2.18% to 4.77% notes payable for the purchase of equipment and vehicles due in quarterly installments through June 2021, secured by title liens.	1,201	1,605
	\$ 148,284	\$ 155,815
Premium on bonds	10,510	11,478
Deferred amount on debt refunding	(1,255)	(1,369)
Long-term debt	\$ 157,539	\$ 165,924

In fiscal year 2015 and 2014, the state reimbursed the University \$1,216,125 and \$1,220,600 respectively, for debt service on certain projects financed in the 2002 Series K general revenue bonds. The reimbursement is included in state appropriations. Subject to annual appropriation, future annual state reimbursement for the projects is approximately \$1.22 million.

Under the terms of the 1992 General Revenue Bonds Trust Indenture, the University is required to maintain a reserve account with a trustee at an amount equal to one-half of the maximum annual general revenue bond debt service. The 2013 Series S bonds' supplemental indenture includes a springing amendment that eliminates the reserve fund. The reserve is eliminated once all existing bonds prior to 2013 Series S (Series L through R) have been retired. The balance in the reserve account at June 30, 2015 and 2014 was \$7.1 million. In addition, \$2.8 million and \$9.3 million of bond funds are held in trust for construction purposes at June 30, 2015 and 2014, respectively, resulting in total bond funds held in trust of \$9.9 million and \$16.4 million at June 30, 2015 and 2014, respectively.

For fiscal year 2015 and 2014, total interest expense is \$4.5 million and \$4.1 million. Total interest capitalized is \$0.4 million and \$1.2 million.

9. Capital Lease Obligation

In fiscal year 2013, the University entered into a long term lease agreement with Community Properties of Alaska, Inc. (CPA), an Alaska non-profit corporation, to lease a new student dining facility on the University of Alaska Fairbanks Campus. CPA completed construction of the student dining facility using proceeds from its Lease Revenue Bonds 2012 in fiscal year 2014. CPA is leasing the underlying land from the University. Security for the Lease Revenue Bonds 2012 is the University's lease payments to CPA, paid from dining and other university receipts. The University operates the facility. The University receives title to the facility when the bonds are fully paid off, which may be done at any time. The lease is recorded as a capital lease and the obligation is recorded at the present value of future minimum lease payments.

June 30, 2015 and 2014

Future minimum lease payments under this capital lease and the present value of the minimum lease payments as of June 30, 2015 are as follows:

	Future	e Payments
Years Ending June 30,	(\$ in 1	thousands)
2016	\$	1,389
2017		1,390
2018		1,389
2019		1,385
2020		1,384
2021-2025		6,917
2026-2030		6,891
2031-2035		6,855
2036-2040		6,840
2041-2045		6,889
Total lease obligations		41,329
Less: amount representing interest costs		(15,252)
Present value of minimum lease obligations	\$	26,077

10. Operating Leases

The University has various operating lease agreements for facilities. The expense for operating leases was \$4.8 million and \$5.2 million for the years ended June 30, 2015 and 2014, respectively.

The future minimum lease payments are as follows:

	Future Payments
Years Ending June 30,	(\$ in thousands)
2016	\$ 2,245
2017	1,852
2018	1,361
2019	840
2020	154
2021-2025	766
2026-2030	520
2031-2035	520
2036-2040	503
Total lease obligations	\$ 8,761

June 30, 2015 and 2014

11. Long-term Liabilities

Long-term liability activity was as follows (\$ in thousands):

									Ba	lance
	F	Balance					I	Balance	due	within
	July	1, 2014	A	Additions		Reductions		June 30, 2015		e year

Total	\$ 207,061	\$	1,951	\$ 12,	,832	\$	196,180	\$ 10,	870

12. Capital Appropriations and Construction Commitments

Major construction projects of the University are funded primarily by State of Alaska appropriations and general obligation bonds, University general revenue bonds and federal grants. Unexpended and unbilled capital funds appropriated by the State of Alaska in prior years, which are not reflected as appropriation revenue or receivables on the University's books at June 30, 2015 and 2014, totaled \$90.2 million and \$143.3 million, respectively. In addition, unexpended proceeds of University issued general revenue bonds designated for construction projects totaled \$1.5 million and \$8.6 million at June 30, 2015 and 2014, respectively.

Construction commitments at June 30, 2015 aggregated \$159.5 million. At June 30, 2015, the University had received \$108.0 million from State of Alaska capital appropriations and other sources in advance of expenditures. The advances are included in unearned revenue and deposits.

As of June 30, 2015 the University completed construction of the research vessel named "Sikuliaq". Title of the vessel is retained by the National Science Foundation, the agency funding the construction, but managed and operated by the University of Alaska Fairbanks, as part of the U.S. academic research fleet. It is used by scientists in the United States and international oceanographic community through the University-National Oceanographic Laboratory System. The Sikuliaq was put into unrestricted science operations in fiscal year 2015 and is home ported in Alaska at the Seward Marine Center.

In the fiscal year 2015, the University spent \$11.1 million, included in construction in progress, on building a new combined heat and power plant on University of Alaska Fairbanks Campus. The project is estimated to cost

June 30, 2015 and 2014

\$248 million and expected to be completed in the winter of 2018. As of June 30, 2015, the University has encumbered \$89.4 million on this project.

13. Pension Plans

Participation in one of the various pension plans generally depends on when an employee was originally hired. Substantially all regular employees hired before July 1, 2006 participate in one of the following pension plans:

- The State of Alaska Public Employees' Retirement System Defined Benefit (PERS-DB), a cost-sharing, multiple-employer public employee retirement plan,
- The State of Alaska Teachers' Retirement System Defined Benefit (TRS-DB), a cost-sharing, multiple-employer public employee retirement plan,
- The University of Alaska Optional Retirement Plan (ORP) Tier 1 or Tier 2, a single-employer defined contribution plan.

In addition, substantially all eligible employees participate in the University of Alaska Pension Plan, a supplemental single-employer defined contribution plan. Employees hired on or after July 1, 2006 have a choice to participate in the University of Alaska Retirement Program or the applicable state defined contribution plan. The University of Alaska Retirement Program consists of ORP (Tier 3) and the University of Alaska Pension Plan. However, staff hired July 1, 2015 and later are not eligible for the ORP. The State's defined contribution plans are the Public Employees' Retirement System – Defined Contribution (PERS-DC) or the Teachers' Retirement System-Defined Contribution (TRS-DC).

The University provides elective deferral options for employee contributions to deferred annuity plans in accordance with Internal Revenue Code sections 403(b) and 457(b), subject to eligibility criteria.

Each of the plans noted above are described in more detail in the sections that follow. None of the retirement systems or plans own any notes, bonds or other instruments of the University.

State of Alaska Public Employees' Retirement System - Defined Benefit (PERS-DB)

Plan Description

PERS-DB is a defined benefit, cost-sharing, multiple-employer public employee retirement plan established and administered by the State of Alaska. The plan was originally established as an agent multiple-employer plan, but was converted by legislation to a cost-sharing plan, effective July 1, 2008. This change provided for an integrated system of accounting for all employers. Under the integrated system, the PERS-DB plans' unfunded liability will be shared among all employers with each contributing 22 percent of their covered payroll.

PERS provides pension, postemployment health care, death and disability benefits to eligible participants. Benefit and contribution provisions are established by state law and may be amended only by the state legislature. Effective July 1, 2006, the state legislature closed PERS-DB to new members and created a Public Employees' Retirement System Defined Contribution Retirement Plan (PERS-DC), disclosed later in this note.

The PERS-DB Plan is a plan within the Public Employees' Retirement System (PERS). PERS includes the PERS-DB and Alaska Retiree Healthcare Trust (ARHCT). Senate Bill 123 was passed during the 2007

June 30, 2015 and 2014

legislative session and created the ARHCT. ARHCT is self-funded and provides major medical coverage to retirees of PERS. PERS retains the risk of loss of allowable claims for eligible members. ARHCT began paying member healthcare claims on March 1, 2008. Prior to that time, healthcare claims were paid for by the Retiree Health Fund (RHF).

Each fiscal year, PERS issues a publicly available financial report which includes financial statements and required supplementary information. That report may be obtained by writing to the State of Alaska, Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, Alaska, 99811-0203 or by calling (907) 465-4460.

Funding Policy and Annual Pension Cost

Employee contribution rates are 6.75 percent (7.5 percent for peace officers and firefighters). The funding policy for PERS-DB provides for periodic employer contributions at actuarially determined rates that, expressed as a percentage of annual covered payroll, are sufficient to accumulate the assets to pay benefits when due. The 2015 and 2014 actuarially determined rates were 44.03 percent and 35.68 percent of applicable gross pay, respectively. However, the employer contribution rate for the University was capped by the state at 22 percent for fiscal years 2015 and 2014.

The state appropriated funding directly to the PERS-DB plan as a relief payment to employers' contributions for fiscal year 2015. The University recognized \$48,895,116, \$16,444,951 and \$16,761,931 for fiscal years 2015, 2014 and 2013, respectively, in state on-behalf pension payments for the PERS-DB plan.

The University's Schedule of Required Contributions follows (\$ in thousands):

	PERS-DB	Ann	ual Required Co	ontri	butions	-	Postemployment
Years						Pension	healthcare
Ended		Po	stemployment			percentage	percentage
June 30,	Pension		healthcare		Total	contributed	contributed
2015	\$ 14,483	\$	10,926	\$	25,409	100%	100%
2014	\$ 12,375	\$	13,213	\$	25,588	100%	100%
2013	\$ 11,406	\$	14,544	\$	25,950	100%	100%

Alaska Statutes require the University contribute to PERS-DB and DC plans a minimum each year of 22 percent of the University's fiscal year 2008 PERS covered payroll. The annual required contributions table above includes the additional University contributions of \$3,841,271, \$2,270,876 and \$1,831,664 for fiscal years 2015, 2014, and 2013, respectively, which were required to adhere to the minimum contribution levels per the statutes.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the University reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the University. The amount recognized by the University as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the University were as follows (\$ in thousands):

June 30, 2015 and 2014

University's proportionate share of the net pension liability	\$ 159,853
State's proportionate share of the net pension liability	
associated with the University	113,146
Total	\$ 272,999

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The University's proportion of the net pension liability was based on a projection of the University's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State, actuarially determined. At June 30, 2014, the University's portion was 3.427%, which was a decrease of 0.034% from the University's portion measured as of June 30, 2013.

For the year ended June 30, 2015, the University recognized pension expense and revenue of \$48.9 million for support provided by the State. At June 30, 2015, the University reported deferred outflows of resources and deferred inflows of resources related to PERS-DB from the following sources (\$ in thousands):

	Deferred Outflows of Resrouces		Deferred Inflows of Resources	
Difference between projected and actual investment earnings Changes in proportion and difference detween employer	\$	-	\$	18,468
contributions and proportionate share of contributions Contributions subsequent to the measurement date		14,483		1,007
Total	\$	14,483	\$	19,475

The contributions of \$14.5 million reported as deferred outflows of resources related to pensions resulting from the University contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS-DB will be recognized in pension expense as follows (\$ in thousands):

June 30, 2015 and 2014

Years Ending June	30,	
2016	\$	(5,392)
2017	\$	(4,849)
2018	\$	(4,617)
2019	\$	(4,617)

Actuarial Assumptions. The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of June 30, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of June 30, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate 3.12% per year

Salary increases Graded by service, from 6.36% to 4.12% for Peace Officer/Firefighter

Graded by age and service, from 9.60% to 3.62% for All Others

Investement rate of return 8.00%, net of pension plan investment expenses.

This is based on average inflation rate of 3.12% and a real rate of return

of 4.88%

Mortality rates (pre-termination) were based on the 2005 to 2009 actual mortality experience. For peace officer/firefighter, the 1994 Group Annuity Mortality (GAM) Table, sex distinct, 1994 Base Year without margin projected to 2013 using Projection Scale AA, 80% of the male table for males and 60% of the female table for females were used. For All Others, the 1994 GAM Table, sex distinct, 1994 Base Year without margin projected to 2013 using Projection Scale AA, 75% of the male table for males and 55% of the female table for females were used. For post-termination mortality, the 1994 GAM Table, sex distinct, 1994 Base Year without margin projected to 2013 using Projection Scale AA for males and with a 1-year set-forward for females were used.

The actuarial assumptions used in the June 30, 2013 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2005 to June 30, 2009, resulting in changes in actuarial assumptions adopted by the Alaska Retirement Management Board to better reflect expected future experience.

Long –term expected rate of return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by an asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's current and expected asset allocation is summarized in the following table (note that the rates shown below exclude the inflation component):

June 30, 2015 and 2014

	Long-term Expected			
Asset Class	Real Rate of Return			
Equities:				
Broad domestic equity	5.40%			
Large cap	5.25%			
Small/mid cap	5.60%			
International equity	5.25%			
Emerging markets equity	5.65%			
Global ex-U.S. equity	5.55%			
Fixed income:				
Domestic fixed	0.75%			
TIPS	0.75%			
Other				
Real estate	3.95%			
Private equity	6.40%			
Hedge funds	2.85%			
Cash equivalents	-0.25%			

Discount Rate. The discount rate used to measure the total pension liability was 8% percent. The projection of cash flows used to determine the discount rate assumed that employer and non-employer contributions will continue to follow the current funding policy, which meets State Statutes. Based on those assumptions, the Plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the University's proportionate share of the net pension liability to changes in the discount rate. The following presents the University's proportionate share of the net pension liability calculated using the discount rate of 8% percent, as well as what the University's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7%) or 1-percentage-point higher (9%) than the current rate (\$ in thousands):

	1%	Decrease	Disc	ount Rate	1%	Increase
		7%		8%		9%
University's proportionate						
share of the net pension						
liability	\$	209,598	\$	159,853	\$	117,963

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS-DB financial report.

June 30, 2015 and 2014

According to GASB Statement No. 68, the University is reporting under a special funding situation. The special funding situation indicates that the State of Alaska is legally responsible for making contributions directly to the PERS-DB plan for the University as further described in Alaska Statute 39.35.280. If the law did not exist or was eliminated, the University may no longer record as a special funding situation. For example, in a non-special funding situation, the University would be required to recognize additional net pension liability of \$113.1 million, and deferred inflows of resources of \$18.1 million as of June 30, 2015.

State of Alaska Teachers' Retirement System - Defined Benefit (TRS-DB)

Plan Description

TRS-DB is a defined benefit, cost-sharing, multiple employer public employee retirement plan established and administered by the State of Alaska. TRS-DB provides pension, postemployment health care, death and disability benefits to participants. Benefit and contribution provisions are established by state law and may be amended only by the state legislature. Effective July 1, 2006, the state legislature closed TRS-DB to new members and created a Teachers' Retirement System Defined Contribution Retirement Plan (TRS-DC), disclosed later in this note.

Each fiscal year, TRS-DB issues a publicly available financial report which includes financial statements and required supplementary information. That report may be obtained by writing to the State of Alaska, Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, Alaska, 99811-0203 or by calling (907) 465-4460.

Funding Policy and Annual Pension Cost

Employees contribute 8.65 percent of their base salary as required by state statute. The funding policy for TRS-DB provides for periodic employer contributions at actuarially determined rates that, expressed as a percentage of annual covered payroll, are sufficient to accumulate the assets to pay benefits when due. During fiscal year 2015, contractually required employee and employer contribution rates were 8.65 percent and 12.56 percent, respectively.

The actuarially determined employer contribution rate for 2015 and 2014 was 70.75 percent and 53.62 percent, respectively. The state appropriated funding directly to the TRS-DB plan to augment employer contributions for 2015. For fiscal years 2015, 2014 and 2013, the University recognized \$96,000,927, \$16,427,624 and \$16,228,064 respectively, in state on-behalf pension payments for the TRS-DB plan.

The University's Schedule of Required Contributions follows (\$ in thousands):

		TRS-DB A	Ann	-	Postemployment				
Years							Pension	healthcare	
Ended	led Postemployment							percentage	
June 30,	, Pension			healthcare		Total	contributed	contributed	
2015	\$	2,280	\$	1,686	\$	3,966	100%	100%	
2014	\$	2,297	\$	2,035	\$	4,332	100%	100%	
2013	\$	2,335	\$	2,205	\$	4,540	100%	100%	

June 30, 2015 and 2014

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the University reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the University. The amount recognized by the University as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the University were as follows (\$ in thousands):

University's proportionate share of the net	
pension liability	\$ 29,024
State's proportionate share of the net pension	
liability associated with the University	131,789
Total	\$ 160,813

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The University's proportion of the net pension liability was based on a projection of the University's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State, actuarially determined. At June 30, 2014 the University's portion was 0.968%, which was a decrease of 0.052% from the University's portion measured as of June 30, 2013.

For the year ended June 30, 2015, the University recognized pension expense and revenue of \$79.8 million for support provided by the State. At June 30, 2015, the University reported deferred outflows of resources and deferred inflows of resources related to TRS-DB from the following sources (\$ in thousands):

	Deferred	l Outflows	Deferre	ed Inflows of
	of Res	srouces	Re	sources
Difference between projected and actual				
investment earnings	\$	-	\$	2,591
Changes in proportion and difference between employer contributions and proportionate share				
of contributions		-		980
Contributions subsequent to the measurement				
date		2,280		-
Total	\$	2,280	\$	3,571

The contributions of \$2.3 million reported as deferred outflows of resources related to pensions resulting from the University contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to TRS-DB will be recognized in pension expense as follows (\$ in thousands):

June 30, 2015 and 2014

Years Ending June 30,	_	
2016	\$	(1,401)
2017	\$	(874)
2018	\$	(648)
2019	\$	(648)

Actuarial Assumptions. The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of June 30, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of June 30, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate 3.12% per year

Salary increases Graded by service, from 6.11% to 3.62%

Investment rate of return 8.00%, net of pension plan investment expenses.

This is based on average inflation rate of 3.12% and a real rate of return

of 4.88%

Mortality rates were based on the 1994 Group Annuity Mortality (GAM) Sex-distinct Table 1994 Base Year without margin projected to 2013 using Projection Scale AA, adjusted 55% for females and 45% for males and the 1994 GAM Sex-distinct Table 1994 Base Year without margin projected to 2013 using Projection Scale AA, with a 3-year setback for females and a 4-year setback for males.

The actuarial assumptions used in the June 30, 2013 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2005 to June 30, 2009, resulting in changes in actuarial assumptions adopted by the Alaska Retirement Management Board to better reflect expected future experience.

Long-term expected rate of return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by an asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's current and expected asset allocation is summarized in the following table (note that the rates shown below exclude the inflation component):

June 30, 2015 and 2014

	Long-term Expected				
Asset Class	Real Rate of Return				
Equities:					
Broad domestic equity	5.40%				
Large cap	5.25%				
Small/mid cap	5.60%				
International equity	5.25%				
Emerging market equity	5.65%				
Global ex-U.S. equity	5.55%				
Fixed income:					
Domestic fixed	0.75%				
TIPS	0.75%				
Other:					
Real estate	3.95%				
Private equity	6.40%				
Hedge funds	2.85%				
Cash equivalents	-0.25%				

Discount Rate. The discount rate used to measure the total pension liability was 8% percent. The projection of cash flows used to determine the discount rate assumed that the employer and the nonemployer contributions will continue to follow the current funding policy, which meets State Statutes. Based on those assumptions, the Plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the University's proportionate share of the net pension liability to changes in the discount rate. The following presents the University's proportionate share of the net pension liability calculated using the discount rate of 8% percent, as well as what the University's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7%) or 1-percentage-point higher (9%) than the current rate (\$ in thousands):

	1%	Decrease	Dis	scount Rate	1%	6 Increase
		7%		8%		9%
University's proportionate share of						
the net pension liability	\$	36,553	\$	29,024	\$	22,706

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS-DB financial report.

According to GASB Statement No. 68, the University is reporting under a special funding situation. The special funding situation indicates that the State of Alaska is legally responsible for making contributions directly to the

June 30, 2015 and 2014

TRS-DB plan for the University as further described in Alaska Statute 14.25.085. If the law did not exist or was eliminated, the University may no longer record as a special funding situation. For example, in a non-special funding situation, the University would be required to recognize additional net pension liability of \$131.8 million, and deferred inflows of resources of \$13.8 million as of June 30, 2015.

State of Alaska Public Employees' Retirement System - Defined Contribution (PERS-DC)

Plan Description

PERS-DC is a defined contribution, cost-sharing, multiple-employer public employee retirement plan established and administered by the State of Alaska to provide pension and postemployment healthcare benefits for eligible employees. Benefit and contribution provisions are established by state law and may be amended only by the state legislature. PERS-DC was created by the state effective July 1, 2006. Plan savings are accumulated in individual retirement accounts for the exclusive benefit of each member or beneficiary.

Funding Policy and Annual Pension Cost

The employee contribution rate is 8 percent and the employer effective contribution rate is 22 percent of covered payroll. For the years ended June 30, 2015 and 2014, the University's total covered payroll for the PERS-DC plan was approximately \$12.4 million and \$11.7 million. Contributions made by the University follows (\$ in thousands):

PERS-DC University Contributions

Years Ended				ostemployment	Total		
June 30,		Pension		Healthcare	Contributions		
2015	\$	1,411	\$	1,325	\$	2,736	
2014	\$	1,400	\$	1,172	\$	2,572	

On July 1, 2006, three pension trust sub-funds were created within PERS, the Retiree Major Medical Insurance (RMP), Health Reimbursement Arrangement (HRA), and Occupation Death and Disability (OD&D). RMP allows eligible members who retire directly from the plan to obtain medical benefits. The HRA allows medical care expenses to be reimbursed from individual savings accounts established for eligible persons. OD&D provides employees with benefits as a result of death or disability on the job. PERS-DC participants are eligible members of RMP and HRA and their postemployment healthcare benefits are paid out of these funds. The employer RMP contribution rates for fiscal years 2015 and 2014 are 1.66 and 0.48 percent, respectively, for medical coverage and 0.22 and 0.20 percent, respectively, (1.06 percent for peace officers and firefighters) for occupational death and disability benefit contributions. For fiscal years 2015 and 2014, the HRA employer contributions are \$163.38 and \$158.05 per month, respectively, for full time employees and \$1.26 and \$1.22 per hour for part time employees, respectively.

Each fiscal year, PERS-DC issues a publicly available financial report which includes financial statements and required supplementary information. That report may be obtained by writing to the State of Alaska, Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, Alaska, 99811-0203 or by calling (907) 465-4460.

June 30, 2015 and 2014

State of Alaska Teachers' Retirement System -Defined Contribution (TRS-DC)

Plan Description

TRS-DC is a defined contribution, cost-sharing, multiple-employer public employee retirement plan established and administered by the State of Alaska to provide pension and postemployment healthcare benefits for teachers and other eligible employees. Benefit and contribution provisions are established by state law and may be amended only by the state legislature. TRS-DC was created by the state effective July 1, 2006. Plan savings are accumulated in individual retirement accounts for the exclusive benefit of members or beneficiaries.

Funding Policy and Annual Pension Cost

The employee contribution rate is 8 percent and the effective employer contribution rate is 12.56 percent of covered payroll. For the years ended June 30, 2015 and 2014, the University's total covered payroll for the TRS-DC plan was approximately \$6.3 million and \$6.0 million. Contributions made by the University follows (\$ in thousands):

TRS-DC University Contributions

	Years Ended				ostemployment		Total
	June 30,		Pension		Healthcare	Co	ntributions
_	2015	\$	478	\$	313	\$	791
	2014	\$	509	\$	243	\$	752

On July 1, 2006, two pension trust sub-funds were created in TRS, the Retiree Major Medical Insurance (RMP) and Health Reimbursement Arrangement (HRA). The TRS Occupational Death and Disability (OD&D) trust sub-fund was created on July 1, 2007. RMP allows eligible members who retire directly from the plan to obtain medical benefits. The HRA allows medical care expenses to be reimbursed from individual savings accounts established for eligible persons. OD&D provides employees with benefits as a result of death or disability on the job. TRS-DC participants are eligible members of RMP and HRA and their postemployment healthcare benefits are paid out of these funds. The employer RMP contribution rate for fiscal years 2015 and 2014 for each member's compensation was 2.04 and 0.47 percent, respectively, for medical coverage, zero and zero percent, respectively, for occupational death and disability benefit contributions. For fiscal years 2015 and 2014, the HRA employer contributions are \$163.38 and \$158.05 per month, respectively, for full time employees and \$1.26 and \$1.22 per hour for part time employees, respectively.

Each fiscal year, TRS-DC issues a publicly available financial report which includes financial statements and required supplementary information. That report may be obtained by writing to the State of Alaska, Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, Alaska, 99811-0203 or by calling (907) 465-4460.

University of Alaska Optional Retirement Plan - Defined Contribution (ORP)

Plan Description

The ORP is an employer funded defined contribution plan which operates in conjunction with a companion mandatory tax-deferred annuity plan. The ORP is comprised of three layers of participants: the original ORP or ORP Tier 1 which was created for participants hired prior to July 1, 2005, ORP Tier 2 which was created for

June 30, 2015 and 2014

participants hired between July 1, 2005 and June 30, 2006, and ORP Tier 3 which was created for participants hired on or after July 1, 2006. For ORP Tier 1 and ORP Tier 2, faculty classified as regular and certain administrators made a one-time election to participate in the ORP as an alternative to participation in the defined benefit plans, PERS-DB or TRS-DB. The ORP Tier 2 plan was available for new ORP benefit-eligible employees hired in fiscal year 2006. As of July 1, 2006, the ORP Tier 2 plan was no longer available to newly-hired ORP benefit-eligible employees. For ORP Tier 3, each new eligible employee may make a one-time election to participate in the University of Alaska Retirement Program (includes ORP Tier 3 and the University of Alaska Pension Plan) as an alternative to participation in the State of Alaska defined contribution plans, PERS-DC or TRS-DC. However, beginning July 1, 2015 the ORP was closed to new hired regular staff.

Funding Policy and Annual Pension Cost

University contributions are remitted to the plan's authorized employee-selected annuity providers or investment managers. The contribution rates and amounts for fiscal years 2015 and 2014 were as follows (\$ in thousands):

	ORP Tier 1		ORP '	Tier 2	ORP Tier 3		
	2015	2014	2015	2014	2015	2014

Plan Assets

At June 30, 2015 and 2014, plan assets (participants' accounts attributable to employer contributions) for ORP Tier 1, Tier 2 and Tier 3 had a net value of \$262.2 million and \$244.4 million, respectively. ORP Tier 1 and ORP Tier 2 participants are 100 percent vested at all times. University contributions for ORP Tier 3 participants are 100 percent vested after three years of service.

University of Alaska Pension Plan (Pension)

Plan Description

In addition to the other retirement plans, substantially all regular employees (hired before July 1, 2006) and certain faculty classified as temporary, participate in the Pension plan which was established January 1, 1982, when the University withdrew from the federal social security program. Eligible employees, hired on or after July 1, 2006, electing to participate in the University of Alaska Retirement Program also participate in the Pension plan. However, beginning July 1, 2015 the ORP was closed to new hired regular staff.

Funding Policy and Annual Pension Cost

Effective January 1, 2015 and 2014, employer contributions for regular employees were 7.65 percent of covered wages up to \$42,000. For certain faculty classified as temporary, the employer contributions were 7.65 percent of covered wages up to \$118,500 and \$117,000 in 2015 and 2014, respectively. The plan provides for employer contributions to be invested in accordance with participant-directed investment elections. Participants hired

June 30, 2015 and 2014

before July 1, 2006 are 100 percent vested at all times. University contributions for participants hired on or after July 1, 2006 are 100 percent vested after three years of service. Regular staff hired on or after July 1, 2015 are also 100 percent vested after three years of service of the employer contributions of the pension plan.

Plan Assets

In fiscal years 2015 and 2014, the University's total covered payroll for the Pension plan was \$170.6 million and \$176.3 million, respectively. The University's gross costs to fund and administer the plan totaled \$13.0 million and \$13.5 million for the years ended June 30, 2015 and 2014, respectively. At June 30, 2015 and 2014, plan assets (participants' accounts) had a net value of \$391.7 million and \$386.1 million, respectively.

14. Insurance and Risk Management

The University is exposed to a wide variety of risks including property loss, bodily and personal injury, intellectual property, errors and omissions, aviation and marine. Exposures are handled with a combination of self-insurance, commercial insurance, and membership in a reciprocal risk retention group.

The University is self-insured up to the maximum of \$2.0 million per occurrence for casualty claims and \$250,000 for property claims. Commercial carriers provide coverage in excess of these amounts. Health care, workers' compensation and unemployment claims are fully self-insured. Liabilities have been established using actuarial analysis to cover estimates for specific reported losses, estimates for unreported losses based upon past experience modified for current trends, and estimates of expenses for investigating and settling claims.

Changes in applicable self-insured liability amounts follow (\$ in thousands):

	Balance		Pro	Provision for		Claims	Balance	
	July 1, 2014		Claims		Payments		June 30, 2015	
Health	\$	6,398	\$	57,730	\$	(58,123)	\$	6,005

	\$	14,352	\$	57,833	\$	(58,246)	\$	13,939	

15. Commitments and Contingencies

Amounts received and expended by the University under various federal and state grants, contracts and other programs are subject to audit and potential disallowance. From time to time the University is named as a

June 30, 2015 and 2014

defendant in legal proceedings or cited in regulatory actions related to the conduct of its operations.

In the normal course of business, the University also has various other commitments and contingent liabilities which are not reflected in the accompanying financial statements. In the opinion of management, the University will not be affected materially by the final outcome of any of these proceedings, or insufficient information exists to make an opinion.

The University received a Potentially Responsible Party (PRP) letter from the Alaska Department of Environmental Conservation (ADEC) in August 2006. The letter identified the University as one of the potential parties that may be responsible for cleanup costs of soil contamination found during a water line improvement project next to Northwest Campus property. The extent of the contamination source, the number of potentially responsible parties, and remediation costs are being assessed but the outcome is unknown.

16. University of Alaska Foundation

The University of Alaska Foundation (Foundation) is a legally separate, nonprofit organization formed in 1974 to solicit donations for the exclusive benefit of the University of Alaska. During the fiscal years 2015 and 2014, the University transferred \$0.6 million and \$0.8 million for general support, respectively. For the same periods, the Foundation reimbursed the University for operating expenses totaling \$2.9 million and \$2.6 million, respectively.

For the years ended June 30, 2015 and 2014, distributions and expenditures by the Foundation for the benefit of the University totaled \$16.5 million and \$13.1 million, of which \$16.1 million and \$12.9 million were direct reimbursements to the University, respectively. Additionally, the University had a receivable from the Foundation of \$2.8 million and \$1.4 million at June 30, 2015 and 2014, respectively, primarily for unreimbursed expenditures incurred on Foundation awards made to the University.

The investable resources of the University's Land Grant Endowment Trust Fund and the Foundation's pooled endowment funds are combined into a Consolidated Endowment Fund for investment purposes. At June 30, 2015 and 2014, the fair value of the fund was \$309.8 million and \$319.4 million, respectively. The University's share of this fund was \$140.6 million and \$146.2 million, respectively, which is reflected in endowment investments.

The fund is managed by the Foundation's investment committee and treasurer on a total return basis in accordance with an investment policy approved by the Board of Regents. The net assets and related activity for the University's Land Grant Endowment Trust's investment in the fund is reflected in the University's financial statements.

On June 17, 2013, the Foundation entered into a partnership agreement with Cambridge Associates Resources, LLC to form the University of Alaska Foundation Consolidated Endowment Fund, L.P. (the partnership) and assume management of the fund effective July 1, 2013. The partnership is a single investor fund with Cambridge Associates Resources, LLC serving as general partner, and the University of Alaska Foundation serving as the sole limited partner. This relationship does not affect the ownership of units in the Consolidated Endowment Fund by the University or the Foundation. Effective July 1, 2013, all assets of the fund were transferred to the partnership. The investment committee of the Foundation has retained authority for setting investment policy, guidelines and philosophy, and approving asset allocation targets and benchmarks. Under the restructuring plan for the fund, the general partner has been delegated discretionary authority by the investment committee for

June 30, 2015 and 2014

manager selection and termination, management of cash flows to and from investments of the partnership, due diligence on underlying managers and investments, and performance reporting.

As a result of the partnership formation, the Foundation changed its presentation of the Statement of Financial Position. In fiscal years 2013 and before, the University and the Foundation reported their respective shares of the Consolidated Endowment Fund in their financial statements. Beginning fiscal year 2014, the Foundation incorporated the total value of the Consolidated Endowment Fund into its Statement of Financial Position, and University's portion of the Consolidated Endowment Fund is presented as Assets Held for University of Alaska in the Statement of Financial Position.

The financial statements of Foundation may be obtained by writing to University of Alaska Foundation, P.O. Box 755080, Fairbanks, Alaska 99775 or by calling (907) 450-8030.

17. Subsequent Events

In July 2015, the University issued General Revenue Bonds 2015 Series T with a par amount of \$65,350,000 and a 25 year term. Average annual debt service is \$4.9 million. In September 2015, the University entered into a loan agreement with the Alaska Municipal Bond Bank to borrow \$86,085,000 with a 30 year term. Average annual debt service is \$5.6 million. Both the bond and the loan provide funding for construction of the University of Alaska Fairbanks combined heat and power plant.

The University revised its Optional Retirement Plan (ORP) eligibility, and effective July 1, 2015, the ORP Tier 3 is only available to regular and term-funded faculty members, and officers/senior administrators.

18. Restatement of Net Position

In fiscal year 2015, the University implemented GASB Statement No. 68 *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No.* 27, and GASB Statement No. 71, *Pension Transition for Contribution Made Subsequent to the Measurement Date – an amendment of GASB Statement No.* 68. As a result of the implementation, the beginning net position as of July 1, 2014 was restated, resulting in a decrease of \$200 million to recognize the fiscal year 2014 net pension liability. This net pension liability represents the University's proportionate share of the net pension liability of State of Alaska PERS-DB and TRS-DB plans. The pension plans' net pension liability is measured as the plan's total pension liability, net of the pension plan's fiduciary net position.

It is not practical for the PERS-DB and TRS-DB plans to determine the amounts of all deferred inflows of resources and deferred outflows of resources related to pensions as of the beginning of the plan year. As a result, the prior year has not been restated for deferred inflows of resources, deferred outflows of resources, net pension liability and pension expense. Since the restatement of the prior year presented is not practical, the cumulative effect of applying this Statement is reported as a restatement of beginning net position as of June 30, 2014 (\$ in thousands).

	As I	Previously				
	Report	ed June 30,	Re	stated June	C	Cumulative
		2014		30, 2014	Effec	ct of Change
Net Position	\$	1,631,226	\$	1,431,225	\$	(200,001)

June 30, 2015 and 2014

19. Functional and Natural Expense Classifications

The University's operating expenses by functional and natural classification for fiscal years 2015 and 2014 were as follows (\$ in thousands):

	Compensation		Co	Contractual					Student
