1. Suddenly we have students putting their own email address in the web application for emergency contact. It will not push into banner-Peggy

    Students are adding their own email address in the emergency contact info

    Won't push into banner because it's an email not a phone number.

2. OnBase task request to reorder documents in the student file-Libby

    Approved. Will be sent to BST

3. New OnBase tast request?

    Peggy asked about the possibility of a new task request that would add keyword of WUE-suggest using the status field.
