I. Chair's Report

II. Banner

A. Banner SSB (UAOnline) testing – Testing ongoing. We need approval today. See attached file for the list of problems found and if they were seen as local mods or things for SunGard. Currently involved in discussions with SunGard about what changes they will make. UAA and UAS approve. UAF will give approval this afternoon.

B. SSR2SEC TR – Final problems fixed and are in PROD!!!

C. Delivery methods default selection in SSASECT – Done

D. NDUPL duplicate checking override – In LRGP and approved by UAA and UAF. Double-checking approval from UAS.

E. SSR2DNL TR – Has been put into LRGP. I am verifying that it looks ok for a larger testing audience, but feel free to jump in if you want to take a look. You'll want to make sure you have the original TR.

F. Banner 8 allows duplicate section numbers when using the copy CRN feature in SSASECT. Waiting for update from Jane.

III. Old Business

Recap of the Face-to-Face in Anchorage

Feedback:
• One of the better F2Fs
• Accomplished a lot
• Got more out of it
• The section number review was good
• Well worth it
• Next time we should have it in Hawaii!

It is finished and was a big success!!!

Sarah will send out the requested documents from the conference as soon as she can. If there is something you'd like to get a hold of digitally, please let her know. Request for the worksheet and the key

IV. New Business

• Proposed addition from Anna to the delivery methods options:
  INDRSRCH   Research/Thesis
  Final choice was INDR/T Independent Research/Theses

- Discussion about how to code internships and practicums so we can be consistent.
  Decision to request new delivery method:
  INT/PRAC   Internship/Practicum
  Sarah will send request to sdsit to add both new codes.
- Banner Issues/Observations:
  The copy CRN feature does not coy the course delivery methods. This may be something we want to do a task request about in the future.

V.   Adjourn

Next scheduled CCS meeting: February 24, 2011 at 10:30
