## Notes:

1. Look at the Alaska Science and Technology Plan - All, 1 hour 22 min.
  - a. An updated Science & Technology Plan is reflective of the EPSCoR program and is a requirement of NSF. The current EPSCoR grant ends soon and the new proposal is due August 22nd. Accompanying the plan there needs to be an updated Science and Technology plan for Alaska.
  - b. The largest change to the Executive Summary is the addition of 'A Connected Arctic'. Discussion takes place over the Executive Summary, S&T research arenas, industry partnerships, and research funding.
