EMAS Work Team Audio
09-27-2011
2:00 – 3:00
Audio # 1-800-893-8850
Audio code 3178469

Present: Julie, Crystal,

Agenda:

1. Banner Relationship Management Software –

2. Web 4 Prospect –
   a. Any updates?

   b. <mark>Clean Address update</mark>: Still does not work with SRTLOAD. Will work with Test score and web for prospect loads as long as they are manually matched. Does not reject addresses that are not on USPS. Can send 1st class mail to these addresses but cannot send bulk mail. Limits characters to 30. Julie and Crystal are ok with moving it to PROD with the understanding that work will continue on making CleanAddress work with test score loads. Crystal will check with UAA on their testing.

3. EMAS –

   a. UA Scholar Bridge –

   b. <mark>Bridge update:</mark> Julie not seeing 500 and 600 students – Julie is seeing 500 level students, 600 level students have not come out yet because it is not 4 weeks after the start of the semester, which for both Julie and Crystal was September 1st.

   c. Task Requests –

   Scholars Task Request

   <mark>Financial Aid</mark> –No update.

   d. Any Banner Issues? Errors with tape loads and web for prospect loads – if email address and type match to incoming record, record is suspended on SRIPREL. Workaround cumbersome- waiting to hear back regarding this issue. Manual fix is to go to SPAIDEN and delete duplicate email address/type that matches to incoming record.

   e. Any other general updates?

   f. <mark>EMAS 9 Upgrade</mark> and EMAS 8.6.6 Upgrade –
      i. Data Clean EMAS – Crystal hasn't done any cleanup – Julie has not done any cleanup either. Looking at starting in early October.

      ii. Test Bridge Files

      iii. Work on SOAXREF –

      iv. EMAS 8.6.6 – Crystal finished the upgrade to 8.6.6 this past weekend. Has some issues with not being able to backdate stage history information that were not discovered in testing.

4. Jane Update:

5. Other items/updates
