<tr>
<td>Testing HR’s B9 admin pages to align with EAS required format</td>
<td>December 2022</td>
<td>11 of HR’s 16 custom / modified pages are tested, approved or no longer needed.</td>
</tr>
<tr>
<td>FN/FR Definition Changes</td>
<td>Implementation effective FY22</td>
<td>Changes are effective for FY22. FN employees will receive increased FTO accruals.</td>
</tr>
<tr>
<td>Post-COVID Workplace</td>
<td>Fall 2021</td>
<td>A cross-functional, cross-campus team is developing the framework for the post-COVID workplace.</td>
</tr>
</tbody>
</table>

Human Resources is making improvements to the system and procedures to better serve employees. This is an update on projects currently in progress. Our projects are a team effort. As we improve our processes, we communicate with those directly impacted throughout the system.

**Process Improvement Projects and Tasks**

**Standardization of FML processing**
The Employee Transitions and Benefits team is continuing the work to improve and standardize the processing and tracking of Family Medical Leave across the UA system. This includes assessing current processes, establishing common tracking methods and new streamlined processes to implement new tools to collect and manage FML requests efficiently and securely.

*Update as of 6/3/2021:* The team is continuing to manage the Emergency Family and Medical Leave Expansion Act (EFMLEA) leave with the FML process. The request form for EFMLA has been created in NextGen with validation being done by staff from general counsel and the President’s Office. FML vendor selection has been completed and implementation will be underway in the coming weeks.

**UA HR Website**
A project plan is in place to further develop the UA HR webpage. This project will turn into a coordinated task with members from each HR team once the move from Roxen is complete.
Update as of 6/3/2021: The Project Team has met with all directors. The Benefits, Labor and Employee Engagement, and the Talent Acquisition page have gone live. The HR Coordinator page has the structure built and is working on adding content. OIT is assisting HR with the transfer from Roxen over to UA Campus (6/16/21) and a new project team will be put in place by mid summer 2021.

Student Classification and Compensation
Talent Acquisition has begun the process to review and adjust the student classification and compensation tables. This will allow the university to have more flexibility in being able to adjust for changes to minimum wage and review how many student classifications are needed.

Update as of 02/05/2021: The Student Class and Comp work team has presented the draft potplas to the UA President, changes were requested, and the proposal has been returned for final approval.

Temporary Employee Review
Talent Acquisition in conjunction with Operations, Employee Transitions and Benefits, and Customer Service, are reviewing Temporary Employees’ processes, policies and regulations. This will allow the University to be in better compliance with both ACA and The State of Alaska Department of Retirement and Benefits requirements.

Update as of 05/18/2021: The Temp Work Team has presented the proposal to the UA President, it has been returned for minor updates before final review and approval. Due to FY end requirements, proposed implementation date is October 2021.

Faculty Hiring Process Improvement
Talent Acquisition has begun the process to review and adjust the faculty hiring process within myUA. This will allow all MAUs to use a singular process and singular language to hire staff. It will also reduce some of the current statuses being used within myUA.

Update as of 05/18/2021: The work team has reviewed requirements and is working on language and statuses within myUA.

Post-COVID Workplace Project
HR is leading a cross-functional, cross-campus team to research and identify the University of Alaska workplace after the COVID pandemic.

Update as of 06/07/2021: The Project Team has continued its work on remote work regulations and administrative guidelines for remote work arrangements at UA. The team is holding multiple work sessions over the next couple of weeks in order to complete proposed changes. After their initial work, the proposed regulations will be shared with the Technical Expertise Resources group and the Transition Monitoring Team for feedback. Revisions will be made and then the proposed regulations will be shared with campus and university leadership, governance groups and other constituents for feedback. They are using the risk registry that was developed by the Technical Expertise Resources
group to make sure remote work risks are mitigated.

The Transition Monitoring team continues to work through the comments and text answers of the Employee Experience Survey. The team is also continuing development of the Supervisor Experience survey and expects to distribute the survey mid-June.

The Technical Expertise Resources group has completed the risk registry. Two sub-committees are working on developing guides and resources for ergonomics and ADA compliance for those working remotely.

**FN/FR Alignment Proposal**
Current definitions of regular, non-represented faculty (FN/FR) are based upon contract length, rather than duties or responsibilities. This leads to confusion, data integrity issues, and potential disparity in leave benefits. The Talent Acquisition team, Labor & Employee Engagement team, and the Personnel Team are drafting proposed changes to redefine these two employee classifications based upon the employees’ roles at the University.

*Update as of 6/7/2021:* Changes have been approved. FN employees will receive increased FTO accruals for FY22. Talent Acquisition will notify employees of changes.

**Required Projects and Tasks**

**Intelliecheck Implementation**
HR Accounting, Data Center Operations, EAS and HR Information Systems (HRIS) are working together to implement a new check printing software.

*Update as of 6/14/21:* Cash Management approved the new and final version of the check format. Cross departmental coordination needs to occur to address new email notifications and potential changes to business processes before this application can be transferred to production.

**Testing HR’s B9 Admin Pages for Format Alignment with the Rest of UA**
HR was the first functional area to test B9 transformed pages and because of this, the format they were delivered in is not the same as all of the other B9 pages used today by other functional areas. EAS requested that HR retest all of their B9 administrative pages a second time to bring them in alignment with the more recently delivered B9 administrative pages allowing EAS to support each page into the future.

*Update as of 6/14/2021:* 11 of HR’s 16 custom / modified pages are tested, approved or no longer needed in production. One new page was recently tested and the errors were shared with the sub-contractor, Morphis, for resolution. However, the B8 test environment is so old now that it is no longer a good comparison for HR’s pages. Currently in progress is getting the sub-contractor view only access to Banner production so they can see how HR’s pages are supposed to function. A new Scope of Work must be
defined to continue this effort into FY22 as the contract ends June of 2021. This effort will be placed on hold until after fiscal year ends on July 16th, 2021.

**Testing to Decommission Talkeetna**
OIT needs to migrate Banner and other dependent applications off of the unsupported Talkeetna cluster to new and supported hardware before the upcoming generator test. HR will need to test all of their operational functions that are part of this migration.

**Update as of 6/14/2021:** HR needs to test all of their SQR programs so they continue to work in the new Pro C language after the migration. Additional testing must be conducted for all other operational processes however the test environment is not configured yet. This effort will be placed on hold until after fiscal year ends on July 16th, 2021.

**Upgrade Termination Workflow**
Termination Workflow was upgraded 11/14/20 - 11/15/20. HR must test the process from start to finish before the upgrade can be applied to BanP.

**Update as of 6/14/2021:** EAS made configuration changes to Workflow which have resolved the major issues HR was experiencing. Another full test must be conducted by HR and the rest of the UA system before this upgrade can be approved and moved to production. This effort will be placed on hold until after fiscal year ends on July 16th, 2021.

**Fiscal Year End**
HRIS, Personnel, Payroll and Accounting are beginning tasks related to the close of the fiscal year.

**Update as of 6/7/21:** HR Accounting’s primary tasks are to update the staff benefit rates and contribution rates tables to submit to HRIS and to prepare year end JV’s related to payroll and staff benefits. Fiscal Year End Instructions with associated deadlines were shared with impacted departments and posted to the HR website. The salary roll, job roll, future dated job process and leave roll all need to be completed over the next two months in Banner.
