UA in Review

www.alaska.edu/swbir/ir/ua-in-review/ Link to the UA in Review, a comprehensive, system-wide publication reporting on the University of Alaska, organized around the structure of the University system including the four major administrative units: UA Statewide; UA Anchorage; UA Fairbanks; and, UA Southeast.

EDUCATION AND TRAINING PROGRAMS

ACADEMIC PROGRAMS BY UA CLUSTER AND DEGREE LEVEL

The University of Alaska utilizes Career Clusters as a way to group University of Alaska education and training programs into broad industry sector career areas. The following education and training programs are associated with oil and gas industries and occupations and are categorized using University of Alaska Career Clusters designations. See page 10 for additional information on UA Career Clusters. See page 15 for list of Acronyms.

TRAINING PROGRAMS

UA is the state's largest supplier of workforce training. In addition to baccalaureate and master's degree programs such as nursing, engineering and accounting that involve internships and lead directly to employment, UA campuses provide hundreds of short-term training programs that get people out of the classroom and into a job in 1-2 years or less.

The Mining and Petroleum Training Service (MAPTS) is of particular interest for oil and gas training programs. In its 30+ year history, MAPTS has evolved to provide the following types of training programs:

- OSHA.
- MSHA.
- EPA.
- DOT.
- IADC Well Control & related classes, NSTC, HAZWOPER, ECS.
- Entry Level Roustabout.
- DEC Classes.
- CITS Cook Inlet Training.
- NSTC+H2S.
- IADC WellCAP.
- IADC Intro to Well Control.
- IADC Well Intervention (pending IADC approval).
- Rigging – Entry Level.
- Mechanical Maintenance
- Pre- and post- employment training for a variety of employers and agencies in the resource industries and professional training and development, design and evaluation, as well as consulting services.
- Other customized industry related certification training.

Mining and Petroleum Training Service

APPRENTICESHIP PROGRAMS

UAA – CTC APPRENTICESHIP TECHNOLOGIES

WWW.UAA.ALASKA.EDU/CTE/ACADEMICS/APPRENTICESHIP/INDEX.CFM

The Apprenticeship Technologies program is a 60 credit Associate of Applied Science degree, coordinated and delivered collaboratively by UAA, UAF and UAS.

- Integrates general coursework and training for career and technical occupations
- Individuals must complete an apprenticeship registered by the US Department of Labor, Office of Apprenticeship and hold journey worker status.
- Students are encouraged to start while still an apprentice, and graduate after completing both the coursework and apprenticeship.
- Journey workers can apply at any time.

[Up to 38 credits](#) can be transcribed for approved apprenticeship programs.

Graduates can seamlessly enroll in the [Bachelor of Science, Technology](#) (UAA) or [Bachelor of Technology](#) (UAF) degree. See more at: www.uaa.alaska.edu/cte/academics/apprenticeship/index.cfm#sthash.WBQfZOOI.dpuf

The A.A.S. degree in apprenticeship technologies provides vocational training and supporting course work to prepare students for the rapidly changing global workplace. The program also helps Alaska industries by training workers who can meet increasing certification requirements which reflect complex business and industrial standards.

Program Overview

The apprenticeship technologies program is a 60-credit A.A.S. degree delivered collaboratively through UAA, UAF and UAS. The practical integration of general course work and training for vocational and technical trades specifically reflects the commitment of the university to high-quality instruction and public service. Individuals earning this degree must complete an apprenticeship program approved by the U.S. Department of Labor, and they must hold journey-level status in trades recognized by the U.S. Department of Labor, Bureau of Apprenticeship and Training.

Students declaring a major in apprenticeship technologies must present documentation of acceptance into an apprenticeship program approved by the U.S. Department of Labor, Bureau of Apprenticeship and Training. The appropriate College of Rural Alaska campus will review the documentation and may recommend up to 38 credits of course work following completion of all courses listed below. Students are encouraged to begin the required courses while completing the apprenticeship program to expand the quality and breadth of the program. Students who complete this program may be eligible to enroll in the B.S. technology degree program at UAA or the B.T. technology degree program at UAF.

Roger Weggel, Program Coordinator
Apprenticeship Technologies

UAS

WWW.UAS.ALASKA.EDU/ACADEMICS/UNDERGRAD/ASSOC/AAS/APPRENTICESHIP_TECH.HTML

The associate of applied science degree is a two-year degree awarded in a specific career or occupational field of experience. Residency requirement is 15 UAS semester credits.

The Apprenticeship Technology program is available to individuals who have completed a formal apprenticeship program and hold journeyman-level status in trades recognized by the U.S. Department of Labor, Bureau of Apprenticeship and Training. This degree is available through campuses of the University of Alaska that offer the required academic credit courses. Upon completion of all the academic credit courses, the apprenticeship program will be evaluated and appropriate credit awarded. Fees may be involved. No more than 38 credit hours may be awarded for the formal apprenticeship program. Contact [Career Education](#) for assistance with course planning toward the Associate of Applied Science degree.

MILITARY

UA CAREER CLUSTERS, NASDCTEC/DOL CLUSTERS, O’NET CLUSTERS

Career clusters and career pathways are a useful tool to organize and categorize groupings of occupations as well as education and training programs. At UA, 15 career clusters are used for the purpose of organizing education and training programs. As utilization of this classification method becomes even more widespread in Alaska, we are undertaking a conversation with partners to better understand current usage of this classification system to ensure consistency.

The National Association of State Directors of Career and Technical Education Consortium (NASDCTEc) spearheaded the national effort to develop and utilize Career Clusters. Below is a cross-walk between UA Career Clusters and the NASDCTEc career clusters. www.careertech.org/career-clusters/

O’NET career clusters “contain occupations in the same field of work that require similar skills. Students, parents, and educators can use Career Clusters to help focus education plans towards obtaining the necessary knowledge, competencies, and training for success in a particular career pathway.” www.onetonline.org/find/career

UA Grants Related to Oil and Gas Industry				
FY	Grant Title	Max Fund Amount	Grant Type	Agency
2008	North Slope Arctic Fox Diagnostic and Research Initiative: Health Status and Zoonotic Diseases	14,040.0	Research/Development	BP Exploration AK Inc
2008	Oil Spill Recovery Graduate Fellowship for James Alanko	50,033.0	Research/Development	Prince William Sound Science Center
2008	Environmental Studies of Port Valdez, Alaska - 2008	216,274.0	Research/Development	Alyeska Pipeline Service Co.
2008	Experimental Study on Bending Behavior of Natural Gas Pipeline at the Boundary of Permafrost and Non-permafrost: Planning a Field Experiment for West Siberia	6,997.3	Research/Development	Hokkaido University
2008	Physical oceanographic measurements in the Klondike and Burger prospects of the Chukchi Sea	90,217.0	Research/Development	Conoco
2008	Conoco-LAB : Assessment of the planktonic communities in the Klondike and Burger prospect regions of the Chukchi Sea	6,075.0	Research/Development	Conoco
2008	ConocoPhilips 2008 Environmental Studies Program in Chukchi Sea: Benthic Ecology	33,000.0	Research/Development	Conoco
2009	Oil in Ice: Transport, Fate, and Potential Exposure	63,156.0	Research/Development	Oil Spill Recovery Institute
2009	Environmental Studies of Port Valdez, Alaska - 2009	225,646.0	Research/Development	Alyeska Pipeline Service Co.
2009	Schrader Bluff Enhanced Oil Recovery	332,000.0	Research/Development	BP Exploration AK Inc
2009	ConocoPhilips 2008 Environmental Studies Program in Chukchi Sea: Benthic Ecology	299,782.0	Research/Development	Conoco
2009	Phase 2: Conoco: Assessment of the planktonic communities in the Klondike and Burger prospect regions of the Chukchi Sea	117,546.0	Research/Development	Conoco
2009	ISER Energy Related Programs	300,000.0	Research/Development	President's Special Projects
2009	UAF Phased Research Proposal to Evaluate the Effects of Dispersed Oil on Cold Water Environments Of the Beaufort and Chukchi Seas	197,000.0		NewFields
2009	INVESTIGATION OF PHYSICAL CHANGES OF BIOPOLYMER DRILL-IN FLUID SYSTEMS DURING DRILLING OPERATIONS IN ALASKA	50,000.0	Research/Development	BP Exploration AK Inc
2009	Phase 2: Conoco: Physical oceanographic measurements in the Klondike and Burger prospects of the Chukchi Sea	73,417.0	Research/Development	Conoco
2009	Scientific Exploration in the Arctic Ocean Workshop	50,000.0	Other Sponsored Activity	Shell Oil Company
2009	Shell - Application of High-Frequency Radar to Potential Hydrocarbon Development Areas in the Northeast Chukchi Sea	300,000.0	Research/Development	Shell International Exploration and Production Inc.
2009	Conoco - Application of High-Frequency Radar to Potential Hydrocarbon Development Areas in the Northeast Chukchi Sea	400,000.0	Research/Development	ConocoPhillips
2009	The Geochronology and the Historical Changes in Trace Metals and isotopes of Carbon and Nitrogen in Sediments of Chukchi Sea, Arctic Alaska	54,286.0	Research/Development	Conoco
2009	Monitoring Changes in the Arctic Ocean: A Collaborative Study	175,000.0	Research/Development	Shell Oil Company
2009	Monitoring Pad Pore-Water Flow on the Crude Oil Topping Unit	40,000.0	Research/Development	BP Exploration AK Inc

2010 Characterization and Quantification of the Methane Hydrate Resource Potential associated with the Barrow Gas Fields (Phase II)	150,000.0	Research/Development	Petrotechnical Resources Alaska
2010 Subaward: Alaska North Slope Oil and Gas Transportation Support System	689,501.0	Research/Development	GW Scientific
2010 Environmental Studies of Port Valdez, Alaska ? 2010	220,331.0	Research/Development	Alyeska Pipeline Service Co.
2010 DOE/EPPR Strategic Planning, Coordination, and Execution of Activities in Oil and Gas Mandate	90,896.0	Other Sponsored Activity	Battelle Pacific Northwest Lab
2011 Population assessment of snow crab, Chionoecetes opilio, in the Chukchi and Beaufort Seas including oil and gas lease areas	116,571.0	Research/Development	Coastal Marine Institute
2011 Monitoring Seabirds and Marine Mammals in the Chukchi Sea as Part of the Alaska Monitoring and Assessment Program	111,947.0	Research/Development	Shell Oil Company
2011 OSRI Graduate Research Fellowship: Cultural dimensions of community response preparation and vulnerability to Copper River fisheries and the community of Cordova	49,937.0		Oil Spill Recovery Institute
2011 Environmental Studies of Port Valdez, Alaska 2011	212,730.0	Research/Development	Alyeska Pipeline Service Co.
2011 Pad Pore Water Movement Through North Slope Gravel Pads	120,000.0	Research/Development	BP Exploration AK Inc
2012 Data rescue: Epibenthic invertebrates from the Beaufort Sea sampled during WEBSEC and OCS cruises in the 1970s	49,984.0	Research/Development	Oil Spill Recovery Institute
2012 Environmental Studies of Port Valdez, 2012	201,266.0	Research/Development	Alyeska Pipeline Service Co.
2012 Zooplankton communities of the Beaufort Shelf 2011	119,691.0	Research/Development	Shell International Exploration and Production Inc.
2012 Coastal zooplankton communities of the Chukchi Sea	85,278.0	Research/Development	Shell International Exploration and Production Inc.

ACRONYMS

Degree Level --Degree level is determined by the primary degree that the student is working towards within the organization being reported.

AAS - Associate of Applied Science degree (2-year)
AS – Associates of Science degree
BBA – Bachelor of Business Administration degree
BA - Bachelor of Arts degree
BEM – Bachelor of Emergency Management
BI – Bachelor’s Intended (means that a student intends to enroll in bachelor's degree program, but has not yet met the admission qualifications to do so)
BS -Bachelor of Science degree
BT – Bachelor of Technology degree
CT1 - Certificate (one year certificate program)
CT2 – Certificate (two year certificate program)
GCRT – Graduate Certificate
MA – Master of Arts
MCE – Master of Civil Engineering
MEE – Master of Electrical Engineering
MO – Master, other
MNRMG – Masters of Natural Resource Management Geography
MPH – Master Public Health
MS – Master of Science
OEC – Occupational Endorsement Certificate
PHD – Doctor of Philosophy

Selected terms:

Career Clusters: groupings of occupations/career specialties used as an organizing tool for curriculum design and instruction. Career clusters “represent a distinct grouping of occupations and industries based on the knowledge and skills they require”. - See more at: www.careertech.org/career-clusters/glance/careerclusters.html#sthash.B5ALcWAz.dpuf

Continuing Education Units (CEU): This type of non-credit course focuses on community outreach. Courses are designated by a course approval code and typically have a course number ranging between 001 and 049. Source: UA datacookbook

Dual Enrollment: Dual enrollment includes all students who are still in high school, not enrolled in a Tech-Prep program at their high school and taking courses at the University of Alaska. Those students are in the [14-18] age bracket and the courses that they enrolled in are GPA eligible. Source: UA datacookbook

GER: General Education Requirement, the courses that are required for any undergraduate degree.

MAU: Major Administrative Unit: the MAUs are UA Anchorage, UA Fairbanks, UA Southeast and Statewide.

O’NET: The nation's primary source of occupational information. See <http://www.onetcenter.org/overview.html> for more information.
