

DegreeWorks Work Team Minutes for November 10, 2008

Group: DegreeWorks Work Team

Topic: Weekly Team Meeting

Date: November 10, 2008 at 8:30 am

Attendees: Colleen Abrams, Peter Sommers, Janet Johnson, Emily Theilke, Doug Berman, Tim Stickel, Patty Itchoak, Craig Mead, John Allred

=====

See attached SR summary document for the current status of SR's.

Password change from email to UAOnline pin.

- . David gave UAOnline pin sql to review. Original script does not look like it can be changed. This will be done when David returns from vacation on 11/24. Will probably be a nightly update at this time.

Localizations received for UAF and more updates will be sent to Dennis. UAS waiting for Barbara to get back on 11/17 to send the changes to Dennis. UAA will be reviewing the localizations that were received last week. John will review these.

Moves of student data need to be done nightly. Janet will coordinate with the Technical staff.

Security – Need to have all UA-system IP addresses open to Scribe and SureCode. Not having this has created problems with the testing. John and Peter/Barbara must ask for the IP ranges for their instances to be opened.

- . Peter will check with Barbara when she returns from vacation (11/17)
- . John has not done this but will send it to Janet and David.

Status –

UAA –

- . Began scribing additional catalogs last week – doing it by major for catalogs 2005-2006 through 2008-2009.

UAS –

- . Going slow. Found degree had not be scribed. Trying to scribe around flexible requirements.
- . SOC format needs work.

UAF –

- . Continuing testing
- . Meet with advising center advisors last week

4.0 Implementation

- . Includes something for financial aid.

- . Could not find information about catalog extract from Banner. UAS does not have catalog in HTML format so would be expensive for them to do.
- . Look at spring implementation before this is opened to students
- . All need to review upgrade notes.

Reviewed list of items to be discussed at the symposium. Document that will be used as a basis for this list is attached to the email of these minutes.

Next meeting: November 17, 2008 at 8:30 am
