## Summary: Enrollment

In Fall 2025, 20,526 students enrolled for credit in the University of Alaska system representing a 4.6 percent (897) increase from the Fall 2024 headcount of 19,629 students, and a 1.1 percent (219) decrease from the Fall 2021 headcount of 20,745 (Table 1). Part-time students made up 56.1 percent of the student body in Fall 2025, with full-time students accounting for the remaining 43.9 percent (Table 3). Of those enrolled for credit, 73.4 percent (15,072 students) are enrolled in degree seeking programs compared with 69.3 percent (14,381 students) in Fall 2021 (Table 16).

Graduate students accounted for 9.6 percent (1,977 students) of all students attending UA in Fall 2025, and 62.5 percent (1,236 students) of graduate students are enrolled part-time (Table 4). Master's student enrollment increased 7.1 percent from 1,414 in Fall 2012 to 1,515 in Fall 2025, and a 4.8 percent (61 students) increase compared to Fall 2024. Doctorate students have increased by 30.2 percent from 298 students in Fall 2021 to 388 students in Fall 2025, and this is a 16.5 percent (55 students) increase compared to Fall 2024 (Table 16).

Lower division and preparatory courses accounted for 71.3 percent (132,186 student credit hours) of coursework delivered by the UA system in Fall 2025. Upper division courses accounted for 20.6 percent (38,138) of student credit hours, while professional and graduate courses accounted for 8.2 percent (15,230) of all student credit hours (Table 39).

The number of first-time freshmen attending UA in Fall 2025 was 2,491, a 4.6 percent increase from the Fall 2024 number of 2,381 and a 36.8 percent increase over the Fall 2020 number of 1,821 (Table 18). At UA Anchorage, 1,493 first-time freshmen enrolled in Fall 2025, a 9.5 percent increase from Fall 2024. UA Fairbanks enrolled 874 first-time freshmen, a 3.3 percent increase from the previous year. First-time freshmen attending UA Southeast decreased 26.4 percent from Fall 2024 to 117 students in Fall 2025 (Table 18).

The top three Alaska Census origin areas for first-time freshmen were Anchorage (892), Fairbanks North Star Borough (327) and Matanuska-Susitna (280). The top three out-of-state origin locations for first-time freshmen were Washington (46), California (28), and Texas (22). Overall, students originating from in-state accounted for 87 percent (2,161) of Fall 2025 first-time freshmen, with students originating from out of state or another country accounting for 11.3 percent (283) and 1.8 percent (47), respectively (Table 19).

In Fall 2025, 57.1 percent of students were under the age of 25, and 6.6 percent are students over 50 years old (Table 7).

UNIVERSITY  
*of* ALASKA

*Many Traditions One Alaska*

Note: Headcount is unduplicated at the reporting level, and is normalized to current structure to provide valid trend comparisons. Adding figures across reporting levels will result in duplication because it is common for students to be concurrently enrolled at more than one academic organization (AO) and/or more than one university in the same semester. Figures count students who audit for-credit courses and exclude students taking only one or more non-credit courses. \*Effective November 2024, the Interior Alaska Campus merged into UAF's Community and Technical College (CTC). Historical unduplicated headcount for these campuses cannot be normalized retroactively to provide a valid trend comparison; values in this category are noted in gray italics above.

Per federal financial aid eligibility definitions, full-time undergraduate students and graduate students enroll in at least 12 or 9 student credit hours in a given term, respectively. Table rows displayed in italics break out the number of full-time students who took courses exclusively from one university versus those who utilized courses from more than one of UA's universities toward meeting full-time enrollment requirements.

*Many Traditions One Alaska*

Note: Reporting level headcount is unduplicated, therefore, some students would be double counted if headcounts were summed across AOs and/or universities. Each student voluntarily reports demographic information. Figures are unduplicated and count individuals self-reporting at least some indigenous heritage in the Alaska Native/American Indian category. \*Figures have been restated for Fall 2021 and Fall 2022 semesters to align with current reporting practice for individuals self-identifying with at least some Filipino heritage; historic counts for Hawaiian Native / Pacific Islander and Asian groups were updated as a result. Reporting level headcount is unduplicated, therefore, some students would be double counted if headcounts were summed across AOs and/or universities. Each student voluntarily reports demographic information. Figures are unduplicated and count individuals self-reporting at least some indigenous heritage in the Alaska Native/American Indian category.

Note: Reporting level headcount is unduplicated, therefore, some students would be double counted if headcounts were summed across AOs and/or universities. Each student voluntarily reports demographic information. University of Alaska utilizes a slightly different compilation methodology for counting gender, race and ethnicity data for institutional use than is required to be reported for federal use. All reporting is based on the same information self-reported by individuals.

Note: A student's course academic organization (AO) is defined as any AO at which the student is enrolled in one or more courses. The Program AO is defined as follows: for degree seekers, it is the AO delivering the program the student is majoring in; for non-degree seekers, it is the AO where the student first enrolled in the UA system. Each student has a unique program AO, but may have several course AOs. Headcount is unduplicated at each reporting level, therefore the row sum is often higher than the row total because it is common for students to enroll at more than one AO in a semester. For example, 238 Juneau degree program majors took one or more courses from the Sitka AO in Fall 2025, while 24 degree majors from Sitka took courses in Juneau. A student is considered to be cross-enrolled if they take one or more courses outside of their program AO.

## UNIVERSITY

Student class standing is primarily derived from the number of credit hours a student has completed and whether the student has attended any other postsecondary institution after high school. A first-time freshman is a degree seeking student enrolled in postsecondary education for the first time since graduating from high school; transfer students who attended another post-secondary institution after completing high school are not included in this group. Completion of postsecondary coursework in high school does not impact first-time freshman status. Undergraduate students who are not first-time freshman and have earned less than 30 credits are categorized as continuing freshman. Reporting level headcount is unduplicated. Numbers are unduplicated, therefore university headcounts will add up to more than the system total because students often utilize coursework from more than one university in a given semester. Headcount includes students who audit credit courses. Students with UA degree seeking status are degree-seeking students taking courses at a university other than the one at which they are pursuing a degree. Non-degree seeking students are not pursuing a degree at any university within the UA system. The non-degree seeking class standing includes exchange students who are degree seeking at their own institution and taking full time course load, as well as students granted retroactive admission to a degree program.

UNIVERSITY  
of ALASKA  
*Many Traditions One Alaska*

Student class standing is primarily derived from the number of credit hours a student has completed and whether the student has attended any other postsecondary institution after high school. A first-time freshman is a degree seeking student enrolled in postsecondary education for the first time since graduating from high school; transfer students who attended another post-secondary institution after completing high school are not included in this group. Completion of postsecondary coursework in high school does not impact first-time freshman status. Undergraduate students who are not first-time freshman and have earned less than 30 credits are categorized as continuing freshman. Reporting level headcount is unduplicated. Numbers are unduplicated, therefore university headcounts will add up to more than the system total because students often utilize coursework from more than one university in a given semester. Headcount includes students who audit credit courses. Students with UA degree seeking status are degree-seeking students taking courses at a university other than the one at which they are pursuing a degree. Non-degree seeking students are not pursuing a degree at any university within the UA system. The non-degree seeking class standing includes exchange students who are degree seeking at their own institution and taking full time course load, as well as students granted retroactive admission to a degree program.

UNIVERSITY  
of ALASKA

Note: Developmental courses provide basic or supplemental preparation for introductory college courses and are available in several areas, with those in math and English making up the vast majority of courses taken. Developmental courses are for-credit courses with a course number between 050 and 099. Developmental coursework is not applicable to transcribed certificates or to associate, baccalaureate, or graduate degrees, even by petition. Headcount includes students who audit credit courses. A first-time freshman is a degree seeking student enrolled in the first semester of an undergraduate degree program. Transfer students are not included in this group.

\*Effective November 2024, the Interior Alaska Campus merged into UAF's Community and Technical College (CTC). Historical unduplicated headcount for these campuses cannot be normalized retroactively to provide a valid trend comparison; values in this category are noted in gray italics above.

UNIVERSITY  
*of* ALASKA

Note: Developmental courses provide basic or supplemental preparation for introductory college courses and are available in several areas, with math and English making up the vast majority of courses taken. Developmental coursework is not applicable to transcribed certificates or to associate, baccalaureate, or graduate degrees, even by petition. Headcount includes students who audit credit courses. Headcount is unduplicated at the reporting level, so a student taking a developmental math course and a developmental English course is counted only once in the "Developmental math &/or English" category. Developmental math courses are those with the subject code of DEVM or MATH, with a course number between 050 and 099. Developmental English courses are those with the subject code of DEVE, WRTG, and PREP, with a course number between 050 and 099. A first-time freshman is a degree seeking student enrolled in the first semester of an undergraduate degree program. Transfer undergraduate, graduate and non-degree students are not considered first-time freshmen, by definition.

Note: A student's course location academic organization (AO) is defined as any AO in which the student is enrolled in one or more courses for credit. The program location AO is defined as follows: for degree seekers, the AO delivering the program the student is majoring in; for non-degree seekers, the AO where the student first enrolled in the UA system. Each student has a unique program AO, but may have several course location AOs, if taking courses at more than one campus. SCH are unduplicated at each reporting level, therefore the row sum is often higher than the row total because it is common for students to enroll at more than one AO in a semester. For example, 9 SCH for Kenai program majors were taken at Kodiak in Fall 2024, while 149 SCH for Kodiak program majors were taken at Kenai. A student is considered to be cross-enrolled if they takes one or more courses outside of their program AO.

Note: A student's course location academic organization (AO) is defined as any AO in which the student is enrolled in one or more courses for credit. The Program AO is defined as follows: for degree seekers, the AO delivering the program the student is majoring in; for non-degree seekers, the AO where the student first enrolled in the UA system. Each student has a unique program AO, but may have several course AOs, if taking courses at more than one campus. SCH are unduplicated at each reporting level, therefore the row sum is often higher than the row total because it is common for students to enroll in e-Learning courses at more than one AO in a semester. For example, 814 e-Learning SCH for Juneau degree program majors were taken at the Sitka AO in Fall 2024, while 53 e-Learning SCH for Sitka program majors were taken at the Juneau AO. A student is considered to be cross-enrolled if they take one or more e-Learning courses outside of their program AO.

e-Learning refers to planned learning that predominantly occurs in situations where a student is not required to be in a predetermined location. A course delivered entirely via e-Learning is referred to as a distance course, while a course delivered predominantly via e-Learning with a lesser traditional component is referred to as a hybrid course.

UNIVERSITY  
of ALASKA

*Many Traditions One Alaska*

Note: Students who take classes but are not pursuing a degree or credential are non-degree seeking. Students who are seeking a degree often take courses at more than one academic organization or university in a given semester. Student credit hours attempted exclude audit hours and are reported under the class standing of the student relative to the academic organization or university delivering the course(s) a student is enrolled in. For example, a student pursuing a UAF baccalaureate degree who attempts 15 credits total, 8 at UAF and 7 at UAA, would be displayed as 8 credits under the Bachelor's column for UAF and 7 credits under the UA DS column for UAA. At the UA level, the student would be represented as 15 credits under the Bachelor's column. Credit hours with degree seeking status of UA degree seeking (UA DS) reflect those credit hours taken by students pursuing a degree at a university other than the one at which they are taking courses.

Many Traditions One Alaska

In Fall 2025, 5.6 percent of student credit hours (SCH) were taken by students enrolled in three or fewer credits, accounting for 21.1 percent of the total headcount (Table 21). Students enrolled in 12 SCH or more accounted for 63.5 percent of UA's total SCH and represented 41.1 percent of the total student headcount. Students enrolled in 15 SCH or more accounted for 26.6 percent of UA's total SCH and 14.9 percent of UA's total student headcount.

Note: Due to rounding, university totals may not add exactly. A student may take credit hours at multiple AOs within a university or multiple universities within the system. Consequently, the credit hours attempted per student may shift to higher categories when moving from the AO level to the university level to the system level. The sum of credit hours per student for AOs or universities in a given category will not equal the credit hours per student at the same level for the university or system.

*of* ALASKA  
Many Traditions One Alaska

Note: Student FTEs exclude audited credit hours. For a given semester, one student FTE is calculated as 15 student credit hours for courses below the 500 level and 12 student credit hours for courses at the 500 level and above. This represents the average number of credits needed to receive an undergraduate degree in four years, or a graduate degree in two years. \*Effective November 2024, the Interior Alaska Campus merged into UAF's Community and Technical College (CTC). Historical unduplicated headcount for these campuses cannot be normalized retroactively to provide a valid trend comparison; values in this category are noted in gray italics above.

% of UA System	1.4	1.6	10.8	4.1	57.6	0.7	6.2	1.7		15.9	100.0					

Note: Student FTEs exclude audited credit hours. For a given semester, one student FTE is calculated as 15 student credit hours for courses below the 500 level and 12 student credit hours for courses at the 500 level and above. This represents the average number of credits needed to receive an undergraduate degree in four years, or a graduate degree in two years.

UNIVERSITY  
*of* ALASKA  
Many Traditions One Alaska

Note: Student headcount is unduplicated at the reporting level and student credit hours exclude audited credit hours. Headcount represents only those students enrolled on courses delivered at the specific military program sites. Students taking courses delivered at military sites are not necessarily active duty military personnel; many other military affiliated individuals take courses on UA's campuses or by distance delivery.
