EMAS Work Team Audio
2013-01-15
10:00 – 11:00am

Audio # 1-800-893-8850
Audio code 3178469

Present: Winston, Julie, Crystal

Agenda:

EMAS 9 Updates – UAA says EMAS 9 going well. Winston asked about majors with 000000. UAS says it's going well. Julie is looking at updating February to upgrade. UAF still on EMAS 8.6.

Banner Updates – Nothing.

Banner Testing – Anyone done any testing for Oracle 11g? Crystal has done testing for recruit screens and has seen no issues. Crystal will do some testing on SRR2BE1 to make sure. Crystal asked about Praxis scores. UAS doesn't load Praxis scores electronically – they manually enter them, so this doesn't affect them. Winston doesn't load them, so the changes don't affect UAA.

Web 4 Prospect Updates – None

Clean Address Updates – None – Crystal mentioned the email from the BSIS – all are in agreement that the country codes can be removed and only use state codes for US Territories like PR, GU, etc.

Agenda Items for Face to Face:

HS School District Name Requests
Bridge comparison differences between UAA, UAF, and UAS
Financial Aid Task Request – status and discuss what we want to do.
Data Fixing – impacts on EMAS 9 – high school codes
Expanding out to other departments/schools outside of Admissions

Retention Pro – Julie says that UAS is moving forward with Retention Pro – Registrar and Advisors offices using it to start with – then once it's up and running, rolling out to faculty. UAA doesn't seem to be interested in Retention Pro. UAF is interested, but something can't take on right now.

Next regular meeting will be January 29, 2013.
