- MAU Housing/Campus Life Strategic Plan

Will this proposal require approval by President or BOR?

Follow MAU internal evaluation process

Is this a Deferred Maintenance (DM) or Small R&R Project?

1. MAU produces an Academic Mission Area Analysis (MAA) & a Statement of Need (SON)
   (should be contained in the MAU Program Proposal)

2. MAU produces a Program Action Request (PAR)
   Formerly a HEX form

3. MAU submits to SAC for review and concurrence

4. MAU develops a Preliminary Administrative Approval Request (PAA)
   Not required until after MS 1 unless MAU needs authority to spend to develop the SOR and Business/Finance Plan. Skip to step 6.

5. President approves PAA

6. MAU produces a Statement of Requirements (SOR)

7. Is this an Academic Program?

8. MAU develops Business and Financing Plan

9. Operating and Long Range Capital Plan (LRP) Development

10. President, FLMC and BOR approval of operating and capital budgets, and LRP

11. Governor and Legislative Action

12. UA BOR accepts Appropriated Budgets

13. Board of Regents Project Approval Processes

14. Formal Project Approval
   - Schematic Design Approval
   - Project Change Request
   - Final Project Report

14a. Board Approval of Project Plan via the June Distribution List

Project Type

- Construction - New or Expansion, Large R&R
- Infrastructure - New or Expansion

Deferred Maintenance and Small R&R projects

Process Ends

Time Frames
- Steps 1-3 may require 1-9 months
- Steps 4-7 may require 1-3 months
- Steps 8-13 generally require 7-8 months
- Step 14 will vary depending on the size of the project (a few weeks to several years.)

Statement of Requirements Components

- Faculty/Staff
- FF&E
- Infrastructure
- Backfill, Other Second Order Impacts
- New Space, Remodelling
- Building Operations and Maintenance
FORMAL PROJECT APPROVAL

Name of Project: UAA 1901 Bragaw Tenant Improvements
Project Type: Renovation and Repurposing
Location of Project: UAA, Off Campus, Bragaw Office Complex #3, AO111, Anchorage
Project Number: 13-0149
Date of Request: January 14, 2014

| Total Project Cost: | $3,850,000 |
| Approval Required:  | Full Board |
| Prior Approvals:    | Preliminary Administrative Approval 12/19/13 |

A Formal Project Approval (FPA) is required for all Capital Projects with a Total Project Cost in excess of $250,000.

FPA represents approval of the Project including the program justification and need, scope, the total project cost, and the funding and phasing plans for the project. Requests for formal project approval shall include a signed project agreement or facilities pre-design statement, the proposed cost and funding sources for the next phase of the project and for eventual completion of the project, and a variance report identifying any significant changes in scope, budget, schedule, deliverables or prescriptive criteria associated with a design-build project, funding plan, operating cost impact, or other cost considerations from the time the project received preliminary administrative approval. It also represents authorization to complete project development through the schematic design, targeting the approved scope and budget, unless otherwise designated by the approval authority.

Action Requested
The Facilities and Land Management Committee approves the Formal Project Approval request for the University of Alaska Anchorage 1901 Bragaw Tenant Improvements as presented in compliance with the approved campus master plan, and authorizes the university administration to proceed through Schematic Design not to exceed a total project cost of $3,850,000. This motion is effective February 20, 2014.

Project Abstract
The Diplomacy Building on 4500 Diplomacy Drive, Anchorage, AK has been sold and the three facilities comprising the Bragaw Office Complex on the 1800-1900 block of Bragaw Street, Anchorage, AK purchased by UA FLM. In exchange for UAA’s ownership interest in the Diplomacy Building, the building at 1901 Bragaw Street will become the property of UAA. UAA plans to relocate the UAA occupants of the Diplomacy Building to 1901Bragaw Street. This project will develop the relocation plan and tenant improvements plans required to accommodate these occupants; prepare the new space through modifications and renewal, and move the occupants from one facility to the other not later than June 30, 2015.

On June 25th, 2013, UA Statewide Facilities and Land Management (FLM) sold the 5-story, approximately 55,500 sf, UAA Diplomacy Building to Alaska Native Tribal Health Consortium
(ANTHC). Part of agreement of sale is that current UAA tenants would be able to continue to lease space for approximately 24-30 months to allow orderly transition to new space. The goal is for all UAA tenants to vacate this facility not later than June 30th, 2015. Additionally, the goal is for UAA to relocate these organizations and vacate a whole floor at a time to facilitate new 3rd party leases and relieve UAA of rental costs incrementally as expeditiously as possible.

On June 27th, 2013, UA Statewide Facilities and Land Management purchased the Bragaw Office Complex to including the following 1901 Bragaw Street building. As noted, this 3-story, approximately 64,500 sf building will belong to UAA for use as office and classroom space predominantly for the current occupants of the UAA Diplomacy Building. If residual space is available after accommodating Diplomacy Building occupants, other UAA organizations who currently reside in commercial leased space will be accommodated as space allows.

Variance
We are investigating the new State of Alaska Space standards to determine applicability to this project and expect to incorporate them to the extent practical within available funding. However, the current estimates are based on taking maximum advantage of the existing interior configuration of the building.

Special Considerations
Statewide will provide design and construction for a new condensing unit, site drainage and mold remediation.

Total Project Cost and Funding Sources

Project Delivery Method
Design-Bid-Build

Affirmation
This project complies with Regents Policy, the campus master plan and the Project Agreement.

Supporting Documents
Project Agreement
One-page Project Budget
Approvals
The level of approval required for FPA shall be based upon the estimated TPC as follows:

- TPC > $4.0 million will require approval by the board based on the recommendations of the Facilities and Land Management Committee (FLMC).
- **TPC > $2.0 million but not more than $4.0 million will require approval by the FLMC.**
- TPC > $1.0 million but not more than $2.0 million will require approval by the Chair of the FLMC.
- TPC ≤ $1.0 million will require approval by the AVP of Facilities and Land Management.

ANCHORAGE

PROJECT AGREEMENT

Name of Project: UAA 1901 Bragaw Tenant Improvements
Project Type: Renovation and Repurposing
Location of Project: UAA, Off Campus, Bragaw Office Complex #3, AO111, Anchorage
Project Number: 13-0149
Date of Agreement: January 10, 2014

INTRODUCTION
A Project Agreement (PA) is required for all Capital Projects with a Total Project Cost anticipated to exceed $2.5 million. For project under $2.5 million, a project agreement should be attached to the FPA or all of the components of the PA may be incorporated into the FPA.

The PA represents a formal agreement between the affected program department(s), the MAU’s chief facilities administrator, the chief academic officer, the chief financial officer, the chancellor, and the chief facilities administrator documenting a common understanding of the programmatic need, project scope, and other matters related to the project.

BODY OF THE AGREEMENT

Basis for the Project
The Diplomacy Building on 4500 Diplomacy Drive, Anchorage, AK has been sold and the four facilities comprising the Bragaw Office Complex on the 1800-1900 block of Bragaw Street, Anchorage, AK purchased by UA FLM. In exchange for UAA’s ownership interest in the Diplomacy Building, the building at 1901 Bragaw Street will become the property of UAA. UAA plans to relocate the UAA occupants of the Diplomacy Building to 1901 Bragaw Street. This project will develop the relocation plan and tenant improvements plans required to accommodate these occupants; prepare the new space through modifications and renewal, and move the occupants from one facility to the other not later than June 30, 2015.

On June 25th, 2013, UA Statewide Facilities and Land Management (FLM) sold the 5-story, approximately 55,500 sf, UAA Diplomacy Building to Alaska Native Tribal Health Consortium (ANTHC). Part of agreement of sale is that current UAA tenants would be able to continue to lease space for approximately 24-30 months to allow orderly transition to new space. The goal is for all UAA tenants to vacate this facility not later than June 30th, 2015. Additionally, the goal is for UAA to relocate these organizations and vacate a whole floor at a time to facilitate new 3rd party leases and relieve UAA of rental costs incrementally as expeditiously as possible.

On June 27th, 2013, UA Statewide Facilities and Land Management purchased the Bragaw Office Complex to including the following 1901 Bragaw Street building. As noted, this 3-story, approximately 64,500 sf building will belong to UAA for use as office and classroom space predominantly for the current occupants of the UAA Diplomacy Building. If residual space is available after accommodating Diplomacy Building occupants, other UAA organizations who currently reside in commercial leased space will be accommodated as space allows.
Programmatic Need
Current UAA Tenants of the Diplomacy Building will continue their academic and/or support mission and functions for the University or various external customers. No changes will be made to their programmatic, on-going operations. Coordinated real estate actions of long term benefit to UAA, UA Statewide, and the UA Foundation resulting in the sale of one property and purchase of the other necessitate the move of occupants from one location to the other.

Mission Area Analysis/Statement of Need
As noted in the previous paragraph, there will be no change to the basic mission of the occupants and their need for adequate facilities to perform their mission.

Statement of Requirements
UAA will plan, design, construct, and relocate various UAA tenants from the 5-story 55,500 GSF Diplomacy Building to the 3-story 64,500 sf building at 1901 Bragaw Street. Actions required for this project to include programming, space planning, tenant improvement drawings, mechanical and electrical engineering, cost estimating, and bidding/construction administration services. Basic sequence of events for project execution includes:

- Conduct interviews with Diplomacy Building occupants to determine current space use, adjacencies, and identify any special requirements. Conduct interviews with additional UAA prospective tenants to the 1901 Bragaw Building as space allows.
- Develop the optimal space allocation plan, to include detailed space assignments and floor plan designs for the 1901 Bragaw Building based on Diplomacy Building tenant requirements.
- Complete inventory of FF&E that will be relocated from Diplomacy Building and coordinate reuse within the 1901 Bragaw Street property.
- Evaluate the adequacy of existing electrical, mechanical, fire protection, telecommunication, and building control systems for intended use and provide designs for required modifications.
- Develop a proposed Relocation Schedule to start tenant improvements or modifications on the 1901 Bragaw Building in January 2014 and move Diplomacy Building occupants incrementally, to be complete no later than 30 June 2015.
  - To save lease costs in the Diplomacy Building, the goal is to the extent feasible, vacate a complete floor at a time allowing for 3rd party leasing and incremental rent reduction until complete.
- Design and complete tenant improvements based on the Space Allocation and Relocation Plans to include:
  - fresh paint and carpet replacement throughout,
  - infrastructure modifications (new/changed partition walls, lighting and HVAC adjustments), and
  - any immediate repairs identified.
  - Goal is to use existing floor plan and room designs to greatest extent to reduce costs; however, some flexibility will be considered to best accommodate the occupants.
- Actions to be coordinated and synchronized with the execution of tenant improvements are:
  - IT/telecommunications infrastructure and workstation upgrade and setup
  - Procurement and installation of additional or special furniture or equipment
  - Relocation or moving of property, goods, and materials from the Diplomacy Building or other UAA locations into the 1901 Bragaw Street facility.
  - A detailed cost estimate for each of those areas based on occupant needs and consultant-developed plans requires further assessment and resourcing by UAA.
- Upon complete vacation of the Diplomacy Building, coordinate reparations, key/lock core exchange, and any other actions required to complete the Renter Exit Inspection with ANTHC.
- Provide as-built drawings and space assignment and utilization diagrams based on finished relocation.

**Strategic Importance**
See above.

**Impact Analysis**
See above.

**Program Enhancements**
None.

**Needs Assessment**
See above.

**Project Impact**
See above.

**Project Site Considerations**
The current site has drainage problems, extensive mold in the basement, condensing unit needs replacement.

**Incremental Costs**
Statewide will provide design and construction for a new condensing unit, site drainage and mold remediation.

**Proposed Funding Plan**
See Total project cost and Funding Sources
