15:00:29 From Brian Holst to Everyone:

Excellent Experience this year!

15:14:08 From Aimee Devaris, USGS (she/her) to Everyone:

I have to leave to pick up kids at school. Just a quick note -- It's helpful to hear the state's priorities provided in this meeting. I hope they will be wrapped into the updated state research plan as many of them connect very well to the IARPC priority areas. It's also important to note these plans are often reviewed/consulted when we are asked for proposals in the various legislative processes (BIL is a recent example). DGGs has benefitted by articulating needs in mineral resource estimates, and we've added funding to cooperative agreements from the BIL.

15:31:42 From Dayne Broderon to Everyone:

Doesn't look like they updated the track 1 page - but last year LOI was due July 14th, 2021 and full proposal August 16, 2021

15:34:22 From Alex Hills to Everyone:

Sorry I have to leave at 3:30 but I'll repeat that my work on universal broadband may have some implications for remote monitoring -- even in the short term. Glad to talk with anyone who might need that. Best to all.
