

# **Preliminary Course Registration and Admission Activity, Fall 2026**

## **7 Weeks Before Start of Instruction**

### **July 06, 2026**

The following compares student activity 7 weeks prior to the first day of instruction for Fall 2026 and Fall 2025 semesters. Information reported here is normalized to the first day of instruction for a given term to provide accurate trend comparisons and projections at the university and system levels. Trends presented here may differ from internal, university reports utilizing alternate date comparisons appropriate to institutional needs.

Fall 2026 semester instruction begins Monday, August 24 and Fall 2025 semester instruction began Monday, August 25. Trends are considered preliminary at this point, with normal business practice refinements also influencing early activity year-over-year. For example, each university opened Fall 2026 course registration fifteen days earlier than for Fall 2025: UAA, March 20, 2026, versus April 4, 2025; UAF and UAS, March 23, 2026, versus April 7, 2025.

#### **Admissions**

Prospective students have started a total of 16,396 applications for Fall 2026, up almost 17 percent (2,364) from Fall 2025. Applications initiated at UA Anchorage decreased 14 percent (920),<sup>1</sup> UA Fairbanks increased 44 percent (3,295), and UA Southeast is showing a slight increase of just over 1% (9), year-over-year.

About 69 percent of applications for Fall 2026 have resulted in admission to a program or course. Of the 11,387 students accepted so far, almost 21 percent (2,380) have elected to enroll, to-date. This represents a nearly 5 percent decrease (113 students) in new, enrolled program majors over this time last year.

Additional activity summaries and detail by academic units for UA Anchorage, UA Fairbanks, and UA Southeast appear on pages 5-6, 7-8, and 9-10, respectively. UA application trends are provided on page 11.

#### **Course Registration**

With 7 weeks remaining before the start of instruction, 11,768 students have registered for 120,472 Fall 2026 semester student credit hours (SCH). Year-over-year, headcount and SCH are relatively unchanged (29 additional students and 1,047 additional SCH). About 4 percent of students (428) are concurrently enrolled in more than one university for Fall 2026.

Compared to last year at this time, UAA headcount and SCH are relatively unchanged (41 fewer students and 693 fewer SCH). See page 2 for additional UAA detail by academic unit.

UAF headcount increased nearly 3 percent (128 students), with students registering in around 5 percent more (2,133) SCH year-over-year. See page 3 for additional UAF detail by academic unit.

At UAS, student headcount decreased nearly 6 percent (53 students) and student credit hour registration decreased 5 percent (394 fewer SCH) compared to last year at this time. See page 4 for additional UAS detail by academic unit.

Graphs displaying historical and current system level course registration patterns for student headcount and SCH are provided on pages 12 and 13, respectively.

---

<sup>1</sup>In April 2026, UAA implemented a fraud-prevention software platform to identify potentially bogus applications from entering our data systems. This creates a difference in application numbers between Fall 2025 and Fall 2026. For Fall 2025, this software was not in use and there were bogus applications in the count. As those do not appear for Fall 2026, it creates a misleading impression of a gap between the years that is not as large as portrayed in this count.

# Course Registration

## 7 Weeks Before Start of Instruction

### Fall 2025 and Fall 2026 (July 07, 2025 and July 06, 2026)

Note: Information is preliminary. Includes all for-credit course registration activity recorded in Banner. Valid trends are reported by normalizing dates relative to the start of instruction for each Fall semester. Fall 2026 semester instruction begins Monday, August 24 and Fall 2025 semester instruction began Monday, August 25. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university that they enrolled at. Summing headcount over academic unit, academic organization and university will double count students and add up to more than the unduplicated system total, due to students utilizing courses from more than one location. Data is provided by UAA, UAF and UAS, extracted at 5pm on the report date from UA information systems.

# Course Registration

## 7 Weeks Before Start of Instruction

### Fall 2025 and Fall 2026 (July 07, 2025 and July 06, 2026)

Note: Information is preliminary. Includes all for-credit course registration activity recorded in Banner. Valid trends are reported by normalizing dates relative to the start of instruction for each Fall semester. Fall 2026 semester instruction begins Monday, August 24 and Fall 2025 semester instruction began Monday, August 25. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university that they enrolled at. Summing headcount over academic unit, academic organization and university will double count students and add up to more than the unduplicated system total, due to students utilizing courses from more than one location. Data is provided by UAA, UAF and UAS, extracted at 5pm on the report date from UA information systems.

## UAA Application Funnel

Note: In April 2026, UAA implemented a fraud-prevention software platform to identify potentially bogus applications from entering our data systems. This creates a difference in application numbers between Fall 2025 and Fall 2026. For Fall 2025, this software was not in use and there were bogus applications in the count. As those do not appear for Fall 2026, it creates a misleading impression of a gap between the years that is not as large as portrayed in this count. Information is preliminary. All applications recorded by each university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

# Applications, Admissions and Enrollment by Academic Unit 7 Weeks Before Start of Instruction Fall 2025 and Fall 2026 (July 07, 2025 and July 06, 2026)

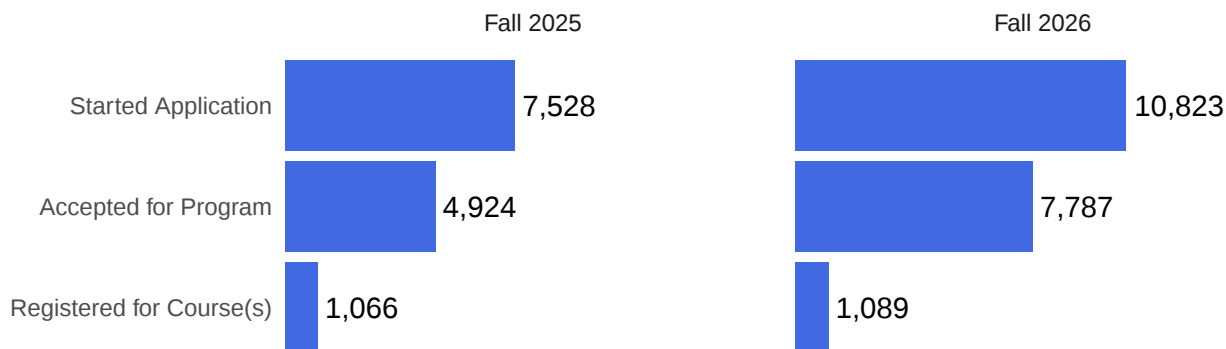

Note: In April 2026, UAA implemented a fraud-prevention software platform to identify potentially bogus applications from entering our data systems. This creates a difference in application numbers between Fall 2025 and Fall 2026. For Fall 2025, this software was not in use and there were bogus applications in the count. As those do not appear for Fall 2026, it creates a misleading impression of a gap between the years that is not as large as portrayed in this count. Information is preliminary. All applications recorded by university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to, they may not be registered at the unit they applied and were accepted into. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems. \*Other is not mapped to a current academic unit.

## UAF Application Funnel

Note: Information is preliminary. All applications recorded by each university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

# Applications, Admissions and Enrollment by Academic Unit 7 Weeks Before Start of Instruction Fall 2025 and Fall 2026 (July 07, 2025 and July 06, 2026)

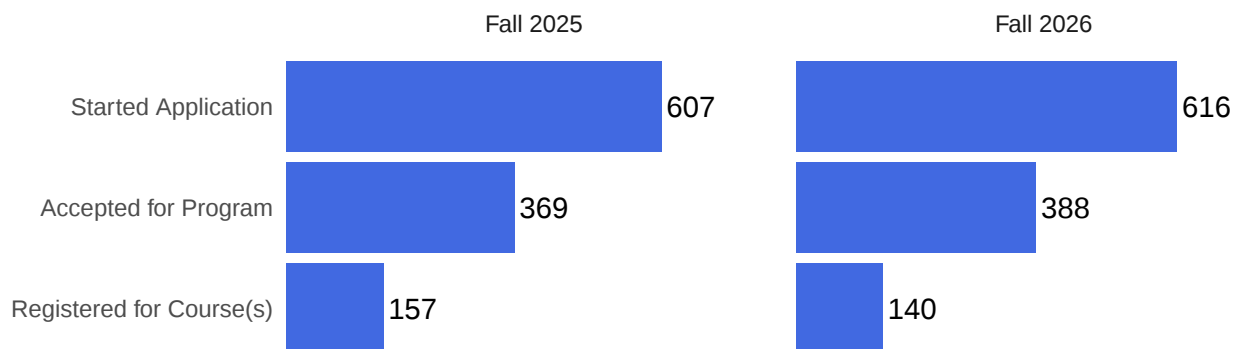

Note: Information is preliminary. All applications recorded by university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to, they may not be registered at the unit they applied and were accepted into. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

## UAS Application Funnel

Note: Information is preliminary. All applications recorded by each university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

# Applications, Admissions and Enrollment by Academic Unit 7 Weeks Before Start of Instruction Fall 2025 and Fall 2026 (July 07, 2025 and July 06, 2026)

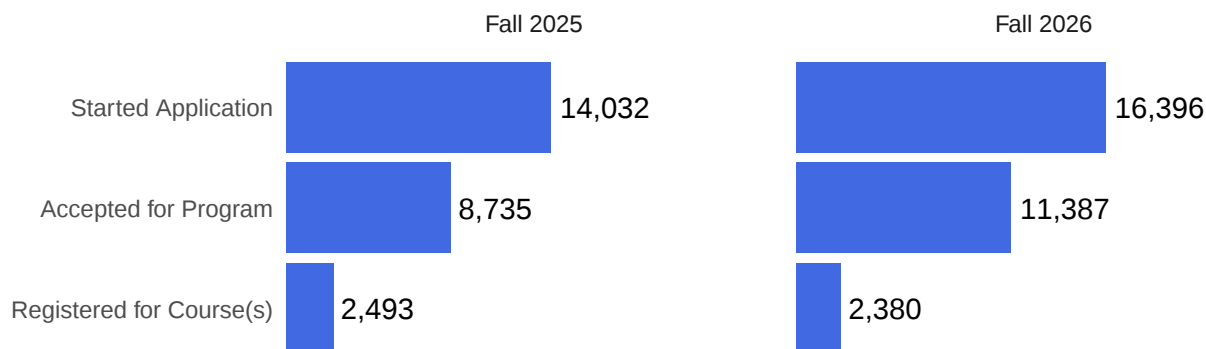

Note: Information is preliminary. All applications recorded by university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to, they may not be registered at the unit they applied and were accepted into. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

## UA Total Application Funnel

Note: Information is preliminary. All applications recorded by each university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

# Student Headcount: UA System, Fall Semester
