Notes: Credit hours do not include audit hours. Data is current as of 5:00 pm for the given date. Headcounts are unduplicated at each reporting level, thus summing headcounts over all AOs within a MAU would yield totals greater than the actual value at the MAU level. This occurs because it is common for students to register for courses at more than one campus simultaneously. The dates compared from last year to this year are corresponding days of the week (e.g. Monday to Monday) in each academic calendar.

The data in this report are for internal use only and may differ from officially reported numbers

Notes: Credit hours do not include audit hours. Data is current as of 5:00 pm for the given date. Headcounts are unduplicated at each reporting level, thus summing headcounts over all AOs within a MAU would yield totals greater than the actual value at the MAU level. This occurs because it is common for students to register for courses at more than one campus simultaneously. The dates compared from last year to this year are corresponding days of the week (e.g. Monday to Monday) in each academic calendar.

Notes: Credit hours do not include audit hours. Data is current as of 5:00 pm for the given date. Headcounts are unduplicated at each reporting level, thus summing headcounts over all AOs within a MAU would yield totals greater than the actual value at the MAU level. This occurs because it is common for students to register for courses at more than one campus simultaneously. The dates compared from last year to this year are corresponding days of the week (e.g. Monday to Monday) in each academic calendar.

The data in this report are for internal use only and may differ from officially reported numbers
