Reg team minutes – July 1, 2010 – **NEXT MEETING JULY 29 at 2 pm**

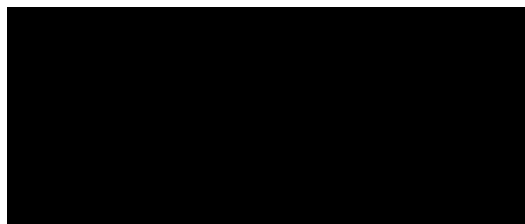

Attending: Anita, Patty, John, Barbara, Colleen, Mary, Shelly

Waitlist discussion: Colleen will create the letter by end of next week; A notice will go out across the list to begin testing. The following was from Patty concerning the time variable.
So it appears that we probably can create a 'TIME' variable for this letter gen for Waitlists as there is a variable out in the Admissions area that was done for an appointment begin time:

We just need to figure out where we are trying to pull this data in from to see if we can tie into the field with the time stamp. I see on SFASTCA if that is where we might pull from, there is an Activity Date that has the HH:MM information following after it – again not sure until we actually try to develop this variable as to what will actually come out on the email to student:

The approved wording for the letter is below. Thanks Colleen for agreeing to write it in letter gen.

<Date><Time>

<Student Name>:

A seat is now available for you in <CRN> <SUBJECT> <CRSE NUMBER> <SECTION NUMBER> <Title>, for <Term>. You will have 36 hours from the time noted above to log into UAOnline and register or drop from the waitlist for this course. After your time slot has expired, you will be removed from the waitlist if you have not successfully registered for this course.

 The Office of the Registrar

_____

Carry over from Monday's Acad Hist meeting:
   Forms to test for Jane – here is a message from Jane in response to our questions:
 Hi All -
The forms needed to be recompiled because they use a new version of the TB_RECEIVABLE package released in the AR 8.1.1 upgrade.   This API has been modified to maintain the new aid year (TBRACCD_AID_YEAR). The AR 8.1.1 upgrade is relatively small and deals primarily with the Pell Grants in Fin Aid. Do you perform tasks where you use the AID_YEAR?   Does this help? I believe the forms only need to be verified that they come up and work normally for you.   Please let me know if I can provide any more information concerning this.

BTW: General Purpose of the upgrade:
Provide support for allowing up to two Federal Pell Grants per academic year as per Higher Education Opportunity Act. The summer term can now include aid from up to two aid years: the current and either the previous or next aid years.
