UAS Sitka ART Club

The UAS Sitka Art Club is open to all UAS students (local and online) who are interested in art. The organization promotes the appreciation and practice of the visual arts both on our campus and in the community. The club encompasses varied interests by providing opportunities to learn about ceramics, printmaking, sculpture, oil painting, watercolor, and mixed-media art. Each year the club will have fund raisers to assist in defraying the cost of art activities.

- Encouraging of the visual arts among UAS students, faculty, and the community at large
- Providing an outlet for work and exposure in the visual arts among students and the UAS community
- Separating learning activities among its members by club activities
- Providing a forum for dialogue of art students and faculty at UAS

If you are interested in participating in the Art Club, please contact Liz Zadett 747-7736 (liz.zadett@uas.alaska.edu). Students can also join the art club group through SGA. Contact April Smiddy 747-7109 or Shynie Miller 747-7121.

Sitka as a community has a number of artists and art students interested in art. The UAS Sitka Art Club opens Sitka’s various resources to fine arts for a broader student population. We are determined to unify the artistic energy and resources of UAS to enrich University life with outside various artists’ workshops. We aim to establish an art academy and sustain artistic critics and theory studies. We will work to educate students and engage the UAS community through art-related activities such as guest speakers, workshops, and community art shows.

BECOME ONE in a MILLION

Why Bones?
Bones are universal. Bones are strong. Bones symbolize our common humanity.
And, they are poignant reminders of unnecessary and preventable loss.
They are the physical evidence that individuals, people, ever existed.
The bone laying is the intersection of art and activism; of education and action.

One Million Bones is a large-scale social arts practice.
That integrates education and hands on art making to raise awareness of genocides
and atrocities going on around the world, this very day.

The one million bones will be collected from across the country and installed
on the National Mall in Washington, DC, June 2013 to offer a visible petition,
to remember victims and survivors, to bring awareness to the issue.
Take part by making a bone and joining the Students Rebuild challenge.

Learn more at www.onemillionbones.org
or www.studentrebuild.org

COME help make 1,000,000 BONES!

3rd ANNUAL
Brave Heart Bowls: Throw-a-Thon

Saturday: November 10th
UAS Art Studio
10am-2pm

Whether you are a pottery novice or a master artist,
help Brave Heart Volunteers make bowls for the
upcoming Brave Heart Bowls fundraiser!

Experienced instructors and art students will be
volunteering their time to assist in the making of
wheel thrown or hand built bowls, as well as decorating
pre-fired bowls.

This event is free and open
to the public.
Please dress for work with clay.
Call Willow Moore @747-4600
or Liz Zacher 747-7710
for more information.

Expressive Alterations: Designing Non-round Functional Pottery

UAS Visiting Artist Workshop with
deborah schwartzkopf

Jan 7-8th, Saturday/Sunday 9am-5pm

Join Deb Schwartzkopf at UAS Sitka Campus for a clay-based, two-day workshop. Demonstrations will approach the functional vessel from a stand point of shape. Hands on exercises will offer a chance to problem-solve, and practice combining parts and pieces.

Pattern making will be covered as we hand build with slabs. In addition we will shape the slabs with coiled, clay bodies and we make in session. Simple thrown pieces will be cut and altered. In the end, all these approaches will be combined to making non-round, expressive shapes.

While making, Deb will also discuss the way she thinks about surface and how it can change the way the form is perceived and what one intends it to communicate. This workshop will offer many different examples of building with clay, what will enrich the skills of both the hand builder and the wheel thrower.
