Jerry from UAA shared

- . Did on laptop with DW already on it.
- . Launched it, asked if you want to update it, and then completed.
- . Very simple.
- . Just sign on to address in David's email. Must use the file name that David gave us in the email.

If try to connect to the PREP side of Scribe, see new information.

If try to connect to the PROD side of Scribe, looks the same as we current see.

Cannot test the new Scribe tool until all the upgrade is completed.
