

Subject: Support Services Minutes
Date: July 13, 2004

Attendance: UAA – Mary, Patty, Christina, Marian, Tara, Russ
UAS – Not able to attend, conflicting obligation
UAF – Colleen was out on vacation

1. Corrections to the 6/29 minutes? NONE
2. Other items to add to agenda? NONE
3. Comments and feedback on testing:

Marian Mitchell has done a small amount of testing. She can assign existing services to students, but the system will no longer allow her to create new validation table codes that she was able to do previously. Patty will go through each validation table and see which ones are not set still for maintenance. She will contact SW and let them know.

UAA decided to get together as a group on Tuesday, July 20th to do some group testing of the product. We plan to meet in UC 106B from 10-11:30am. UAA members will contact Patty to confirm their calendars are open for that day and time.

Tara and Russ were still having a problem logging into LRGP. They will let Patty know.

4. Next meeting set for July 27, 2004 at 10am.
