Turning off ability to change grade mode in UAOnline

Summer- we will turn off on May 13

Fall- we will turn off on September 6

Lora will put these on her calendar to do in SOATERM and add to semester SOATERM set up process.

Reviewing wording "just want to take a class"/Mock Up

Made a couple minor changes. Lora will send to Mary to run by GFC.

Turn off Fall Reg Auto Waitlist.

Unfortunately for Fall- August 25th is the last day to run the batch process, since UAA begins on August 26th. (UAF & UAS are September 5th). Lora will send request to Jane to calendar. Susan suggested adding a comment regarding when the batch process would turn off. Susan will come up with suggested language and location for next meeting.

Prerequisite Messaging in UAOnline

Faculty member indicated the "Prereq not met" was misleading in UAOnline since a student could be currently enrolled. Suggested that where the grade would show (if student had completed) that we add "currently enrolled" when appropriate.

Susan and Libby will develop a task request for this.

UAF will write a TR to request this change.
