

Reg Team Audio  
June 27, 2013- 2 p.m.

Attendees: Julie, Eric, Mae, MJ, Lora, Alyona, Susan, Fran, Libby, Mary, Jane, Mayra, Jennifer (Kodiak), Barbara

Call in Information: 1-800-893-8850

Pin 6384637

Presenter- 6384360

**Agenda Items:**

New Business

- Task Request 186- Rewording UAOnline. Approved by all, forward to BST.
- Registration Status "Audit"- web grading (Mae)- can run process to post grades or do error report to match 'A' grade mode to 'AU' registration status.
- Task Request by Libby regarding waitlisting. Since WL has to be all or nothing. Would like to ability to turn on/off by MAU. Campus that ends WL early would have to run process to remove WL form courses. Libby will work on TR. May not have in place for fall, but will work to move it forward.
- We currently have a program being used by our Continuing Education department, here in Sitka, which is not intergraded with Banner that allows students to "register" and pay for their classes. The COED department brings these down to us in Registration and we process these into banner. However this process causes a lot of other issues for us. The reason for this program is that COED requires payment for their classes at time of registration and currently there is no function in Banner/UA Online that does this. I was talking to Mae this morning about this. She suggested that I bring this up to the Reg Team about the possibility of adding a function to UA Online that flags certain courses to require payment at time of registration. Is this even possible to do? Do other campuses have this kind of issue as well? (Eric)- Jane will research this. May also be useful for students registering for late starting classes after payment deadline.
- From Barbara- is there a way to utilize radial full-time/part-time button. Jane will research this.
- 

Old Business

- Can we error anyone who attempts to WW with status of WL? (Jane)
- Registration Fee Assessment (Barbara)- tabled until finance changes in UAOnline are done.
