

## 5-Year Average Tuition and Cost of Instruction for Environment & Society Major

Program/Courses	100% Tuition - 5yr Ave	80% Tuition - 5yr Ave	Cost of instruction	Net to College
ENVI (major courses)	\$169,249	\$135,399	\$263,714	(\$128,315)
GEOG (courses)	\$163,212	\$130,570	\$118,459	\$12,111
Environment & Society (major)	\$332,461	\$265,969	\$382,173	(\$116,204)

Tuition is split 80:20 between the college teaching the courses and the University such that for every \$100 earned in tuition, \$80 goes to the college to pay for the salary and benefits of the faculty (cost of instruction). The net to the college is the 80% tuition minus the cost of instruction. The Environment and Society major requires ENVI and GEOG courses taught by the faculty in the Department of Geography and Environmental Studies.
