Notes to the University of Alaska Approved Operating and Capital Budgets Fiscal Year 2024

This publication was prepared by the University of Alaska System Strategy, Planning, and Budget Office. It presents the University of Alaska's actual and budget information in accordance with the State of Alaska reporting requirements. This report includes revenue by funding source and expenditures by NCHEMS for the fiscal years ended June 30, 2022 and June 30, 2023 and the management plan authorized budgets for the fiscal year ending June 30, 2024. The UA audited financial statements can be found at <http://www.alaska.edu/fund-accounting/>.

1. License Plate Revenue is pass-thru funding for Alumni at Anchorage Campus, Fairbanks Campus, and Juneau Campus. In Banner, the actuals occur at the campus, but the state requires it be reported in the Systemwide Component (SYSBRA) where it is appropriated. Revenue fund (1234 DGF) was established in FY15 to record UA Alumni License Plate revenue. In FY18 the appropriation was moved from the language to the numbers section of the operating bill.
2. In accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, as amended by GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities, the university is required to report student tuition and fee revenue net of allowances and discounts.

The tuition allowance is defined as the difference between the stated price for tuition and fees (and room and board) and the amount(s) paid by the student or directly by third parties on the student's behalf (e.g. Scholarships, Federal Aid, etc.). In other words, the allowance is the amount of institutional resources provided to the student for tuition. One of the benefits in recording the tuition allowance is the elimination of the double-counting of revenue previously inherent in university fund accounting. This occurs when Pell grants, for example, are recorded as both federal receipts and as tuition revenue.

From an accounting budgetary perspective, the effect of recording the tuition allowance (as compared to years prior to FY03) is a reduction in student tuition and fee revenue (unrestricted funds) and an equal reduction in student aid or miscellaneous expense (restricted funds) at the allocation level. These transfers between unrestricted revenue and restricted expenditures cause unrestricted expenditures in the Scholarship NCHEMS category to show as a negative number when reported separately.

3. Prior to the FY18 publication, Unrestricted Expenditures/Encumbrances included Unrestricted (10) and Designated (15) fund types. Throughout this publication, Unrestricted Expenditure/Encumbrances include Unrestricted (10) fund type only.
4. The State of Alaska budget system (ABS) requires financial reporting in the hundreds of dollars. This may cause minor rounding disparities between this publication and other reports.
5. UA reports several program receipts together (see University Receipts under Designated Funds in Appendix C). Actual revenues by funding type are balanced to expenditures using university receipts (SBS code 1048). University receipts are used exclusively in order to preserve activity in other revenue sources (e.g. student tuition/fees, indirect cost recovery, etc.). This practice may cause the sub-category for university receipts to show as a negative. The University Receipts grouping for State reporting will remain positive.
6. Lapse of State Appropriations: Alaska Statutes 37.25.010 (c) provides that unexpended balances of one-year appropriations will lapse on June 30 of the fiscal year of the appropriation; however, the University receipts in excess of expenditures may be expended by the University in the next fiscal year. University receipts include student tuition and fees, donations, sales, rentals, facilities and administrative cost recovery, investment earnings, auxiliary and restricted revenues. The unexpended balances of capital appropriations are generally reviewed after five years or lapse upon a determination that the funds are no longer necessary for the project.

Notes: Continued:

7. Late in FY21 OMB established a new SBS code (1265) to track COVID-related Federal funds. Since most UA funds used to record COVID activities were already in use throughout FY21 it was deemed best to adjust for the new code during the OMB reporting process rather than in Banner.
8. During fiscal year 2020, the World Health Organization declared the spread of Coronavirus Disease a worldwide pandemic. COVID-19 has had significant effects on global markets, supply chains, businesses, and communities. Specific to the University, COVID-19 impacted several of its fiscal year operations and financial results, such as a decline in enrollment and loss of auxiliary revenue. Since the beginning of the pandemic, the University has been awarded various COVID assistance and relief funding totaling over \$90 million from federal, state and local governments. This funding covers COVID-related costs incurred to mitigate the pandemic impact, in addition to lost tuition revenue and lost auxiliary revenue, and emergency financial aid passed on directly to students. COVID grant and contract activity is summarized for each MAU.
9. In FY24 all TVEP funding was moved from the numbers section to the language section of the bill. This is a technical adjustment, no impact to the program process is expected.

Notes:

August 30, 2023

- (1) The Department of Revenue's (DOR) Spring 2023 oil forecast for FY24 is 512,100 barrels per day total Alaska production at \$73 per barrel.
- (2) Carryforward is money that was appropriated in a prior year that is made available for spending in a later year via multi-year appropriations. Repeals increase revenue by reducing prior year authorization. Reappropriations to operating budget funds are counted as UGF revenue. The FY24 revenue adjustment is due to a portion of the AIDEA dividend being substituted for provision of real property to the Department of Natural Resources.
- (3) Restricted revenue equals spending for each category. Designated general funds include 1) program receipts that are restricted to the program that generates the receipts and 2) revenue that is statutorily designated for a specific purpose. Other funds have stricter restrictions on usage, and federal funds originate from the federal government and can be used only for a particular purpose. Several appropriations for federal receipts include "open ended" authorization that allow the agencies to accept any amount of federal funds received in connection to COVID-19 response (Medicaid, Public Health Emergency Programs, Disaster Relief Fund, Unemployment Insurance, and Workforce Services). The amount of actual FY23/FY24 federal receipts for COVID-19 response may be greater than shown.
- (4) Duplicated authorization is in the budget twice, such as when funds flow in and out of a holding account or one agency pays another for services provided. Duplicated authorization also includes the expenditure of bond proceeds when debt service on bonds will be reflected in future operating budgets.
- (5) The FY23 enacted budget appropriated \$420.1 million for an energy relief payment, which is shown separately from the Permanent Fund Dividend (PFD) payment, though the energy relief was distributed with the PFD. The FY24 enacted budget includes a provision that if revenues exceed DOR's Spring Revenue Forecast, excess revenues will be split in half between the CBR and a deposit into the dividend fund. The dividend fund appropriation would occur at the end of FY24 and would be distributed as an energy relief payment in FY25 in addition to the FY25 PFD. The dividend fund appropriation is capped at \$318.3 million (of excess revenue), and any further revenues would entirely flow into the CBR.
- (6) Including duplicated fund sources in the amount of capital spending provides a valuable measure of "money on the street" because it includes projects funded with bond proceeds and other duplicated fund sources.
- (7) The "Pre-transfer Surplus/(Deficit)" indicates if projected state revenue is sufficient to pay for the budget before using money from savings or non-recurring revenue sources. If projected state revenue is projected to be insufficient indefinitely, it is often referred to as a "structural deficit."
- (8) "Fund Transfers" refer to appropriations that move money from one fund to another within the Treasury. Although transfers are not true expenditures, they reduce the amount of money available for other purposes so must be included in the calculation of the surplus/deficit. For reserve accounts, a positive number indicates a deposit and a negative number indicates a withdrawal. When money is withdrawn and spent, the expenditure is included in the operating or capital budget, as appropriate. For example, the appropriation to transfer court filing fees from the general fund to the civil legal services fund.
- (9) The FY23 enacted budget appropriated \$1,215.1 million from the general fund to the public education fund to forward fund the FY24 K-12 Foundation formula, conditional on sufficient revenue remaining after all other appropriations. Due to insufficient revenues, this appropriation was reduced to zero.
- (10) Ch. 1, SLA 2023 allows appropriation from the CBR to cover any deficit between the FY23 enacted budget and actual revenues, as well as up to \$115 million in supplemental appropriations. Appropriations from the CBR occur after appropriating the remaining SBR balance. The FY24 enacted budget contains no language appropriating from the CBR.

FY24 Appropriation and Allocation Structure

The University of Alaska has a single appropriation structure. For organizational and managerial purposes, the university's budget is grouped into Results Delivery Units (RDU) with related components (allocations) as outlined below. The legal effect of this structure is that budget controls are established at the allocation level, but adjustments can be made between those allocations with the concurrence of the Office of the Governor through the revised program process. The Management Plan scenario allows agencies to adjust their budgets and reflect management decisions in allocating staff and funding to implement their current year programs and services within their existing budget. These budget adjustments are called revised programs.

State Fund Groups¹ and University of Alaska Revenue Descriptions

The following state fund groups (Unrestricted General Funds, Designated General Funds, Federal Funds and Other Funds) are used to summarize budget activity and indicate the level of discretion over the use of the funding. The revenue descriptions are the University of Alaska's definitions of funding sources within each fund group.

Unrestricted General Funds (UGF): As the name indicates, there are no statutory designations or restrictions on funding included in this group. Funding in this group can be (and is) appropriated for any purpose.

- **General Fund:** Monies received from the general operating fund of the state are used to finance the general operations of the university. Includes revenues with SBS code 1004.
- **General Fund Match:** Monies received from the general operating fund of the state, specifically authorized for funding matching requirements of restricted funds and are reserved for these purposes exclusively. Includes revenues with SBS code 1003.
- **GF/Mental Health:** GF/Mental Health revenues help fund the Masters of Social Work program at UAA as well as other programs approved by the Mental Health Trust. These programs provide a specialized curriculum for working with the beneficiary groups of the Mental Health Trust Authority and Alaska Native populations, providing an in-state avenue for social workers in Alaska to earn a Master's Degree. These degrees are required for licensing for many federal and state positions, including clinical social workers. Licensed clinical social workers are the primary providers of mental health services in much of Alaska, particularly in communities served by and dependent upon community mental health centers. Includes revenues with SBS code 1037.

Designated General Funds (DGF): Although the Constitution prohibits the dedication of funds (with a few exceptions) and the Governmental Accounting Standards Board indicates that all state funds are technically part of the general fund, the legislature has statutorily designated some revenue sources for a specific purpose. For instance, by statute, § 37.05.146 (b)(2) program receipts for the University of Alaska (as defined in AS 14.40.491) are accounted for separately and appropriations from these program receipts are not made from the unrestricted general fund.

- **License Plates:** Fund was established in FY2015 to record UA Alumni License Plate revenue. Includes revenues with SBS code 1234.
- **Technical and Vocational Education:** Since 2001 Senate Bill 137 (established in 2000 by SB289), has provided Technical Vocational Education Program (TVEP) funding to be used for workforce development (WFD) programs at UA. Includes revenues with SBS code 1151.
- **University Receipts:**
 - **Interest Income:** Interest Income includes revenue generated from short-term investments of grant receipts and auxiliary enterprise receipts. Includes revenues with SBS code 1010.
 - **Auxiliary Receipts:** Auxiliary Receipts include all revenues associated with self-support activities such as the bookstore, food service and housing operations. Includes revenues with SBS code 1015.
 - **Student Tuition/Fees:** Student Tuition/Fees includes revenues generated from tuition charged to students for instructional programs as well as fees charged in support of specific activities such as material, lab, activity and health center fees. Student tuition and fee revenues and certain other revenues from students are reported net of scholarship allowances. Scholarship allowances are the difference between the stated charge for tuition and room and board provided by the University and the amount paid by the student and/or third parties making payments on the students' behalf. Includes revenues with SBS code 1038.

Revenue and Expenditure Categories and Descriptions

University Receipts (continued)

- **Indirect Cost Recovery:** Indirect Cost Recovery (ICR) revenues are generated from federal and other restricted grants and are used to help offset administrative and support costs that cannot be efficiently tracked directly to grant programs. ICR rates vary according to rates audited and approved by the university's cognizant federal oversight agency. Includes revenues with SBS code 1039.
- **University Receipts:** University Receipts include restricted revenues received from corporate sources, private donations, and local governments, as well as revenues received from publication sales, non-credit self-support programs, recreational facility use fees and other miscellaneous sources. Includes revenues with SBS code 1048.

Federal Funds (Fed): Contains funding received from the federal government and the legislature has limited discretion over the use of this funding. Typically, federal funds must be spent as specified by the federal program.

- **Federal Receipts:** Federal Receipts include most revenues received from the federal government. These include restricted federal grants from such agencies as the National Science Foundation, U.S. Small Business Administration, U.S. Dept. of Defense and other federal agencies, as well as federal funding for student financial aid and work-study programs. Includes revenues with SBS code 1002.
- **COVID-19 Federal Receipts:** Late in FY21 OMB established a new SBS code (1265) to track COVID related Federal funds. Since most UA funds used to record COVID activities were already in use throughout FY21 it was deemed best to adjust for the new code during the OMB reporting process rather than in Banner.
- **Federal Receipts-ARRA:** Federal Receipts received from federal agencies related to the American Recovery and Reinvestment Act of 2009 (ARRA). These include restricted federal grants from such agencies as the National Science Foundation, Department of Health and Human Services, National Institutes of Health and other federal agencies, as well as additional federal funding for student financial aid and work-study programs. Except for Pell Grants and Federal Work Study Grants, which are part of the Operating Budget, authority for ARRA receipts are contained in the Capital Budget. Includes revenues with SBS code 1212.

Other Funds (other): Contains fund codes over which the legislature has limited discretion. It also includes duplicated funding (such as interagency receipts).

- **State Inter-Agency Receipts:** Contractual obligations between state agencies use University account code 9330 only. In FY10, ARRA funds became available from the Federal Government and may be passed through to the University of Alaska on an RSA. These funds would be identified by University account code 9332, but will roll up to State Inter-Agency Receipts on all state reports. Includes revenues with SBS code 1007.
- **MHTAAR:** Mental Health Trust Authority Authorized Receipts directed toward University of Alaska projects and programs in support of initiatives of mutual interest to the Trust, the University and the Alaska Health Workforce Coalition. Includes revenues with SBS code 1092.
- **CIP Receipts:** Capital improvement project (CIP) receipts are generated by chargeback to capital improvement projects to support CIP personal service administrative costs. Includes revenues with SBS code 1061.
- **UA Intra-Agency Receipts:** All internal charges for services provided by central service departments to other university departments. This includes services such as physical plant work orders, printing and computer repairs, and certain administrative functions such as risk management and labor relations. Includes revenues with SBS code 1174.

Revenue and Expenditure Categories and Descriptions

Fund Types²

The University of Alaska uses the following four primary fund classifications:

- **Unrestricted Funds:** Unrestricted funds are current funds which are available for use within the current operating period (i.e. fiscal year) for which there is no apparent use restriction. Includes revenue with fund type 10.
- **Match Funds:** Match funds are a hybrid fund type between unrestricted and restricted; while they are an integral part of restricted program management, the funding for them derives from unrestricted sources. They are subject to the rules associated with restricted funds, UA accounting regulations associated with unrestricted funds and are also included as part of the reporting requirements to the sponsoring agency. Includes revenue with fund type 14.
- **Designated Funds:** Designated funds are unrestricted current funds which have internal restrictions but which do not meet the accounting guidelines for restricted funds. Funds for UA Scholars is an example of designated funds. Includes revenue with fund type 15.
- **Restricted Funds:** Restricted funds are current funds received by the university but their use is limited to specific projects or purposes by grantors, donors or other external sources. Includes revenue with fund type 20.
- **Auxiliary Funds:** Auxiliary funds are unrestricted current funds of enterprises which furnish services directly or indirectly to students, faculty or staff and which charge fees directly relating to, but not necessarily equal to, the costs of the services. Bookstores and housing systems are examples of enterprises which generally meet the accounting criteria for classification as auxiliary enterprises. Includes revenue with fund type 30.

State Expenditure Categories (Natural Classifications)³

The State requires agencies to report actual and budgeted expenditures in specific categories. The State's definition of these categories is as follows:

- **Personal Services (UA Salaries & Benefits):** Proposed expenditures for the staffing costs of the budget request unit or allocation. The costs include salaries, premium pay and benefits for all permanent and non-permanent positions. Includes expenditures with SBS code 71xxx.
- **Travel:** Proposed transportation and per diem expenditures incurred while traveling on authorized state business and proposed expenditures associated with the moving or relocation of an employee. Includes expenditures with SBS code 72xxx.
- **Contractual Services:** Proposed expenditures for services provided by a third-party including communications, printing and advertising, utilities, repairs and maintenance, equipment rentals and lease/purchases, judicial expense, professional services, and data processing chargeback costs. Includes expenditures with SBS code 73xxx and 78xxx (except for those with UA account code 8451; see Miscellaneous).
- **Commodities:** Proposed expenditures for the purchase of items normally consumed or expended within one year of being acquired or equipment purchases valued under \$5,000. Includes expenditures with SBS code 74xxx.
- **Capital Outlay (Equipment/Land/Buildings):** Proposed expenditures for the purchase of durable items with a unit value between \$5,000 and \$25,000. Includes expenditures with SBS code 75xxx.
- **Grants/Benefits (UA Student Aid):** Funds disbursed by the state to units of local government and to individuals in payment of various benefits and claims. Types of grants include: Designated, Municipal, Named Recipient, Unincorporated, Competitive, Grants to Individuals, etc. Includes expenditures with SBS code 77xxx.

Revenue and Expenditure Categories and Descriptions

State Expenditure Categories (Natural Classifications) (continued):

- **Miscellaneous (UA Debt Service):** This line item is used for expenditures that are not specifically covered by other line items. For budget and actuals, UA uses this line item for debt service payments only. Budgets are based on UA Fund Accounting's debt schedule; actual expenditures are reported using UA account code 8451 (SBS code 78xxx).

NCHEMS Descriptions⁴

Through the definition and usage of program codes, the University of Alaska classifies all expenditures into standardized categories that are nationally recognized and utilized by most institutions of higher education. These categories, which were published by the National Center for Higher Education Management Systems (NCHEMS), are described below:

Instruction and Student Related:

- **Academic Support:** The academic support category includes expenditures related to academic administration and governance to the institution's academic programs; academic program advising; course and curriculum planning, research, development and evaluation, including faculty development; and academic computing, including regional academic mainframes and the student micro-computer labs.
- **Instruction:** The instruction service category includes expenditures for all activities, which are part of the system's instruction programs. Instructional services include all credit and non-credit courses for academic and vocational instruction.
- **Intercollegiate Athletics:** Intercollegiate athletic sports are organized in association with the NCAA or NAIA. The intercollegiate athletics category includes expenditures for the necessary support staff associated with the athletic programs.
- **Library Services:** The library services category includes expenditures for services, which directly support the collection, cataloging, storage and distribution of published materials -- periodical, subscription and book holdings, microfiche and other reference technology aids and inter-library bibliographic access through networks such as Online Computer Library Center (OCLC) and Alaska Library Network.
- **Scholarships:** The scholarships category includes scholarships and fellowships in the form of grants to students, as well as trainee stipends, prizes and student awards.
- **Student Services:** The student services category includes expenditures related to admissions, the registrar, and those activities whose primary purpose is to contribute to the students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instruction program. Student services include social recreational and cultural activities; counseling services which include personal, career guidance and placement, and vocational testing; student health medical services; financial aid management and student employment; student admissions, registration, and student records administration; and student recruitment marketing and counseling.

Other:

- **Auxiliary Services:** The auxiliary services category includes expenditures for conveniences and services needed by students to maintain an on-campus, resident student body. These services include resident student housing, food service dining halls, retail stores' operations such as the bookstore and vending machines, and specialized services such as childcare.

⁴ University of Alaska, Accounting and Administrative Manual, Section 200: Program Code Definitions, 2011

Revenue and Expenditure Categories and Descriptions

Other (continued):

- **Institutional Support:** The institutional support category includes expenditures related to executive services and other institutional support functions. These services include the following: the office of the President, chancellors' offices, business offices, accounting, budget, EEO/AA, educational properties management, facilities planning and construction, finance, human resources, information services, institutional research, internal audit, investment properties management, legal counsel, payroll, procurement, records, risk and hazardous materials management, systems maintenance, university relations, support for the assemblies and the Board of Regents.

- **Physical Plant:** The physical plant category includes expenditures related to plant administrative services; building maintenance services including routine and preventative repair and maintenance of buildings and structures; remodeling and renovation projects; custodial services including janitorial and elevator operations; landscaping and grounds maintenance services; utilities services including electricity, heating fuel, garbage and sewage disposal; and specialized safety and code compliance management services including campus security and hazardous materials management. Also included are expenditures for fire protection, property insurance and similar items.

- **Public Service:** The public service category includes expenditures for activities whose primary purpose is to make available to the public the various unique resources and capabilities of the university in response to a specific community need or problem. The major public service units are the Cooperative Extension Service, KUAC Radio and TV, small business development programs and other community service programs produced in cooperation with community organizations and local governments.

- **Research:** The research category includes expenditures for activities directly related to scientific and academic research. The majority of the research is funded by non-general funds.

- **Unallocated Authority:** The unallocated authority category is not part of the standardized NCHEMS categories used by other institutions of higher education. It is a special category created by the University of Alaska to hold additional budget authority separate from other NCHEMS until such a time as it is needed.

| FY97 | (In FY97, the UA requested \$3.5 million GF for full funding for covered and non-covered employees. The Governor's amended budget included \$2.6 million GF, which represented full funding for covered employees but only an amount equivalent to 1.5% for non-covered employees. This latter amount was combined with salary increases for State of Alaska employees, and was then appropriated in its entirety to the Office of the Governor to be transferred out to agencies. However, the legislature reduced the total amount appropriated for all these needs by approximately \$1.7 million for anticipated savings for RIP and other changes to the retirement system. As a result, the amount to be distributed to the university was reduced from \$2,556.9 to \$2,183.2, necessitating an internal reallocation of approximately \$1.3 million to cover the balance of the cost of FY97 salary increases.) | FY98 | - Non-covered staff Average 2% step increase; (Funding to cover salary increases for contract employees that were included in the Governor's original budget was appropriated in its entirety to the Office of the Governor, to be transferred to agencies as appropriate. This appropriation included a specific line item for the University of Alaska in the amount of \$233.2 total funds, which represents amounts requested for the CEA. These funds were subsequently established in the UA state accounts as 63.8 GF, 166.4 Investment Loss Trust Fund (ILTF), and 3.0 other non-GF. | | - United Academics 2.6% salary adjustments for promotion, equity and merit per BOR policy, pending negotiation of new contract; (This represents partial funding for the United Academics. The BOR's FY98 request included \$936.6 GF (\$1,604.7 total funds) for FY98 salary increases for the United Academics. The Governor's request included a base adjustment for only \$540.3 GF (\$925.8 total funds) of this request, an amount which was to represent a 1.5% adjustment instead of 2.6% as called for in BOR policy. Since the base adjustment was subsequently reversed as an unallocated reduction, the amount included in the Governor's base adjustment was moot. However, during the legislative session, the Legislature agreed to include the difference between the amount originally requested by the BOR (\$936.6 GF) and the amount included in the Governor's base adjustment (\$540.3 GF) in its end-of-the-session funding for contract employees in the amount of \$396.3 GF, \$282.7 non-GF.) | 396.3 | SLA97/Ch100/P33/L19 |

| | <p>Article 9.2.A. - The wage schedules below shall be implemented for all Local 6070 bargaining unit members, who are not on frozen pay, beginning July 1, 2023. Grid adjustments will take effect the first full pay period after the specified date of the grid adjustment. 1. The Grid in effect as of July 1, 2023 will increase 2.75%. 2. The Grid in effect as of July 1, 2024 will increase 2.5% 3. The Grid in effect as of July 1, 2025 will increase 2.75%.</p> <p>The University will seek an appropriation for an adjustment to the across the board compensation increase for bargaining unit members equal to the percentage by which a request for an appropriation for an across the board compensation increase for University of Alaska employees outside the Local 6070 bargaining unit exceeds the across the board increases set forth in this agreement for Fiscal Year 2026. The request will be calculated based on the fiscal year of the contract for which the request arises and is limited to across the board increases. For example, if, during the term of this agreement, the University sought an appropriation for a three percent (3%) across the board increase for non-bargaining unit members for Fiscal Year 2026 of this</p> | | |
