

Reg Team Minutes
June 2, 2011

Attendees: Lora Volden, Mae Delcastillo, Anita Hughes, Susan Culley, Colleen Abrams, Shirlee Willis-Hasslip, Shelly Blatchford, Sandy Gravely, and Jane Vohden

Waitlisting

Jane will turn on the timers for 201103. Attached please find the powerpoint presentation that Barbara shared previously. Please go into LRGP and test, you should now be able to see if the timers work correctly. We will still need to discuss any error messages or registration restrictions we want in regards to waitlisting.

SFP2RSG (this team or academic history)- this process is ready to test in LRGP. Please do so before next Reg Team so we can approve a move to PROD. This will delete grade and date for W and AU grades. Letter grades will not delete currently.

Reg Holds- Will table this for Face to Face meeting in Fairbanks this fall. Did discuss possibility of requesting a report that we could run that would notify us that an address had been updated and student had hold.

Math prerequisite/test score error – Colleen mentioned that Admissions is discussing this as well because of the implications with admitting students. Good item to discuss at BST. Currently we need to write task request to give to programmers. Will check with Pete to see where we are at with this.

Next meeting- June 16 @ 2 p.m.

Thanks everyone!
