Preliminary Course Registration and Admission Activity, Spring 2026
Week 3 of Instruction
January 26, 2026

This is a summary of Spring 2026 semester activity as of Monday, January 26, 2026; trend figures are normalized relative to the first day of instruction for Spring term. The last day for students to add or drop semester-length courses was Friday, January 23, 2026; students enrolling in short and late start classes will continue to generate additional enrollment through the end of the term.

Closing Outlook

If current trends hold, final Spring 2026 student credit hour (SCH) registration is anticipated to be 4 percent (6,750 SCH) higher than at Spring 2025 close, totalling more than 172,000 SCH this term. Nearly 19,110 students are anticipated to enroll by the close of Spring 2026. Graphs displaying historical and current system level course registration patterns for student headcount and SCH are provided on pages 12 and 13, respectively.

Course Registration

As of January 26, 2026, 18,041 students had registered for 168,233 Spring semester credit hours, system wide, comprising an estimated 94 percent of total students and 98 percent of final SCH for the Spring term. This represents more than a 4 percent increase in student credit hour registration (6,601 SCH) and somewhat higher headcount compared to the levels observed this time last year.

At UAA, student headcount increased over 2 percent (213 students) and student credit hours increased over 6 percent (5,536 SCH) compared to last year. The College of Arts and Sciences accounted for roughly 36 percent (1,996 SCH) of the net increase in SCH at UAA. See page 2 for additional UAA detail by academic unit.

UAF student headcount held steady and student credit hour registration increased almost 3 percent (1,655 SCH), year-over-year. Spring 2026 student credit hour registration at the College of Natural Science and Mathematics accounted for nearly 84 percent (1,387 SCH) of UAF's net SCH increase. See page 3 for additional UAF detail by academic unit.

UAS headcount decreased almost 5 percent (86 students) and student credit hour registration decreased almost 5 percent (590 SCH) compared to this time last year. One area of growth was at Sitka Campus, experiencing course registration growth of almost 6 percent in headcount and (30 students) and 2 percent in SCH (44 SCH) compared to this time last year. See page 4 for additional UAS detail by academic unit.

Over four percent of registered students (757 students) are taking classes concurrently at multiple universities within the system this semester.

Applications

Program application activity is winding down for the term. More than 5,415 prospective students started applications for Spring 2026, up from 5,372 applications initiated in Spring 2025. Sixty percent of applications for Spring 2026 resulted in admission to a program or course, holding steady with last spring. Of the 3,253 students for this term, around 57 percent (1,840) elected to enroll so far. This was a decrease of 7 percent (129), year-over-year.

Additional activity summary and detail by academic unit for UA Anchorage, UA Fairbanks, and UA Southeast may be found on pages 5-6, 7-8, and 9-10, respectively. Unduplicated UA Total application trends are provided on page 11.

Course Registration
Week 3 of Instruction
Spring 2025 and Spring 2026 (January 27, 2025 and January 26, 2026)

Note: Information is preliminary. Includes all for-credit course registration activity recorded in Banner. Valid trends are reported by normalizing dates relative to the start of instruction for each Fall semester. Spring 2026 semester instruction began Monday, January 12 and Spring 2025 semester instruction began Monday, January 13. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university that they enrolled at. Summing headcount over academic unit, academic organization and university will double count students and add up to more than the unduplicated system total, due to students utilizing courses from more than one location. Data is provided by UAA, UAF and UAS, extracted at 5pm on the report date from UA information systems.

Registered for Course(s)	154	135

Note: Information is preliminary. All applications recorded by each university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.

Applications, Admissions and Enrollment by Academic Unit
Week 3 of Instruction
Spring 2025 and Spring 2026 (January 27, 2025 and January 26, 2026)

Note: Information is preliminary. All applications recorded by university are considered; some students apply to multiple programs/courses and sometimes to multiple UA universities. Headcount is unduplicated at the reporting level, counting each student once and only once at each academic unit, academic organization and university. The number of started applications counts both complete and incomplete applications. Accepted application counts and registered for course(s) counts are unduplicated at the reporting level; summing over distinct university level counts would add to more than the unduplicated system total because of double counting. To be counted as an accepted student who registered for course(s), an individual must have enrolled at the university delivering the program/course they were accepted to, they may not be registered at the unit they applied and were accepted into. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.
