START TIME: Sunday, 2010-07-11, 08:00 am, AKDT
RECOVERY TIME: Sunday, 2010-07-11, 12:00 noon, AKDT
SUBJECT: DegreeWorks: Toklat-DGWP (Proactive Maintenance)

JPI (Java Plug In) – Week of Sept 20th, 2010 – hopefully solve the memory leak issue, stop crashing, and increase speed; you should not be able to tell that the upgrade is being done.

OnBase Test July 16th at 5 PM - July 26th at 8 AM - outage is 5 working days
OnBase PREP August 13th at 5 PM - August 23rd at 8 AM - outage is 5 working days
OnBase PROD October 15th 5 PM - October 25th at 8 AM - outage is 5 working days

3) Jane:

- AR 8.1.1 - folks will need to test the forms and let me know if they approve them going to PROD before Thursday of next week. Finance is scheduled to apply the upgrade next Sunday.

- Registration performance issues – high priority for the programmers. They will try to emulate the high demand times for registration sessions.

4) Mary:

- Distance Ed - Dec 2010 deadline for programming, PMT/ITEC funding request this month
- EAS Manager – two candidates to Fairbanks last week –hope to have offer made next week
- HEOA compliance – UAA Link (other campuses?)
- Secure PDF's – National Student Clearinghouse rescinded offer b/c our programmers were too busy
- Clean address – technical review, implementation assistance purchased –waiting for response from vendor to check out how we implemented their software
- Tuition - discussion about changing AY12 from 5/10 to 10% across the board; proposes 10% or 12% for AY13.
- Sent race/ethnicity language for UAOnline (Admissions version already in progress) to GFC and Race/Ethnicity team – in LRGP.
- 49'er Finish – try to get students to finish with few requirements remaining – UAF is interested
- Degreeworks reporting support from Sungard
- Student Support Services – faculty input at UAOnline – outsourced programming
- PMT requests –
    - DISTANCE ED - Banner Distance Ed Code Programming, UAOnline Search Functionality, Staff Training
    - Banner Relationship Management (formerly known as BEMS) – **USEG discussed this and possibly a Fall 2012 PROD target – funding is not in place but we are working towards this goal**
    - Banner Student Programming Outsource - Web Registration Duplicate Checking Override
    - UAOnline Authentication Using UA Username/UA ID and Universal Password
    - Banner Data to ELMO in Real Time
    - Sungard HE Tutorial – Tell Cathy if you are interested
    - AVOW – transcript service under review
    - Script safe set demo for Monday July 12 at 11-12:30

5) Task requests:

Buffy, UA Scholars
SRP2USB- Not delete non matches (email yesterday from Mary at 4:16pm) **UAS, UAF, UAA approves**

SRP2EXU – Expiration Process (email today at 11:55am) **UAS, UAF, UAA approves**

6) Other items:
A non issue – BCT shot down – use cohorts was their suggestion, but they won't work either will look at alternative ways to link NSE database to Banner
Mike:
Our National Student Exchange would like to enter 'NSE' + a 5 digit unique ID as an Alternate ID in Banner. I can't imagine that it would cause a problem, because students who apply via the SunGard web application (unsecure side) get the ID that they make up for themselves saved as alt. ID's when the applications are pushed. (For example, "mike123" or "suzie_Q") I'm going to copy and paste Megan's email below explaining more about why she would like to enter the ID's.
I told her that we should probably just clear it with the BST and Colleen suggested BCT also, just to make sure that other folks won't object, or start deleting them if they see them.
Thanks, Mike

Hi Mike,
I know you are super busy but when you get a chance, I was hoping you could answer a question for me.
When we enter incoming NSE students in Banner is there any where in the system we could enter their NSE ID as an Alternate or Additional ID? I would like to be able to create TOAD queries to generate data for a table that I would import into Access. I would use the NSEID as the primary key in Access when cross-referencing my NSE placement/demographic info tables (which are downloaded directly from the NSE website and consequently don't contain the students' UAID number..but they do have their own unique NSEID) with my Banner data (term balance, holds, dorm room info, etc)
Thanks for all your help!
Megan

Mary:
UAOnline survey and Email/Blackboard Links – move to unsecured side to give access to everyone
--
Programming expectations (ie what needs to be completed) for this Fall:

- UAA's & UAS enhanced bookstore link from UAOnline
- ADA compliant page work around so we can use the new Web Tailor self service cascade sheets at UAOnline on hold for this item
- Three column lineup for UAOnline listing Campus Blackboard/Email link
- Gateway course descriptions not showing anywhere – Jane and Colleen will discuss this
--
Let Mary know if there is anything hanging out there and you are expecting programmers to accomplish this fall.
Mary:
Preferred Email in LRGP – check this out and let Mary know how it works; students can change any email address; look into process that take the preferred check off; need to test to see if we need modifications to make it work in UAonline
