University of Alaska
Education and Training for Health, FY15

The University of Alaska is committed to preparing today’s students for tomorrow, recognizing that tomorrow’s careers require advanced skills, greater knowledge, and more flexibility than ever before. Specific to the health industry, the University offers career and technical training as well as advanced degrees. This inventory provides the locations of programs and degrees or certificates offered in FY15, which includes three terms: summer 2014, fall 2014, and spring 2015.

The University of Alaska is unique in its offerings of education and training programs to assist in building a skilled workforce for the health industry:

- Core programs include vocational and technical training and advanced degrees directly related to the health industry.
  - 15 Occupational Endorsements, 13 Certificates, 23 Associate Degrees, 14 Bachelor’s Degrees, 2 Licenses, 1 Post Baccalaureate Certificate, 9 Graduate Certificates, 5 Master’s Degrees, and 2 Doctorates
  - 4,778 degrees were awarded to graduates in the core programs between 2010 and 2014.
- Support programs include the broader vocational and technical training and advanced degrees in such fields as education, office technology, biology, rural development, and so on.
  - 2 Occupational Endorsements, 13 Certificates, 8 Associate Degrees, 14 Bachelor’s Degrees, 1 License, 1 Post Baccalaureate Certificate, 1 Graduate Certificate, 20 Master’s Degrees, and 4 Doctorates
  - Information on these programs can be located at: [http://www.alaska.edu/research/wp/ua/](http://www.alaska.edu/research/wp/ua/)
- Approximately 55 percent of the health core and support programs have e-Learning components.
- The University engages in advisory councils to inform and guide education and training programs.
- The University has specialized capacities such as the Alaska Center for Rural Health and the Institute for Circumpolar Health Studies in Anchorage.

Workforce Training

The University of Alaska (UA) offers various courses to support the continuing education and professional development needs of Alaska’s health workforce. Due to the volume of courses offered across the state, they are not all listed in this inventory. Additional information on these course can be found through the following UA departments and programs.

The Center for Human Development (CHD) is a University Center for Excellence in Developmental Disabilities in Education, Research, and Service (UCEDDs) authorized by the Developmental Disabilities Assistance and Bill of Rights Act of 2000. There are 67 UCEDDs, at least one in every state and territory, that form an Association of UCEDD’s (AUCD.org). Since CHD is the only UCEDD in Alaska, we serve the entire state. The UAA Center for Human Development has 4 major functions; interdisciplinary education, community training and technical assistance, research, and information dissemination. These activities are designed to increase the independence, productivity, and community integration and inclusion for individuals with disabilities. CHD’s projects and activities are not limited to developmental disabilities; they focus on a wide range of disabilities, ages, and issues. https://www.uaa.alaska.edu/centerforhumandevelopment/

The Alaska Training Cooperative (TTC) promotes career development opportunities for direct service workers, supervisors, and professionals in the field engaged with Alaska Mental Health Trust Authority beneficiaries, by ensuring that technical assistance and training is accessible and coordinated. In addition, the TTC is dedicated to collaborating with Alaskan communities to train rural behavioral health care providers by blending evidence-based practices with traditional wisdom. http://trusttrainingcoop.org/

The Alaska AHEC Program supports, coordinates, and disseminates information about continuing education (CE/CME) opportunities targeting health care professionals working in rural areas or with underserved populations. The goal of this program is to increase workforce retention by improving access to training. In order to closely monitor the CE/CME needs of providers in Alaska, the AHEC conducts periodic needs assessments in partnership with statewide health profession associations. This program developed the Alaska CACHE: Clearinghouse for Alaska’s Continuing Health Education, in collaboration with several health industry and government partners to support Health Care Professionals, CE Providers, and Facilities to meet their CE/CME and training needs. https://www.uaa.alaska.edu/acrh-ahec/

The University of Alaska Anchorage Community & Technical College (CTC) Continuing Education Department enhances, promotes and provides quality education and training that is responsive to the needs of lifelong learners in a changing world through leadership collaboration within the community. https://www.uaa.alaska.edu/continuing-education/about/

The University of Alaska College of Education, Office of Professional and Continuing Education (PACE) facilitates professional development opportunities for educators and other service professionals. PACE works collaboratively with UAA academic units and partner organizations to provide responsive service and support for 500-level courses, workshops, conferences, institutes, and academies. Committed to addressing the community’s immediate and changing professional development needs, PACE works closely with school districts, professional societies, and private and government agencies. https://www.uaa.alaska.edu/coe/professionals/professional-continuing-education.cfm

The Department of Health, Physical Education & Recreation offers professional development courses for Alaskan teachers and continuing education courses for businesses and other groups in the areas of adventure activities, aquatics, dance, martial arts, sports, wellness and fitness, and wilderness medicine. https://www.uaa.alaska.edu/hper/adventure/index.cfm
The UAF Community and Technical College offers training and continuing education programs to meet employment needs in the trades and professions. In response to individual and community demands, CTC provides short courses, noncredit workshops, supervisory and customer service skill seminars for local businesses and agencies, and general programs for cultural enrichment. Programs can be tailored to a specific group or need, and offer an economical way to improve workforce development skills. Call 907-455-2858 for more information about professional development.

UAS Sitka Campus offers noncredit courses designed to provide alternatives for enhancing your workplace skills. A variety of courses are available for providing continuing education contact hours or CEUs in order to fulfill on-the-job training, licensing or certification requirements. [http://www.uas.alaska.edu/sitka/start/cont_ed.html](http://www.uas.alaska.edu/sitka/start/cont_ed.html)
