Re Faculty Alliance RFI re David Bishko Executive Administration Cost Analysis

Thank you for the Faculty Alliance memo dated August 26 regarding David Bishko's analysis of executive administration costs.

Mr. Bishko worked on three analyses: 1) administrative cost review; 2) system office comparisons, and 3) peer comparisons of earned revenue to employee counts. The data used in these analyses are available from public sources such as IPEDS, NCHEMS, CUPA and internal data from UA in Review. The information sources are noted on the slides.

The working drafts are attached. (Mr. Bishko did not finish the work on this project as I asked him to step in as acting CHRO, and then assigned him as one of the leads for the student information systems modernization project.) These presentations are not complete, nor are they provided in context. Therefore, I ask that you do not use the data in these drafts without discussing first.
