**April 2, 2015**

**Attended:** Alyona, Libby, Eric, Jane, Mary, Brandon, Fran, Julie, Lindsey.

1. Upgrade from college scheduler. Please see the message attached.  
Jane: the upgrade is the ability to gather statistics from the scheduler. However, it's not yet available in the interface. Jane will find out exactly how we would be able to get access to the stats if the upgraded package is released in prod.  
Thank you, Jane!

Status updates from the last meeting:

2. TR 295 - Mass Drop of Enr Courses Not Meeting Prereq  
TR will be assigned to a consultant to be done sooner. Jane will send out an update once it's done.
3. TR 278 – Waitlist Process

TR 292 which also dealt with waitlist process has been closed.

Decision needs to be made whether TR 178 needs to be closed or just changed to a lower priority now that we are moving to common calendar.

The issue of having no option to register from the waitlist is still a problem. It will just affect fewer students.

UAF: it's still an issue just for the smaller number of students. OK with low priority.

UAS: can close until we figure out the common calendar.

UAA was OK with closing it to redirect efforts into where they are needed more, even though it would be nice to get it fixed eventually.

Approved for low priority.

4. TR 179 – Correct Prereq message not displayed for faculty  
Approved by UAF and UAA.  
UAS still looking into it and will update next week.
5. TR 97 – Add link to holds  
Everybody still needs to test this one after tweaks have been made. Will approve by email.

Additional items from Jane:

- Adequately obnoxious message placed in UAOnline asking students to be patient in peak times.
- Jane will send out an email with adjusted schedule for different jobs
- Math prerequisite list has not been changed since it was posted in UAOnline

Thank you.
