   No comments at this time.
3. Guests
   a. HR Updates - Bryan Hoppough
      A reminder to please participate in the benefits survey for important feedback to HR.
      i. Banner Cloud Migration - Jamie Heckman
         Banner is the backbone of the University. Banner was implemented 25 years ago. Lucian will host Banner for us in the upgrade. The vendor will take care of the database and servers which will give more stability. The project is 90% complete and the migration will take place a month later. Banner will be unavailable 5 pm Thursday March 9th through the weekend.
4. New Business
   a. Discuss idea of a volunteer day
      As publicly paid employees we can’t get paid to volunteer. It would be more of a
      morale and outreach type of an event.
   b. Intranet
      Looking into trying to create an online space for the system office.
   c. State of the University Address - Feb. 21
      Is going to be held in conjunction with the Fairbanks Chamber this year. Each
      year we alternate where the address is being given; Fairbanks, Anchorage, or
      Juneau and find a partnership for hosting it. It will be live streamed and recorded
      so everyone can watch it live. There will be four people participating in a Q and A
      session.
   d. New UA Teacher Internship Scholarship
      In the last budget was awarded 1 million dollars for a pilot teacher internship
      program which will wave the tuition and fees for people in their final year-long
      internship at teacher preparation and provide a $10,000 stipend so people are
      not prevented from finishing their teacher certificate because they can’t afford to
      spend a year teaching without a salary. It makes it possible for more people to
      complete the program. They have the funding for 30 students a year. There are
      other ways to get a teacher certification. There are emergency programs and fast
      track programs that don’t require the teaching internship year. They are three
      times more likely to be gone in two years than a person who has undergone the
      full teacher preparation program. There is real value in getting that year-long
      experience. We want to make it possible for more people to do that.
   e. Land Grant
      The Fiscal Foundation Act will transfer 360,00 of the 500,000 acres to the
      university in the next four years. The process of identifying these lands started 2
      or 3 years ago. 40% is sales and leases forestry resources, mineral resources,
      mitigation management, wetlands mitigation, 9% is oil, gas, and coal. 12,000
      acres is all of our campuses, research sites, and facilities.

5. Ongoing Business
   a. Web accessibility VRA
      There is a form to let us know which websites have been checked for
      accessibility. The VRA requires us to ensure that any third party vendors and
      software meets accessibility standards.
      i. Jan. 19th email update
      ii. Tracking form

6. Reports
   a. President’s Report (Lauren)
      i. Monthly meeting with VP Paul Layer February 8th (next Mar. 8th)
We need to get additional members for SOSC. At UAF there are more regional representatives from each group. Many departments are so small it wouldn’t give people free will in participating. Paul will reach out during the leadership meeting to encourage them to get people to participate. We need to better explain the benefits to being involved. The new Board of Regents members have been in Fairbanks for orientation. There is a lot of interest in workforce development, budget, huge opportunity for education for new members. They were all engaged and supportive of UA. There is a process of legislature where they confirm the Board of Regents members. Concerned members of the community can reach out to the legislature. Staff Alliance has had beneficial meetings with the Regents
