# DISPOSAL PLAN 

 QUOTA SUBDIVISIONNENANA, ALASKA<br>\section*{Township 8 South, Range 9 West, Section 3, 10 \& 15, Fairbanks Meridian Plat Number 81-5 \& Plat Number 83-6, Nenana Recording District}

The University of Alaska is offering several lots and combined lots for sale in Quota Subdivision located approximately 30 miles south of Nenana at MP 275.2 of the Parks Highway. Primary access to the subdivision is from the Parks Highway to Kobe Ag Road and Rochester Way. Most subdivision roads are platted but not constructed and access to any lots or combined lot is the responsibility of the individual purchaser.

Lots located within Quota Subdivision are generally level and covered in spruce, birch and aspen. The lots may contain wetlands and may require a U.S. Army Corps of Engineers wetlands permit prior to any additional development. Utilities have not been extended to all of the lots. Interested parties are encouraged to contact the electric service and phone providers to determine costs associated with connecting to electric and phone service. For those lots being offered as a combination of two lots, offers for individual lots will not be accepted.

This notice is effective until all the lots are sold. All the lots will be sold at or above fair market value.

This subdivision is subject to certain covenants, conditions and restrictions. Copies of the Master Declaration of Covenants, Conditions and Restrictions for Quota Subdivision are available above, or from the Land Management office in Anchorage or Fairbanks.

Interested parties should thoroughly inspect these lots prior to submitting an offer to ensure that the lots are suitable for the party's intended use and to determine all permitting requirements related to that intended use. Additional information regarding these lots may be available from local, state and federal offices, including but not limited to: the city or borough assessor's office, building permitting office and land planning office; local utility companies; district recorder's office; the State of Alaska Department of Natural Resources, Department of Environmental Conservation, Department of Fish and Game and Department of Transportation and Public Facilities; and the U.S. Department of the Interior Bureau of Land Management, Geological Survey and Environmental Protection Agency, and the U.S. Army Corps of Engineers.
