### 3. Approve November 25, 2008 minutes

MOTION: passed as amended

“The System Governance Council moves to approve the minutes for the November 25, 2008 meeting. This action is effective January 28, 2009.”

Amendment in item 3; change Faculty Alliance to System Governance Council.

4. Report from the Chair

Unable to draft letter to president regarding role of governance to date. Hope to have it before the next meeting. As a UAF alumni, received the newsletter; appreciate the information. As far as advocacy is concerned going to have a hard time. Staff Alliance is traveling 2/25 and 2/26. Coalition of Student Leaders is going down 2/21 through 2/24. Kim will be down there 2/24 through 2/27. Senate presidents have been told faculty are not effective lobbyists except in the case of specific cases where academic areas are involved. Fairbanks wants to establish a PAC similar to that of Anchorage. Faculty would be most effective advocating for what they know about in the context of university priorities.

5. Resolution on Non-retention

Attachment

Carlson had an amendment to the resolution, which passed as shown below, to be inserted between the fourth and fifth "whereas" in the original resolution."

*"Whereas, current practice does not consistently consider the input of the supervisors, administrators, and local human resource services professionals in the determination of how to carry out non-retention"*

MOTION: passed as amended

"The System Governance Council moves to approve the motion on non-retention as amended. This action is effective January 28, 2009."

Resolution in opposition to non-retention as it is being used and carried out under the guidance and/or direction of statewide HR and General Counsel.

**Whereas** Regents policy 04.01.010 Human Resources Mission Statement states:

"To encourage excellence, the statewide office promotes fair treatment, provides for continuing opportunities for training and development, values and recognizes productivity and achievement, and respects the worth and dignity of all individuals who comprise the university's workforce, and

**Whereas** Regents policy 04.07.100 Non-retention states: "Non-retention does not reflect discredit on an employee, and

**Whereas** a non-retained employee is identified in the university system raising a flag on any applications for future positions with the university, and

**Whereas** non-retention is being used as a non-litigious alternative to termination, and

**Whereas** non-retention is being applied in an inconsistent manner, giving the impression of unfairness, and

**Whereas**, current practice does not consistently consider the input of the supervisors, administrators, and local human resource services professionals in the determination of how to carry out non-retention, and

**Whereas** non-retention, as it is being used under the guidance and/or direction of statewide and general counsel today, has a huge negative impact on co-workers and colleagues of those non-retained,

**Therefore be it resolved** that the University of Alaska System Governance Council respectfully requests that the UA System adhere to the spirit of Regents policies 04.01.010 and 04.07.100 when implementing non-retention, and not use it in lieu of termination when termination is justified.

UAF supervisory training includes training on the difference between nonretention and firing.

6. Advocacy and Budget Outlook – *Pete Kelly*

Attachment 6

Met day before yesterday in HOUSE Finance to give update to leg finance people. Meet and greet. One thing we will have to battle is the single appropriation. Governor submitted single appropriation. Legislation put in multiple appropriations last year and it create lots of problems. oil prices discussions; conservatives want to build a \$30 bbl oil budget when oil prices are rising daily. Stimulus package is big news. Governor submitted \$75 per barrel. Little early to give too much news. Presentation by health workforce with HESS commissioner. Fred Villa gave it to L7C on workforce; three of those with ed committee and the joint report to the ed committees by the BoR. Kim wondered if there is a new who's who out yet. Can get that information from legislative affairs and there are links to the state page. Most of the info we put in the Who's who. Calendar is much more comprehensive on the state affairs web page.
