Section Number & Name: 200.301 Performance Measurement
Crosswalk refers to A110, language is difficult to run a comparison

---

BACKGROUND INFORMATION:

A. Does the revised guidance contain new language? ☐ Y ☒ N

Specifically describe the new language and how it differs: See attached.

Performance Management:
Provides more robust guidance to Federal agencies to measure performance in a way that will help the Federal awarding agency and other non-Federal entities to improve program outcomes, share lessons learned, and spread the adoption of promising practices.

- Federal awarding agencies must require recipients to use OMB-approved standard government-wide information collections to provide financial and performance information.

- Recipients must be required to relate financial data to performance accomplishments, and must also provide cost information to demonstrate cost effective practices.§ As discussed in more detail in 200.328, for the research community, where there is a standard OMB-approved information collection for performance (i.e., the Research Performance Progress Report) that does not relate financial information to performance data, there is no such requirement

- The Federal awarding agencies are required to provide recipients with clear performance goals, indicators, and milestones

B. Is the new guidance more or less restrictive than university processes? ☐ More ☐ Less

Specifically describe how it is more or less restrictive: Neither more nor less

C. Cite any relevant system-wide policies/regulations/procedures:

None found

D. Cite any MAU-level relevant processes or manuals:
None found

E. Is there an impact to electronic systems (Banner HR/Finance, Web Timesheets, Effort Reporting, etc.)? ☒ Y ☐ N

List specific system(s) impacted and method of impact: Banner finance to capture "require the recipient to use OMB-approved governmentwide standard information collections when providing financial and performance information"

ACTION PLAN: Is specific action needed? ☒ Y – see below ☐ N – no action needed

Recommended Action(s):

1. Provide Financial Systems with the "require the recipient to use OMB-approved governmentwide standard information collections when providing financial and performance information" so Banner can be programmed to capture required date, if needed.

200.301 Performance measurement.

The Federal awarding agency must require the recipient to use OMB-approved governmentwide standard information collections when providing financial and performance information. As appropriate and in accordance with above mentioned information collections, the Federal awarding agency must require the recipient to relate financial data to performance accomplishments of the Federal award. Also, in accordance with above mentioned governmentwide standard information collections, and when applicable, recipients must also provide cost information to demonstrate cost effective practices (e.g., through unit cost data). The recipient's performance should be measured in a way that will help the Federal awarding agency and other non-Federal entities to improve program outcomes, share lessons learned, and spread the adoption of promising practices. The Federal awarding agency should provide recipients with clear performance goals, indicators, and milestones as described in §200.210 Information contained in a Federal award. Performance reporting frequency and content should be established to not only allow the Federal awarding agency to understand the recipient progress but also to facilitate identification of promising practices among recipients and build the evidence upon which the Federal awarding agency's program and performance decisions are made.
