3. New Business
   a. Welcome & Introduction - Mary Burnham, Administrative Governance Support
      Mary was introduced by Noel, then Mary spoke briefly about herself.
b. Guest Speaker - Chad Hutchison, Director of State Relations for the University of Alaska System

Chad introduced himself to the group and provided a brief description of his duties. He attended today’s meeting to provide information about what UA is looking forward to when it comes to the 2024 legislative session; some priorities UA has; and the good progress he and his team are making.

1. He is encouraged by the bipartisan conversations they’ve been having so far and that the Republicans, Democrats, Independents, and Undeclared representatives have been receptive to what the University has to offer.
2. Workforce - One way to entice people from out of state and internationally is through the university system.
3. Colleague Sarah Perlman and Chad have both been communicating with the House, Senate, and Governor’s office, and are now invited into the Governor’s briefings.
4. UA is involved in more conversations due to the legislature and executive branches tapping into UA’s expertise on topics such as: Energy/Power; Food Security, which includes mariculture, fish, and game; and Drone Technology.
5. Capital Budget funding topics included: Deferred maintenance fund proposal; funding through the PFD; competition with other educational programs; Federal and State infrastructure matching and general funds.

c. Guest Speaker - Raina Collins, Software Procurement Process

Raina is with OIT Security – Risk and Compliance, and has been tasked to evaluate all the third-party vendors UA does business with to ensure from an IT perspective that our data is secure.

1. A working group was developed to look at how do we administer software for the entire system and get everybody doing the same thing for the same reason. UAA already for at least the last 2 years have had a software waiver process in place, while UAF and UA S do not. They are using the TDX platform currently at UAA and UA HR, which is the same process as benefits correspondence and help tickets.
2. A new form has been developed with 4 sections, that is used when requesting new software: what software you are asking for; who owns the software; what data will it be containing; and who is going to be responsible for maintaining it? Many elements have to be included in the review process such as: procurement problems; accessibility services for disabled users; security and privacy; export control; and foreign tax considerations.
3. Another consideration is that there have been a lot of regulatory and contractual compliance changes. We have groups within our universities that need to attain R1 status to protect data being
produced for the Federal government. Also, because of our students, there are changes within the FERPA regulatory data requirements that make us need more and more cybersecurity.

d. Kristel Komakhuk hired as Senior Director of Alaska Native Success & Partnerships - Stefani Gorder confirmed that Kristel is here now at UA and has been quickly catching speed under her wings, and Kristel has already had meetings and will have more meetings up and coming.

e. Upcoming Cookies with the President - ANC and FAI

4. Ongoing Business
   a. System Office Intranet
      Have to drive people to use it, but it is helpful resource for new employees, because there is a lot of good information and links on the site
      1. BOB site - No update
   b. System Office mission statement - Placed on back burner
   c. Institutional Compliance Program
      1. Compliance Chats
      2. UA Compliance Leadership for Supervisors Training
      The link provided here takes you to a great video located about half way down the page. Whether or not you are in a supervisory position but your role deals with compliance activities, go ahead and listen through the presentation. Looking forward, the plan is to have about 6 different topics covered in videos.

5. Reports
   a. President’s Report
      i. Monthly meeting with VP Paul Layer was canceled for November due to schedule conflicts
         1. Next meeting Wednesday, Dec. 13, 2023
         2. Updates from Paul
         Memry will be actively participating in some of the staff governance issues and attending staff alliance meetings in the future, especially since a lot of what is being discussed is more tied to HR than academics. Thursday, December 7, from 9 am to 10 am, there is a special meeting of the Facilities and Land Management Committee of the BOR. A special board meeting will take place probably the second week of January with Mitch Daniels, former Governor of Indiana, who will discuss how he transformed Purdue University to focus on student success and growth.
   b. Staff Alliance (Genevieve, Monique)
      i. November Minutes and recording Passcode: 1EZyR%yq
      1. Topics discussed were: an update from JHCC; Employee Experience Survey, that is out now; and Supervisor Training, in
what, goals, tools, and to make sure supervisors are trained properly in what leadership says are their responsibilities; and the Roadmap, really looking over the next evolution of goals and measures.

   a. LinkedIn Learning info page

iii. Joint Healthcare Committee (Monique)
   1. Last month the committee started out with a Premera knowledge meeting and looked at details such as: what are our high claims; what are the trends in our health plan; what is driving cost; and
what is going on in pharmacy. This took up the majority of the
time.
2. The focus was on changes to deductibles and out of pocket
maximums.
3. The over recovery funds have been used up. Over recovery funds
are a collection of money that had been collected from employees
which was more than what we were spending on the plan, and
that money was used for a while to reduce the plan amount.
Rising costs of health plans, medications, operating costs, etc.
has used up the over recovery funds which insulated employees

iv. Staff Healthcare Committee (Monique)
1. Meeting will take place December 20th to address the Wellness
Plan.
2. Recommendations are to continue to have a wellness plan.
Matthew and Monique as our representatives on the SHCC, will
go into the meeting and inform the committee they have
widespread support from staff to keep a wellness program.
3. The rebate is a motivator to participate, but for all the people that
don’t get their rebate they are still assisting in moderating the
increases to other costs.
