Many Traditions One Alaska

Summary: Fiscal Year Enrollment

Fiscal year enrollment reflects activity in consecutive Summer, Fall, and Spring terms. For example, FY25 represents the Summer 2024, Fall 2024 and Spring 2025 semesters. A student is counted if they enroll in at least one semester during the fiscal year.

All Students

The number of distinct students enrolled in one or more for-credit, or non-credit, courses decreased 15.6 percent (from 32,224 to 27,195 students) between FY21 and FY25 and decreased 14.0 percent (from 31,638 to 27,195 students) between FY24 and FY25¹. The total number of students taking at least one for-credit course in FY25 was 26,333, a 14.3 percent decrease from 30,738 in FY24. Of these, 53.0 percent (13,963 students) registered at UAA, 41.2 percent (10,850 students) at UAF, and the remaining 13.6 percent (3,575 students) at UAS². The total number of students enrolled in at least one non-credit course increased by 74.3 percent from FY21 to FY25 (from 658 to 1,147 students). FY25 non-credit course enrollment decreased 7.1 percent from FY24, with the total number of students enrolled in at least one non-credit course decreasing from 1,234 to 1,147³.

Total student credit hours (SCH) attempted decreased 6.8 percent between FY21 – FY25, going from 401,667 to 374,418 SCH over this time. In the last year, SCH increased 1.2 percent, from 369,970 in FY24 to 374,418 in FY25⁴.

Total student full-time equivalents (FTE) decreased 7.2 percent from FY21 to FY25, going from 13,739 to 12,748. In the last year, student FTE remained relatively stable with an increase of less than 1 percent (12,684 to 12,748) from FY24 to FY25⁵.

Dual Enrollment

Dual enrollment is enrollment in a postsecondary course by a K-12 student, on a university campus or at their school. This includes enrollment where a student earns both secondary and postsecondary credit as well as enrollment for which no K-12 credit is earned.

In FY25, 3,973 dual enrolled K-12 students attended UA, representing a 1.8 percent decrease from 4,047 students in FY24 and a 32.9 percent (983 students) increase from 2,990 students in FY21. The number of K-12 students taking a class from UAA increased 2.2 percent (43 students), growing from 1,966 in FY24 to 2,009 in FY25. At UAF, the number of dual enrollment students attending decreased 12.3 percent (200 students), from 1,626 students in FY24 to 1,426 students in FY25. UAS dual enrollment student headcount increased 9.0 percent (62 students), increasing from 686 students to 748 during the same period. For comparison, Fall 2024 dual enrollment students reflects 66.8 percent of total FY25 student headcount for the UA system⁶.

Dual enrolled K-12 students attempted a total of 37,485 SCH in FY25, representing 10.0 percent of total credits delivered systemwide. The number of SCH attempted by K-12 students increased 3.1

percent in the last year and 46.2 percent over the last five years, increasing from 36,341 in FY24 and from 25,641 SCH in FY21.

The number of credits attempted by dual enrollment students has grown at each university over the last year, with UAA increasing 6.3 percent, from 20,743 in FY24 to 22,049 in FY25. UAF delivered 11,851 SCH to K-12 students in FY25, a 6.1 percent decrease from the FY24 level of 12,622 SCH. During the same period, SCH attempted by dual enrollment students at UAS increased by 20.5 percent, from 2,976 in FY24 to 3,585 in FY25⁷

The K-12 students dual enrolled at UA are located across the state. Categorizing dual enrollment students into Alaska census areas indicates that 77.5 percent (1,556 students) at UAA are from the census areas of Anchorage, Kenai Peninsula, Matanuska-Susitna, and Valdez-Cordova. Students from the census areas of Fairbanks North Star, Southeast Fairbanks, Denali, and the Yukon-Koyukuk make up 42.0 percent (599 students) of dual enrollment students at UAF. At UAS, roughly 52.8 percent (395 students) of dual enrollment students come from the census areas of Haines, Juneau, Ketchikan Gateway, Sitka, Skagway-Hoonah-Angoon, Wade Hampton, and Wrangell-Petersburg. Students from unknown census origins account for 14.0 percent (281 students), 18.2 percent (260 students), 15.6 percent (117 students), and 15.1 percent (600 students) at UAA, UAF, UAS, and systemwide dual enrollment respectively⁸

The median age of a K-12 student attending a UA campus in FY25 was 16. About 8.7 percent (345) of dual enrolled students were 14 years or younger, 14.3 percent (570) were 15 years old, 31.2 percent (1,238) were 16 years of age, 37.5 percent (1,489) were 17 years old, and the remaining 8.3 percent (380) were 18, 19, or unknown age in FY25⁹.

The top course taken by UAA and UAF dual enrolled students, in terms of headcount and SCH, was Writing 111 *Writing Across Contexts* with 472 and 335 students enrolled in 1,476 and 1,014 SCH respectively. The most popular dual enrollment course at UAS was Welding Technology 120 *Basic Welding*, with 74 students enrolled in 222 SCH in FY25¹⁰.

For comparison, Fall 2024 dual enrollment students reflects 66.8 percent of total FY25 student headcount for the UA system.

UNIVERSITY
of ALASKA

Many Traditions One Alaska

Note: Reporting level headcount is unduplicated per fiscal year. A fiscal year consists of consecutive summer, fall and spring semesters. Dual enrollment refers to enrollment at the university by a student who is simultaneously enrolled in a K-12 (or homeschool) for which the student may receive credit at both the K-12 and post secondary levels. An individual student may be enrolled at more than one university. Only K-12 students who are dual enrolled are counted in the above figures, once at each university and once at the system. For additional details about each university's definition, see <https://www.alaska.edu/ir/data/>

UNIVERSITY
of ALASKA

Note: Reporting level headcount is unduplicated per fiscal year. *A fiscal year consists of consecutive summer, fall, spring semesters, and yearlong courses. Campus headcount totals add up to more than university totals and university headcounts add up to more than the system total. This occurs because it is common for students to be enrolled at multiple campuses and/or multiple universities in the same fiscal year. Therefore, some students would be double counted if headcounts were summed across campuses and universities. This table counts any student, enrolled for credit or non-credit, in a fiscal year.

UNIVERSITY
of ALASKA

Many Traditions. One Alaska.

Note: Reporting level headcount is unduplicated per fiscal year. A fiscal year consists of consecutive summer, fall, spring semesters, and yearlong courses. Campus headcount totals add up to more than university totals and university headcounts add up to more than the system total. This occurs because it is common for students to be enrolled at multiple campuses and/or multiple universities in the same fiscal year. Therefore, some students would be double counted if headcounts were summed across campuses and universities. This table counts any student who is non-credit-enrolled in a course in a fiscal year.

Notes: One non-credit instructional productivity unit (NCU) is equivalent to delivery of 10 non-credit student contact hours. For example, delivering a 10 hour non-credit course to 150 students equates to 150 NCU. This measure considers all non-credit courses, including continuing education courses.

Note: This table reports student full-time equivalents for each fiscal year. A fiscal year consists of consecutive summer, fall, spring semesters. For a year, one student FTE is calculated as 30 student credit hours for courses below the 500 level and 24 student credit hours for courses at the 500 level and above. This represents the average number of credits needed to receive an undergraduate degree in four years, or a graduate degree in two years. Student FTEs exclude audited credit hours.
