Summary: UA Scholars Award Recipients

The UA Scholars program is a four-year scholarship funded solely by the University of Alaska through its land endowment. This program was designed to help reduce the number of top Alaska high school graduates who leave the state for higher education. The program provides partial payment of tuition and fees at any UA campus. For a student attending full-time, the UA Scholars award totals \$15,000 distributed as \$1,875 payments per semester for eight semesters¹. To maintain eligibility, a student must maintain a minimum 2.5 GPA and complete at least 24 credits during the first year and at least 30 credits per year thereafter².

In Fall 2025, 355 new UA Scholars enrolled in the UA System, representing about 36 percent of the eligible top 10 percent of Alaska high school graduates (Table 2). Since the program began in Fall 1999, a cumulative total of 11,149 UA Scholars have attended UA (Table 1).

A total of 1,504 UA Scholars enrolled in Fall 2025 (Table 3). Most of this group was seeking a bachelor's degree (1,043; 69 percent). About 16 percent were attending as non-degree seekers (241) and 11 percent (163) were pursuing a 2-year or shorter program. The remaining 4 percent of students (57) were pursuing graduate level programs (Table 5).

Four program areas accounted for over half of all UA Scholar majors in Fall 2025: Health and Human Services (273 students, 18 percent); Humanities, Art, and Social Science (214, 14 percent); Engineering, Professional, and Technologies (184 students, 12 percent); and Business and Public Administration (160 students, 11 percent. (Table 6).

The top major for UA Scholars was Nursing/Pre-major Nursing (93 students) at UA Anchorage, Biological Sciences (62 students) at UA Fairbanks, and Marine Biology (8 students) at UA Southeast (Table 7).

Since the UA Scholar program began in Fall 1999, a cumulative total of nearly 11,150 students have enrolled and received a UA Scholar distribution from the University of Alaska through Fall semester 2025. This illustrates the overall impact this program has had on Alaska and its residents.

Note: The UA Scholars Award is a four-year scholarship, totaling \$15,000, awarded to the top 10 percent of graduating seniors from qualified Alaska high schools who enroll anywhere in the University of Alaska system. Effective beginning in Fall 2024, the total UA Scholars award increased from \$12,000 to \$15,000. 'New' includes any UA Scholar who received a UA Scholar distribution for the first time in the reported term. 'Cumulative' is the sum of all paid UA Scholars from previous terms through the reported term.

Note: An enrolled student is counted as a UA Scholar for eight years following the student's UA Scholar recruit term. 'New Paid' includes any UA Scholar who received a UA Scholar distribution for the first time in the reported term. 'Other Enrolled' includes any student who received their first UA Scholar distribution prior to the reported term. Reporting level headcount is unduplicated. AO headcount totals add up to more than the University totals and University totals add up to more than the system total. This occurs because it is common for students to enroll at more than one AO or University, therefore some students would be double counted if headcounts are summed across AOs and Universities. *Effective November 2024, the Interior Alaska Campus merged into UAF's Community and Technical College (CTC). Historical unduplicated headcount for these campuses cannot be normalized retroactively to provide a valid trend comparison; values in this category are noted in gray italics above.

Note: An enrolled student is counted as a UA Scholar for eight years following the student's UA Scholar recruit term. The credit hours of a degree-seeking student enrolled in courses offered by the student's program AO are reported at the degree level of the student's program (for example at the baccalaureate level). UA degree seeking (UA DS) students taking courses from an AO other than their program AO are reported at the UA DS level. Credit hours taken by non-degree seeking students are reported at the non-degree seeking (NDS) level. Reporting level headcount is unduplicated and headcount includes students who audit credit courses. AO headcount for UA DS and NDS totals add up to more than University totals and University headcounts add up to more than the system total. This occurs because it is common for students to be concurrently enrolled at multiple AOs and/or multiple Universities in the the same semester. Therefore, some students would be double counted if headcounts were summed across AOs and Universities.

Note: An enrolled student is counted as a UA Scholar for eight years following the student's UA Scholar recruit term. Within the UA System every student is admitted into one program uniquely defined by AO, degree and major, thus determining the student status to be UA degree seeking (UA DS) or non-degree seeking (NDS). When reporting at the University level, degree-seeking status for students enrolled at multiple AOs within a University is counted only once and is classified by the student's highest degree status at the University. Degree status at the system level for students enrolled at multiple Universities is counted only once and is classified by the student's highest University degree status within the system. Students pursuing a degree at an AO or University other than the one at which they are taking courses are reported as UA degree seeking (UA DS). Students who are not pursuing a degree at any campus within the UA System are reported as non-degree seeking (NDS) students. A licensure degree seeking status does not imply that class standing is licensure. Certificate includes OEC, 1-Year and 2-Year degree programs.

The academic programs listed above account for 47 percent of UA Scholars enrolled at UAA, 49 percent of those enrolled at UAF and 58 percent at UAS.

Note: An enrolled student is counted as a UA Scholar for eight years following the student's UA Scholar recruit term, regardless of remaining eligibility or whether they receive UA Scholars funding that semester. Majors listed above have been identified by university registrars as open for admission and enrollment and leading to a credential.

UNIVERSITY
of ALASKA

Note: Developmental courses provide basic or supplemental preparation for introductory college courses and are available in several areas, with math and English making up the vast majority of courses taken. Developmental coursework is not applicable to transcribed certificates or to associate, baccalaureate, or graduate degrees, even by petition. Headcount includes students who audit credit courses. Headcount is unduplicated at the reporting level, so a student taking a developmental math course and a developmental English course is counted only once in the "Developmental math or English" category. Developmental math courses are those with the subject code of DEV or MATH, with a course number between 050 and 099. Developmental English courses are those with the subject code of DEVE, WRTG, and PREP, with a course number between 050 and 099. A first-time freshman is a degree seeking student enrolled in the first semester of an undergraduate degree program. Transfer undergraduate, graduate and non-degree students are not considered first-time freshmen, by definition. An enrolled student is counted as a UA Scholar for eight years following the student's UA Scholar recruit term, regardless of remaining eligibility or whether they receive UA Scholars funding that semester.

Note: An enrolled student is counted as a UA Scholar for eight years following the student's UA Scholar recruit term. Each student voluntarily reports demographic information. Students are not required to disclose gender, ethnicity or race to participate in post secondary education. University of Alaska utilizes a slightly different compilation methodology for counting gender, race and ethnicity data for institutional use than is required to be reported for federal use. All reporting is based on the same raw data.
