

# Preliminary Course Registration and Admission Activity, Fall 2026

## 18 Weeks Before Start of Instruction

April 20, 2026

The following is a comparison of student activity 18 weeks prior to the first day of instruction for Fall 2026 and Fall 2025 semesters. Information reported here is normalized relative to the first day of instruction for a given term, to provide accurate trend comparisons and projections at the university and system level. Trends presented here may differ from internal, university reports utilizing alternate date comparisons appropriate to institutional needs.

Fall 2026 semester instruction begins Monday, August 24 and Fall 2025 semester instruction began Monday, August 25. Trends are considered very preliminary at this point, with normal business practice refinements also influencing early activity year-over-year. For example, each university opened Fall 2026 course registration fifteen days earlier than for Fall 2025: UAA, March 20, 2026, vs April 4, 2025; UAF and UAS, March 23, 2026, vs April 7, 2025.

### **Admissions**

A total of 13,911 applications have been started by prospective students for Fall 2026, up 24 percent (2,683) from Fall 2025. The number of initiated applications to UA Anchorage was down 12 percent (566), while UA Fairbanks increased 50 percent (3,289), and UA Southeast activity increased 3 percent (11) year-over-year.

About 70 percent of applications for Fall 2026 have resulted in admission to a program or course. Of the 9,789 students accepted so far, 7 percent (697) have elected to enroll, to-date. This represents a 19 percent (111 students) increase in new, enrolled program majors over this time last year.

Additional activity summary and detail by academic units for UA Anchorage, UA Fairbanks, and UA Southeast may be found on pages 5-6, 7-8, and 9-10, respectively. UA application trends are provided on page 11.

### **Course Registration**

Current year-over-year course registration trends show double-digit percent increases at some universities, in part reflecting an earlier start to registration this year compared to last year. The magnitude of percent increase for each university is expected to moderate some between now and the start of the semester.

With 18 weeks to go before the start of instruction, 6,108 students have registered for 65,778 Fall 2026 semester student credit hours (SCH). Year-over-year, this represents an almost 17 percent increase in headcount (879 additional students) and an over 19 percent increase in SCH registration (10,629 SCH). Over 4 percent of students (228) are concurrently enrolled in more than one university for Fall 2026.

Compared to last year at this time, UAA headcount increased around 18 percent (513 students), and SCH was almost 19 percent higher (5,746 SCH). See page 2 for additional UAA detail by academic unit.

UAF headcount increased around 21 percent (452 students), with students registering in around 23 percent more (5,153) SCH year-over-year. See page 3 for additional UAF detail by academic unit.

At UAS, both student headcount and student credit hour registration held steady compared to last year at this time. See page 4 for additional UAS detail by academic unit.

Graphs displaying historical and current system level course registration patterns for student headcount and SCH are provided on pages 12 and 13, respectively.

# Course Registration

## 18 Weeks Before Start of Instruction

### Fall 2025 and Fall 2026 (April 21, 2025 and April 20, 2026)

Note: Information is preliminary. Includes all for-credit course registration activity recorded in Banner. Valid trends are reported by normalizing dates relative to the start of instruction for each Fall semester. Fall 2026 semester instruction begins Monday, August 24 and Fall 2025 semester instruction began Monday, August 25. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university that they enrolled at. Summing headcount over academic unit, academic organization and university will double count students and add up to more than the unduplicated system total, due to students utilizing courses from more than one location. Data is provided by UAA, UAF and UAS, extracted at 5pm on the report date from UA information systems.

## UAA Application Funnel

Note: Information is preliminary. All applications recorded by each university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

## UAS Application Funnel

Note: Information is preliminary. All applications recorded by each university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

## Applications, Admissions and Enrollment by Academic Unit 18 Weeks Before Start of Instruction Fall 2025 and Fall 2026 (April 21, 2025 and April 20, 2026)

Note: Information is preliminary. All applications recorded by university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to, they may not be registered at the unit they applied and were accepted into. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.
